

New insights from financial statements

Irving Fisher Committee on Central Bank Statistics,
European Committee of Central Balance Sheet Data Offices, Banco de España

Banco de España, Madrid, Alcalá 48 (17 October 2024)

CALL for PAPERS

This workshop on **New insights from financial statements** aims to explore current use cases of non-financial corporation's financial statements, new perspectives on the use of these data, research findings, innovative ideas, and new analytical methods.

The workshop is jointly organized by the Irving Fisher Committee on Central Bank Statistics (IFC) of the Bank for International Settlements (BIS), the European Committee of Central Balance Sheet Data Offices (ECCBSO) and the Banco de España. It offers a place to discuss recent research findings on the use of firm-level information and will take place directly before the annual meeting of the ECCBSO. Its outcome will radiate in the central banking community, help to understand current needs of users of granular corporate information and be an input to determine the work programs of the ECCBSO and the IFC.

We invite researchers, data analysts and statisticians to submit possible contributions for consideration by the organizing committee. Accepted contributions will be published in a special issue of the *IFC Bulletins* series ([IFC Bulletins \(bis.org\)](https://www.bis.org/ifc_bulletins/)).

The workshop will take place in hybrid format with a preference for physical presentation.¹

Please send the title and abstract (maximum 400 words) of your paper by **31 May 2024** to the email addresses below. The other important deadlines are:

- 14 June 2024: Acceptance notification;
- 30 September 2024: Submission of papers;
- 4 October 2024: Submission of presentations.

Email addresses: IFC.secretariat@bis.org
