| Other BIS publications relating to payment and settlement systems                            | 589 |

i

### Note

It is important that the country tables are read in conjunction with the corresponding statistical methodology. Where the data provided are an exception to the methodology, this is indicated by in the table concerned. A second statistical methodology explains which data have been taken from the country tables for the comparative tables.

Notation used in this publication:

nap not applicable nav not available

0 exactly zero (not rounded to zero; country tables only)

Differences in totals are due to rounding.

**Country tables** 

Table 1
Basic statistical data

|                              | 2010     | 2011     | 2012     | 2013     | 2014     |
|------------------------------|----------|----------|----------|----------|----------|
| Population (thousands)       | 22,068.2 | 22,390.3 | 22,778.5 | 23,161.5 | 23,511.3 |
| GDP (AUD billions)           | 1,357.9  | 1,454.7  | 1,502.2  | 1,551.6  | 1,599.4  |
| GDP per capita (AUD)         | 61,530   | 64,971   | 65,949   | 66,990   | 68,028   |
| Consumer price inflation (%) | 2.8      | 3.0      | 2.2      | 2.7      | 1.7      |
| Exchange rate (AUD/USD):     |          |          |          |          |          |
| end of year                  | 0.9840   | 0.9846   | 0.9630   | 1.1176   | 1.2192   |
| average                      | 1.0870   | 0.9609   | 0.9622   | 1.0416   | 1.1123   |

Table 2
Settlement media used by non-banks

(AUD billions, end of year)

|   | 2010   | 2011   | 2012   | 2013   | 2014   |
|---|--------|--------|--------|--------|--------|
| Notes and coin in circulation outside banks | 47.90  | 50.81  | 53.77  | 57.66  | 61.89  |
| Value of transferable deposits              | 214.75 | 212.36 | 197.31 | 216.51 | 229.07 |
| Narrow money supply (M1)                    | 262.65 | 263.17 | 251.08 | 274.18 | 290.97 |
| Memo:                                       |        |        |        |        |        |
| Transferable deposits in foreign currencies | nav    | nav    | nav    | nav    | nav    |
| Outstanding value on e-money storages       | nap    | nap    | nap    | nap    | nap    |

Table 3
Settlement media used by banks
(AUD billions, average for December)

|  | 2010  | 2011  | 2012  | 2013  | 2014  |
|--|-------|-------|-------|-------|-------|
| Transferable balances held at the central bank | 2.23  | 2.85  | 2.30  | 23.81 | 23.37 |
| required reserves                              | nap   | nap   | nap   | nap   | nap   |
| free reserves                                  | 2.23  | 2.85  | 2.30  | 23.81 | 23.37 |
| Transferable balances held at other banks      | nap   | nap   | nap   | nap   | nap   |
| Memo:  |       |       |       |       |       |
| Credit extended by the central bank:           |       |       |       |       |       |
| intraday                                       | 15.15 | 15.77 | 16.09 | 4.45  | 4.88  |
| overnight                                      | 0     | 0     | 0     | 0     | 0     |
| longer refinancing operations (repos)          | 0     | 0     | 0     | 0     | 0     |

Table 4
Banknotes and coin
(AUD millions, end of year)

|   | 2010             | 2011     | 2012              | 2013     | 2014     |
|---|------------------|----------|-------------------|----------|----------|
| Total banknotes and coin issued                 | 56,269.1         | 59,087.2 | 62,379.4          | 66,544.8 | 70,488.3 |
|   |                  |          |                   |          |          |
| Total banknotes issued                          | 53,081.9         | 55,816.5 | 58,981.7          | 63,018.1 | 66,854.3 |
| AUD 100   | <i>21,4</i> 36.6 | 22,901.5 | 2 <i>4,5</i> 83.1 | 26,836.5 | 29,203.6 |
| AUD 50  | 26,766.1         | 27,786.5 | 29,000.3          | 30,675.5 | 32,163.0 |

<sup>1</sup> Sight deposits only.

Table 3
Settlement media used by banks

(BRL billions, average of last reserve maintenance period except as noted)

|   | 2010  | 2011  | 2012  | 2013         | 2014  |
|---|-------|-------|-------|--------------|-------|
| Transferable balances held at the central bank <sup>1</sup>         | 50.35 | 48.07 | 55.20 | 47.18        | 46.58 |
| required reserves   | 50.35 | 48.07 | 55.20 | 47.18        | 46.58 |
| free reserves <sup>2</sup>  | 0     | 0     | 0     | 0            | 0     |
| Transferable balances held at other banks <sup>3</sup> <i>Memo:</i> | nap   | nap   | nap   | nap          | nap   |
| Credit extended by the central bank:4                               |       |       |       |              |       |
| intraday  | 30.28 | 31.02 | 54.73 | <i>56.14</i> | 81.42 |
| overnight   | 0     | 0     | 61.85 | 0            | 0     |
| longer refinancing operations (repos)                               | 0     | 0     | 0     | 0            | 0     |

<sup>&</sup>lt;sup>1</sup> Not including balance of settlement accounts held by non-bank financial institutions (data are negligible). <sup>2</sup> Data are negligible. <sup>3</sup> In Brazil, banks taking sight deposits from the public at large are not allowed to hold this kind of deposit in another bank. <sup>4</sup> Last business day of the year. Where this value is negative, a zero position is reported (in the last years the Central Bank of Brazil has carried out open market transactions mainly with a view to draining liquidity from the market so as to mitigate the effects of its foreign exchange purchase transactions).

<sup>&</sup>lt;sup>1</sup> Data have been revised from previous years. <sup>2</sup> Banks taking sight deposits (commercial banks and universal banks having a commercial portfolio) only. <sup>3</sup> Includes both traditional and special branches. The latter are mainly restricted access branches (branches located in the premises of a private or public entity and providing services to this entity and its employees only). Temporary branches and specialised branches in microfinance and in gold trade were not included before 2013. <sup>4</sup> Sight deposit accounts only. Since January 2014, banks have not been required to report the number of accounts held by their clients. <sup>5</sup> Data from 2009 to 2012 have been revised. <sup>6</sup> Estimated value. <sup>7</sup> Includes credit unions and bank correspondents (non-financial entities acting as banks' agents, such as lottery houses, drugstores, supermarkets, post offices etc). For bank correspondents, estimated data. <sup>8</sup> Does not include accounts held by non-banks in credit unions.

<sup>&</sup>lt;sup>1</sup> Data have been revised since 2008. <sup>2</sup> Includes delayed debit cards issued by American Express. <sup>3</sup> Source: Brazilian Payment Card Industry Association - ABECS. Since 2013, the source has no longer disclosed industry-level data on the retail cards sector. <sup>4</sup> Data have been revised since 2008. <sup>5</sup> Time series revised. Each terminal is counted separately, unless the terminals are based on a PC-technology solution used in multiple checkouts. In the latter case, each merchant location counts as one terminal, regardless of the number of checkouts.

Table 7
Indicators of the use of payment instruments and terminals by non-banks: volume of transactions (millions, total for the year)

<sup>&</sup>lt;sup>1</sup> Figures prior to 2010 cannot be broken down according to the nature of participants (banks, other). <sup>2</sup> Time series revised. In previous publications, the central bank was not considered a clearing member. However the central Bank must now be considered as such because of one monetary policy instrument (FX swaps) that is cleared at BM&FBovespa.

<sup>&</sup>lt;sup>1</sup> Data have been revised from previous editions to reflect a change in reporting methodology. <sup>2</sup> There are five regional offices and two Agency Operations Centres but only the head office offers payment services. <sup>3</sup> Figures represent the number of accounts held at the Bank of Canada by CPA members for the settlement of the LVTS. <sup>4</sup> Some foreign bank subsidiaries and foreign bank branches are associated with the same parent bank. For the purposes of this table, each institution is recorded separately. <sup>5</sup> Only those companies that are federally regulated and are not bank-owned are included. <sup>6</sup> The large increase in 2014 reflects a change in reporting methodology to include notice deposits in addition to demand deposits. <sup>7</sup> Includes value of accounts held at the central bank by banks and non-banks.

Table 6
Payment card functions and accepting devices (thousands, end of year)

| of which: EFTPOS terminals                        | 727.35    | 740.00    | 794.00    | 829.00    | 879.00    |
| E-money card terminals                            | nav       | nav       | nav       | nav       | nav       |
| e-money card loading/unloading terminals          | nav       | nav       | nav       | nav       | nav       |
| e-money card payment terminals                    | nav       | nav       | nav       | nav       | nav       |

<sup>&</sup>lt;sup>1</sup> Only cards that are actively used to make purchases at POS terminals have been reported. <sup>2</sup> The decrease in 2014 reflects a change in reporting methodology by one issuer. <sup>3</sup> Number of accounts has been reported. <sup>4</sup> Data have been revised from previous editions to reflect a change in reporting methodology. <sup>5</sup> Number of ATMs on the Interac network is reported. <sup>6</sup> Crec transfer functions are, for the most part, limited to proprietary ATMs. Access to the credit transfer functions on these ATMs is restricted to the clients of the associated proprietary institution. ATMs are reported for eight of the largest banks operating in Canada. <sup>7</sup> Figures represent those terminals with at least a debit function and do not include terminals that only have a credit function; includes both shared and proprietary networks. The large increase in POS terminals in 2009 is partly due to the introduction of chip card technology and the necessary upgrades to chip-reading POS terminals.

Table 7
Indicators of the use of payment instruments and terminals by non-banks: volume of transactions¹ (millions, total for the year)

<sup>&</sup>lt;sup>1</sup> Foreign clearing members only participate in SD&C's clearing services for the B share market. For the B share market, foreign entities such as brokers or banks conduct trading activities via domestic brokers as their agents, therefore they are not regarded as direct trading members of the stock exchanges. However, these foreign entities settle their trades directly with SD&C according to the relevant business rules of SD&C.

| Number of foreign participants            | nav    | nav    | nav    | nav   | nav   |

<sup>&</sup>lt;sup>1</sup> According to the definition of direct participants in the Red Book, the system of SD&C is a non-tiered system. SD&C operates all the accounts of (private) customers directly on behalf of securities companies and custodian banks. Securities companies and custodian banks do not operate their customers' accounts in SD&C's system. They are therefore not regarded as 'depository participants' as other tiered systems often are.

<sup>&</sup>lt;sup>1</sup> Payments with delayed debit and credit cards in Tables 7 and 8 include transactions with specific non-rechargeable retailer cards. However, this table does not encompass the numbers of the underlying cards. <sup>2</sup> Up to the reference period 2013, only cards with an e-money function which are credit balanced at the end of the period. <sup>3</sup> Figures collected by PaySys Consultancy GmbH. <sup>4</sup> Encompasses only terminals with reference to the German scheme "Girocard". To avoid double-counting, the number of terminals includes the most widespread scheme only, since terminals usually accept different card brands. EFTPOS terminals only. <sup>5</sup> Only active terminals (terminals with at least one transaction in the reference period). Figures collected by Deutsche Kreditwirtschaft (DK).

<sup>&</sup>lt;sup>1</sup> Includes transactions of national non-banks, irrespective of whether they are processed on an intra- or interbank basis. <sup>2</sup> The scope of payment transactions with cards reported in this section is not larger than that of transactions reported in the section "Transactions per type of terminal". Up to 2013, both sections ("Transactions per type of payment instrument" and "Transactions per type of terminal") include card transactions at virtual points of sale, eg via internet or telephone. <sup>3</sup> Figures include both national and cross-border transactions. <sup>4</sup> Credits to the accounts by simple book entry have been excluded since 2014. <sup>5</sup> Debits from the accounts by simple book entry have been excluded since 2014. Includes direct debits initiated by a payment card (electronic direct debits: so-called "ELV" transactions). <sup>6</sup> Payments with delayed debit and credit cards include transactions with specific non-rechargeable retailer cards. Electronic direct debits known as "ELV" transactions are included here up to 2013.

<sup>&</sup>lt;sup>7</sup> Figures PaySys Consultancy GmbH. <sup>8</sup> Includes e-money card payment transactions. <sup>9</sup> Owing to lack of information, no data are available until 2013.

<sup>&</sup>lt;sup>1</sup> Up to 2012, this series does not include cross-border payments above EUR 1 million, which are assumed to be related to corporate treasury operations. Similarly customer (corporate) payments directly settled in TARGET are excluded. From 2013, these transactions are all included.

<sup>&</sup>lt;sup>1</sup> The NSD was founded in November 2010 as a result of the merger between NDC and MICEX SC. NSD provides securities settlement and funds settlement services.

<sup>2</sup> Due to integration of DCC and NSD clients and custody services were being transferred from DCC to NSD in 2013–14.

| e-money card payment terminals                    | 134,162.0 | 108,265.0 | 124,520.0 | 131,778.0 | 160,552.0 |

<sup>&</sup>lt;sup>1</sup> Based on survey data from selected local and foreign banks. For 2009, ATM figures had better data and some previous double-countings from the banks have been removed. <sup>2</sup> Includes main and supplementary cards for credit and charge cards. <sup>3</sup> All cards with a cash function also have a debit function; they are therefore only counted once here.

Table 7
Indicators of the use of payment instruments and terminals by non-banks: volume of transactions (millions, total for the year)

<sup>&</sup>lt;sup>1</sup> Actual cash reserve requirements. <sup>2</sup> Statutory cash reserve requirement applicable. <sup>3</sup> South Africa allows cash reserve averaging. Free reserves is therefore calculated as the difference between actual and statutory cash reserves. A negative figure implies that banks utilised their cash reserve balances to square off their end of day positions. A positive figure implies that banks deposited surplus reserves on their cash reserve accounts to square off their end of day positions. <sup>4</sup> Includes the Bank's standing facilities and/or supplementary tenders on the last working day of December. <sup>5</sup> The outstanding main refinancing repo (7 days) provided to banks as on the last working day of December.

<sup>&</sup>lt;sup>1</sup> The SADC Integrated Regional Electronic Settlement System (SIRESS), implemented in July 2013, is an electronic settlement system that is hosted and operated by the South African Reserve Bank. SIRESS is used to settle regional transactions among banks within the Southern African Development Community (SADC) countries and is meant to replace current correspondent banking arrangements for settlement of cross-border transactions within the region. <sup>2</sup> Indirect participants include institutions that can clear their payment instructions in their own name. Their transactions are settled (on their behalf) by a settlement participant under a "sponsored settlement agreement".

<sup>&</sup>lt;sup>1</sup> Figures have been amended to include settlement instructions that were processed by the SARB for participants who were unable to submit their instructions within the required timelines. The values for these settlement instructions were previously excluded from the final figures. <sup>2</sup> Volumes of transactions in retail payment streams are settled in batches. Thus, volumes recorded by the system represent the number of batches and not actual transactions settled. <sup>3</sup> The ZAPS (high-value interbank credit transfer system) payment stream was discontinued in 2012.

<sup>&</sup>lt;sup>1</sup> Sight deposits. <sup>2</sup> Notes and coin in circulation plus sight and other transaction deposits. <sup>3</sup> In 2014, the reporting population and the survey approach for e-money were adjusted, so that some data may not be directly comparable with those of previous years.

Table 3
Settlement media used by banks
(CHF billions, average for December)<sup>1</sup>

|   | 2010   | 2011   | 2012   | 2013   | 2014   |
|---|--------|--------|--------|--------|--------|
| Transferable balances held at the central bank <sup>2</sup> | 29.11  | 177.12 | 284.99 | 319.33 | 332.41 |
| required reserves   | nap    | nap    | nap    | nap    | nap    |
| free reserves   | nap    | nap    | nap    | nap    | nap    |
| Transferable balances held at other banks                   | 104.41 | 110.60 | 96.91  | 94.82  | 79.22  |
| Memo:   |        |        |        |        |        |
| Credit extended by the central bank: <sup>3</sup>           |        |        |        |        |        |
| intraday <sup>4</sup>                                       | 7.35   | 5.36   | 2.25   | 1.86   | 1.55   |
| overnight   | nav    | nav    | nav    | nav    | nav    |
| longer refinancing operations (repos) <sup>5</sup>          | 6.190  | 8.010  | 9.423  | 0      | 0.001  |

<sup>&</sup>lt;sup>1</sup> Except for transferable balances held at other banks, which are at end of year. <sup>2</sup> Includes only sight deposits that are held by banks at the central bank and that are eligible as minimum reserves. Excludes sight deposits at the central bank held by institutions that are not obliged to hold minimum reserves. Banks have to meet minimum reserve requirements, for which vault cash in CHF (banknotes and coin) and all their sight deposits at the central bank are allowable. Therefore, the distinction between required and free reserves is not meaningful. <sup>3</sup> Annual average. <sup>4</sup> Average utilisation of the intraday facility. <sup>5</sup> Average level outstanding at the end of the day. Includes repo transactions up to 1 year (including overnight repos).

<sup>&</sup>lt;sup>1</sup> The Swiss National Bank (SNB) has two head offices (Berne and Zurich) and six representative offices (Basel, Geneva, Lausanne, Lucerne, Lugano and St Gallen). <sup>2</sup> Number of sight deposits of banks and non-banks held at the SNB. <sup>3</sup> Not included in the figure for M1 in Table 2. <sup>4</sup> This value is less than that included in the figure for transferable deposits in Table 2 due to differences in the way the figures are compiled. <sup>5</sup> PostFinance until 2012. Since mid-2013, PostFinance has held a banking license. As of 2013, data relating to PostFinance are reported under "Banks". <sup>6</sup> Up to 2012, this figure included post offices and agencies of Swiss Post that offered payment services on behalf of PostFinance. <sup>7</sup> Yearly average. <sup>8</sup> In 2014, the reporting population and the survey approach for e-money were adjusted, so that it is difficult to compare some of the data to that of previous years.

<sup>&</sup>lt;sup>1</sup> In 2014, the reporting population and the survey approach for debit cards, credit cards and e-money cards were adjusted, so that some data may not be directly comparable with those of previous years. <sup>2</sup> As of 2014 data are no longer collected, as most cards reported under debit cards, credit cards and e-money cards can be used for cash withdrawals. <sup>3</sup> Includes delayed debit cards/charge cards. <sup>4</sup> As of 2014 includes prepaid cards with multiple uses; also prepaid cards by international card schemes. <sup>5</sup> As of 2014 data are no longer collected. <sup>6</sup> As a general rule the terminals used to accept physical e-money cards at points of sales are no different to the EFTPOS terminals accepting debit or credit cards.

<sup>&</sup>lt;sup>1</sup> In 2014, the reporting population and the survey approach for debit cards, credit cards and e-money cards were adjusted, so that some data may not be directly comparable with those of previous years. <sup>2</sup> Due to the change in the survey concept and reporting population for credit transfers and direct debits in Switzerland, data as of 2012 do not fully compare with those of previous years. <sup>3</sup> Debit card data reported in Red Book publications of 2013 and earlier included transactions where debit cards were used to authorise credit transfers. In 2014, data were retrospectively adjusted back to 2005 to include only debit card payments for goods and services. <sup>4</sup> Includes delayed debit cards/charge cards. <sup>5</sup> As of 2014, data on cheques are no longer collected, since this payment instrument has declined significantly in importance.

| Memo:  |        |        |        |        |        |
| Credit extended by the central bank: <sup>3</sup>      |        |        |        |        |        |
| intraday   | 21.49  | 22.77  | 30.46  | nav    | nav    |
| overnight  | nav    | nav    | nav    | nav    | nav    |
| longer-term refinancing operations 4                   | 10.58  | 6.16   | 5.35   | 0.01   | 0.76   |

<sup>&</sup>lt;sup>1</sup> On 1 June 1998 a statutory scheme came into effect whereby both banks and building societies with average eligible liabilities of GBP 400 million or more are required to hold non-interest bearing deposits with the Bank of England of 0.15% of their eligible liabilities in excess of GBP 500 million. <sup>2</sup> Includes some time deposits. <sup>3</sup> Banks borrow from the Bank of England mainly through intraday and two-week repo transactions in gilts, Treasury bills and eligible euro securities. Funds obtained in this way may be used for payment purposes. <sup>4</sup> Although largely longer-term, also includes some overnight refinancing operations; a disaggregation is not possible.

<sup>&</sup>lt;sup>1</sup> This table contains all customer transactions. It also, for a number of instruments, includes banks' own account transactions where these cannot be identified separately (see further footnotes). Includes Northern Ireland (estimated) and Scotland; also includes some data and/or estimates of inter-branch and in-house processed items. <sup>2</sup> Includes interbank payments settled in CHAPS; also includes inter-branch paper credit transfers plus some in-house automated transactions (including some transactions on banks' own accounts). <sup>3</sup> Customer transactions only. <sup>4</sup> Does not include data for cards with a "credit and charge" facility. These data are included in the "cards with a delayed debit function" category. <sup>5</sup> Includes inter-branch cheques and estimates of in-house processed cheques; also includes some own account items. <sup>6</sup> Includes all ATM transactions; a further breakdown is not available. <sup>7</sup> Data are for payment cards only.

<sup>&</sup>lt;sup>1</sup> This table contains all customer transactions. It also, for a number of instruments, includes banks' own account transactions where these cannot be identified separately (see further footnotes). Includes Northern Ireland (estimated) and Scotland; also includes some data and/or estimates of inter-branch and in-house processed items. <sup>2</sup> Includes interbank payments settled in CHAPS; also includes inter-branch paper credit transfers plus some in-house automated transactions (including some transactions on banks' own accounts). <sup>3</sup> Customer transactions only. <sup>4</sup> Does not include data for cards with a "credit and charge" facility. These data are included in the "cards with a delayed debit function" category. <sup>5</sup> Includes inter-branch cheques and estimates of in-house processed cheques; this will also include some own account items. <sup>6</sup> Includes all ATM transactions; a further breakdown is not available. <sup>7</sup> Data are for payment cards only.

<sup>&</sup>lt;sup>1</sup> The Federal Reserve System is the central bank of the United States. It is composed of a central, governmental agency – the Board of Governors – in Washington DC and 12 regional Federal Reserve Banks located in Atlanta, Boston, Chicago, Cleveland, Dallas, Kansas City, Minneapolis, New York, Philadelphia, Richmond, St Louis and San Francisco. <sup>2</sup> Includes 12 Reserve Bank head offices. Some branches no longer provide payment services. A small number of additional regional offices provide cheque or cash services to depository institutions. <sup>3</sup> Banks in this table include depository institutions which are similar in meaning to deposit-taking institutions. <sup>4</sup> Does not include head offices. <sup>5</sup> Includes the sum of deposits of individuals, partnerships and corporations; deposits of the US government, deposits of states and political subdivisions in the US; deposits of commercial banks in the US; deposits of other depository institutions in the US; deposits of banks in foreign countries; deposits of foreign governments and official institutions (including foreign central banks) and certified and official cheques. Note that this definition differs from the definition of transferable deposits reported in Table 2. <sup>6</sup> Includes state and federal savings banks, savings and loan associations and cooperative and industrial banks. <sup>7</sup> US branches and agencies of foreign banks. <sup>8</sup> Includes credit balances as well as total transaction accounts. Sources: Federal Reserve; US Treasury.

<sup>&</sup>lt;sup>1</sup> Includes payments by banks for their own account. <sup>2</sup> Includes an estimate of the number of on-us payments. <sup>3</sup> Includes an estimate of the number of on-us payments. <sup>4</sup> Payments made in the United States using cards issued inside and outside the United States. <sup>5</sup> Excludes cash back. Studies conducted by the Federal Reserve estimated that the number of debit card payments amounted to 15,600 million in 2003, 25,000 million in 2006, 37,900 million in 2009 and 47,000 in 2012. The figures in the table differ from the Federal Reserve estimates, but are provided to allow a consistent time series. <sup>6</sup> Excludes cash advances. Total of Visa, MasterCard, Discover, American Express, Diners Club and retailer cards. Studies conducted by the Federal Reserve estimated that the number of credit card payments amounted to 19,000 million in 2003, 21,700 million in 2006, 21,600 million in 2009 and 26,200 million in 2012. The figures in the table differ from the Federal Reserve estimates, but are provided to allow a consistent time series. The 2010 figure is based on revised data and is not comparable to previous years. <sup>7</sup> E-money products have not been widely adopted in the United States. In this reporting period, e-money transaction terminals, volume and value are negligible relative to other card instruments. <sup>8</sup> Annualised number of paid cheques including commercial cheques, US Treasury cheques and postal money orders. Studies conducted by the Federal Reserve estimated the number of paid cheques in 1995, 2000, 2003, 2006, 2009 and 2012. Other figures are derived from those estimates. <sup>9</sup> Annualised projection based on March data for each year. Includes cash withdrawals, deposits, transfers between individuals' own accounts and other types of transactions. <sup>10</sup> A study conducted by the Federal Reserve estimated that the number of on-us ATM withdrawals, meaning they involved only one depository institution, amounted to approximately 59%, 61%, 64% and 68% of the number of ATM cash withdrawals in 2003, 2006, 2009 and 2012, respectively.

<sup>&</sup>lt;sup>1</sup> Number of originations; data do not include non-value messages. <sup>2</sup> CHIPS, the Clearing House Interbank Payments System, is owned by The Clearing House. <sup>3</sup> Fedwire is operated by the Federal Reserve. <sup>4</sup> Studies conducted by the Federal Reserve estimated the number of cheques paid in 2009 and 2012. The number of on-us cheques for those years was also estimated. Total paid cheques = Federal Reserve + private clearing houses and direct exchanges + on-us. Figures for other years are derived from those estimates. <sup>5</sup> Calculated as total cheque volume less Federal Reserve cheque clearings and estimated on-us cheques. <sup>6</sup> Number originated using private automated clearing house (ACH) operators. Includes transfers sent by private ACH operators to the Federal Reserve for transmission to the receiving depository institution. These transfers, expressed in millions, amounted to 3,222.9 in 2010, 3,277.8 in 2011, 3,219.1 in 2012, 3,234.8 in 2013 and 3,240.3 in 2014. <sup>7</sup> Number originated on FedACH. Includes transfers sent by the Federal Reserve to private ACH for transmission to the receiving depository institution. These transfers, expressed in millions, amounted to 965.0 in 2010, 1,205.6 in 2011, 1,124.7 in 2012, 1,249.6 in 2013 and 1,308.0 in 2014. <sup>8</sup> A study conducted by the Federal Reserve estimated that the value of on-us wire payments (processed by only one depository institution) was 57.5 million in 2012. Figures for subsequent years are derived from that estimate. Total Large-value Payments (processed by only one depository institution) was 3,740 million in 2009 and 4,950 million in 2012. Figures for other years are derived from these estimates. Total ACH = Private + Federal Reserve + On-us ACH.

Table 11
Payments processed by selected interbank funds transfer systems: value of transactions (USD billions, total for the year)

| Debit transfers   | nav       | nav       | 47,557.6  | 48,613.8  | 60,868.0  |
| Credit transfers  | nav       | nav       | 46,761.0  | 50,210.8  | 75,672.4  |

<sup>&</sup>lt;sup>1</sup> Number of originations. <sup>2</sup> CHIPS, the Clearing House Interbank Payments System, is owned by The Clearing House. <sup>3</sup> Fedwire is operated by the Federal Reserve. <sup>4</sup> Studies conducted by the Federal Reserve estimated the value of cheques paid in 2009 and 2012. The value of on-us cheques for those years was also estimated. Figures for other years are derived from those estimates. Total paid cheques = Federal Reserve + private clearing houses and direct exchanges + on-us. <sup>5</sup> Calculated as total cheque value less value of Federal Reserve cheque clearing and value of on-us cheques. <sup>6</sup> Value originated using private ACH operators. Includes transfers sent by private ACH to the Federal Reserve for transmission to the receiving depository institution. These transfers, expressed in billions, amounted to 3,751.8 in 2010, 4,200.1 in 2011, 4,411.7 in 2012, 4,531.4

in 2013 and 4,586.3 in 2014. <sup>7</sup> Value originated on FedACH. Includes transfers sent by the Federal Reserve to private ACH for transmission to the receiving depository institution. These transfers, expressed in billions, amounted to 2,430.3 in 2010, 3,205.1 in 2011, 3,127.6 in 2012, 3,295.1 in 2013 and 3,167.6 in 2014. <sup>8</sup> A study conducted by the Federal Reserve estimated that the value of on-us wire payments (processed by only one depository institution) was USD 152,300 billion in 2012. Figures for subsequent years are derived from that estimate. Total Large-value Payments = Fedwire + CHIPS + On-us wire. <sup>9</sup> A detailed study conducted by the Federal Reserve in 2012 revised the reported on-us ACH value and showed that previously reported on-us values are not valid. In 2012 this figure was estimated at USD 107,170 billion. Figures for other years are derived from that estimate. Trend comparisons with prior years are not valid for on-us and total ACH value.

Please refer to the individual country tables for a detailed explanation.

1 Except as noted. 
2 Only deposits held at banks. 
3 Sum or average excluding those countries for which data are not available. 
4 Converted at end-of-year exchange rates, except as noted. <sup>5</sup> Converted at average of fiscal year ending March (following year) exchange rates.

Table 6
Payment transactions by non-banks: total number of transactions (total for the year)

Please refer to the individual country tables for a detailed explanation.

<sup>&</sup>lt;sup>1</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions; however, the total number is relatively small.

Please refer to the individual country tables for a detailed explanation.

<sup>&</sup>lt;sup>1</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions; however, the total number is relatively small.

Please refer to the individual country tables for a detailed explanation.

<sup>&</sup>lt;sup>1</sup> Converted at yearly average exchange rates, except as noted. <sup>2</sup> Total value of transactions in domestic currency deflated by yearly average CPI inflation. For the CPMI area, in US dollar terms. <sup>3</sup> Sum or average excluding those countries for which data are not available. Data for France (prior to 2005) and the United Kingdom include interbank transactions in credit transfers. Since the value of these transactions is relatively large, cross-country comparison and the CPMI figures should be treated with caution. <sup>4</sup> For Italy, as a ratio to deposits held only at banks.

Table 9
Use of payment instruments by non-banks: value of transactions per payment instrument (USD billions, total for the year)<sup>1</sup>

<sup>&</sup>lt;sup>1</sup> Converted at yearly average exchange rates, except as noted. <sup>2</sup> For credit transfers and e-money payment transactions, total transactions during the fiscal year ending March of the following year, converted at average fiscal year exchange rates. <sup>3</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions. Since the value of these transactions is relatively large, cross-country comparison should be treated with caution; consequently, CPMI figures related to credit transfers have not been calculated.

<sup>&</sup>lt;sup>1</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions. Since the value of these transactions is relatively large, cross-country comparison should be treated with caution; consequently, CPMI figures for credit transfers have not been calculated. The CPMI figures calculated ignore credit transfer data throughout.

Please refer to the individual country tables for a detailed explanation.

<sup>&</sup>lt;sup>1</sup> Value of transactions in domestic currency deflated by yearly average CPI inflation. For the CPMI area, in US dollar terms. <sup>2</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions. Since the value of these transactions is relatively large, cross-country comparison should be treated with caution; consequently, CPMI figures for credit transfers have not been calculated.

<sup>&</sup>lt;sup>1</sup> Converted at yearly average exchange rates, except as noted. <sup>2</sup> For credit transfers and e-money payment transactions, total for the fiscal year ending March of the following year, converted at average fiscal year exchange rates. <sup>3</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions. Since the value of these transactions is relatively large, cross-country comparison should be treated with caution; consequently, CPMI figures for credit transfers have not been calculated.

Please refer to the individual country tables for a detailed explanation.

<sup>&</sup>lt;sup>1</sup> Converted at yearly average exchange rates, except as noted. <sup>2</sup> For credit transfers and e-money payment transactions, total for the fiscal year ending March of the following year, converted at average fiscal year exchange rates. <sup>3</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions. Since the value of these transactions is relatively large, cross-country comparison should be treated with caution; consequently, CPMI figures for credit transfers have not been calculated.

Please refer to the individual country tables for a detailed explanation.

<sup>&</sup>lt;sup>1</sup> Sum or average excluding those countries for which data are not available. For credit transfers, data for France (prior to 2005) and the United Kingdom include interbank transactions. Since the value of these transactions is relatively large, cross-country comparison should be treated with caution; consequently, CPMI figures for credit transfers have not been calculated.

#### Footnotes for Tables PS1-4

**Australia**: <sup>1</sup> Australian eastern standard time. <sup>2</sup> Australian eastern daylight-saving time.

**Brazil**: <sup>1</sup> Any financial institution holding a reserve account or a settlement account at the Central Bank of Brazil. <sup>2</sup> The system is owned by CIP, a not-for-profit association owned by banks. <sup>3</sup> Any bank holding a reserve account at the Central Bank of Brazil. <sup>4</sup> The system is owned by BM&F BOVESPA, which is a for-profit company. <sup>5</sup> Any bank authorised by the Central Bank of Brazil to carry out FX transactions and holding a reserve account at the Central Bank of Brazil. <sup>6</sup> Payments become final at the moment settlement is completed by the system, which occurs throughout the day. <sup>7</sup> T and T+1 are also possible, but the relevant volume and value are very low. <sup>8</sup> The time of settlement finality depends on the value of the cleared documents.

Canada: <sup>1</sup> Not all payment categories process in real time. <sup>2</sup> To become a direct clearer, an institution must process payment items volume of at least 0.5% of the total national volume of payment items. <sup>3</sup> Final settlement occurs at 18:30. However, due to the risk controls and legal framework in place, the LVTS provides real-time settlement finality on a payment by payment basis. <sup>4</sup> No standard hours. <sup>5</sup> ACSS does not legally support settlement finality, however, settlement entries in accounts at the central bank are considered final.

**China**: <sup>1</sup> Payment orders are submitted for settlement during the day at the designated time.

**France**: <sup>1</sup> Since 18 February 2008, TBF (the French component of TARGET) and PNS have been replaced by TARGET2-Banque de France, the single French large-value payment system. <sup>2</sup> Launched on 28 January 2008, CORE progressively replaced the former retail payment infrastructure SIT, closed on 25 October 2008.

**Germany**: <sup>1</sup> For legacy credit transfers, legacy direct debits and BSE cheque collection procedure. Payments submitted after 09:00 are settled on the next banking business day. <sup>2</sup> For SEPA direct debits and ISE cheque collection procedure. ISE payments submitted after 10:00 are settled on the next banking business day. SEPA direct debit payments are settled on the individual interbank settlement date of the relevant transaction. <sup>3</sup> For SEPA credit transfers. Payments submitted after 13:00 are settled on the next banking business day.

**Hong Kong SAR:** <sup>1</sup> Hong Kong Interbank Clearing Limited is the system operator of HKD CHATS, USD CHATS, EUR CHATS and RMB CHATS in Hong Kong. It is jointly owned by the Hong Kong Monetary Authority and the Hong Kong Association of Banks. <sup>2</sup> The money market in Hong Kong can operate at any time during the day, but for same day settlement in Hong Kong a transaction must be submitted for processing between 08:30 and 18:30 for HKD CHATS, USD CHATS and EUR CHATS, and between 08:30 and 23:30 for RMB CHATS.

India: 1 For ECS. 2 For NECS.

**Italy**: <sup>1</sup> Transfer orders are legally enforceable and binding on third parties when the system completes the gathering of the transfer orders or the bilateral balances stemming from the two BI-COMP subsystems ("Local Clearing" and "Retail").

Japan: <sup>1</sup> Processing costs of transfer orders are recovered from the participants, but development and maintenance costs of BOJ-NET are covered by the Bank of Japan. <sup>2</sup> Cut-off time is extended to 19:00 only for participants approved by the Bank of Japan for the use of extended operating hours between 17:00 and 19:00. <sup>3</sup> According to the guideline of FXYCS, all payments except CLS payments are submitted to the system by 14:00. <sup>4</sup> Cut-off time for bills and cheques sorted by banks. Bills and cheques for sorting at TCH must be submitted by 21:00 of the day before the value date. <sup>5</sup> Large-value payments (equal to or larger than 100 million yen) are routed to BOJ-NET for real-time settlement. <sup>6</sup> With the consent of the receiving bank, third-party orders may be entered for same day settlement until the cut-off time of the system. <sup>7</sup> 19:00 for market participants with access to the extended operating hours of BOJ-NET.

**Korea**: <sup>1</sup> For Interbank Funds Transfer System. <sup>2</sup> For CD/ATM System and Electronic Banking System. <sup>3</sup> For CMS System.

Mexico: 1 SPEI opens at 19:00 of the previous day, and mostly CLS and government payments are settled before 07:45.

Netherlands: 1 In principle: sometimes less.

Russia: <sup>1</sup> A small number of payments are not processed centrally due to technical issues. <sup>2</sup> Moscow time. The closing time can be extended. <sup>3</sup> Opening and closing hours are given for stock and money markets. For the OTC market opening and closing hours may be different. <sup>4</sup> Local time of the regional subsystem. The closing time can be extended. In some selected regions, the closing time for orders of participants in the BRPS can be set earlier than 21:00 but later than 17:00 local time. <sup>5</sup> In the regional subsystem some orders are accepted on paper not later than 14:00. <sup>6</sup> In the MER system payments are carried out on a gross basis with intraday finality, except for settlements between regions located in remote time zones, which have finality no later than the next day (T+1).

**Singapore:** <sup>1</sup> MEPS+(IFT) does not impose a cut-off time for third-party/international correspondents' payments, but the Association of Banks in Singapore (ABS) bye-laws on MEPS require all such payments to be made by 17:30 on Monday to Friday.

**South Africa**: <sup>1</sup> Volumes of transactions in retail payment streams are settled in batches. Thus, volumes recorded by the system represent the number of batches and not actual transactions settled.

**Sweden**: <sup>1</sup> No same day transaction. <sup>2</sup> Payments become final on completion of settlement, which occurs throughout the day. <sup>3</sup> The settlement points for the different flows are spread out between 07:15 and 16:20. <sup>4</sup> The settlement points for the different flows are spread out between 07:15 and 15:20.

**Switzerland**: <sup>1</sup> The system is open for input 24 hours a day. Settlement services are limited by the indicated opening and closing times. A value day starts at 17:00 local time on the previous business day and ends at 16:15 on the value day. Third-party payments may be entered for sameday settlement until 15:00. Between 15:00 (clearing stop 1) and 16:00 (clearing stop 2) only cover (bank-to-bank) payments are accepted for same-day settlement. From 16:00 to 16:15 transactions are restricted to the processing of Liquidity-Shortage Financing Facility (special-rate repotransactions, collateralised loans from the Swiss National Bank at a penalty rate).

**Turkey**: <sup>1</sup> EFT (Electronic Funds Transfer) system is the RTGS system operated by the CBRT. It encompasses both a customer payment system and a banking payment system.

**United Kingdom**: <sup>1</sup> In net settlement, the payment becomes final and irrevocable once details of the payment have been entered into the Interbank Data Exchange (IBDE). <sup>2</sup> In net settlement, the payment becomes final when the payment has had an effect on the bilateral net position.

### Footnotes for Tables PS1-4 (cont)

**United States**: <sup>1</sup> Local times are Eastern Time. <sup>2</sup> CHIPS, the Clearing House Interbank Payments System, is owned by The Clearing House. <sup>3</sup> Any depository institution, including a US branch or agency of a foreign bank, may maintain an account with a Federal Reserve Bank. <sup>4</sup> Payments over CHIPS become final on completion of settlement, which occurs throughout the day. <sup>5</sup> Trading occurs among dealers for funds on deposit at Federal Reserve Banks (ie federal funds) as early as 06:30. <sup>6</sup> Other Fedwire Funds Service participants not included here are: the US Treasury and any entity specifically authorised by federal statute to use the Reserve Banks as fiscal agents or depositories; entities designated by the Secretary of the Treasury; foreign central banks, foreign monetary authorities, foreign governments and certain international organisations.

**European Union**: <sup>1</sup> All times are Central European Time (CET). <sup>2</sup> STEP2 SCT payments are settled in TARGET2 through multiple day-time cycles and optional night-time cycles. STEP2 SDD payments are settled in TARGET2 through two separate cycles. <sup>3</sup> Opens the day before (D-1) and closes the day after (D). <sup>4</sup> STEP2 XCT Service closed in December 2011. <sup>5</sup> STEP2 ICT Service closed in September 2014. <sup>6</sup> Using euro area consumer price (HICP) inflation and GDP respectively.

**CLS**: <sup>1</sup> Includes some non-bank financial institutions. <sup>2</sup> Central European Time (CET). <sup>3</sup> Each side of the transaction is counted separately. Spot and forward transactions have two sides, while swaps have four. In trillions of US dollars.

Table TRS1

#### **Footnotes for Table CCP1**

**Australia**: <sup>1</sup> ASX Group. <sup>2</sup> ASX. <sup>3</sup> ASX Settlement. <sup>4</sup> ASX 24. <sup>5</sup> Austraclear.

**Brazil**: <sup>1</sup> BmfBovespa. <sup>2</sup> SELIC. <sup>3</sup> CETIP.

Canada: <sup>1</sup> MX. <sup>2</sup> TMX Group. <sup>3</sup> NGX. <sup>4</sup> ICE.

**China**: <sup>1</sup> Shanghai Stock Exchange and Shenzhen Stock Exchange each hold 50% of SD&C's shares. <sup>2</sup> Shanghai Stock Exchange, Shenzhen Stock Exchange. <sup>3</sup> SD&C.

**France**: <sup>1</sup> LCH.Clearnet SA is located in France but serves Amsterdam, Brussels and Paris Euronext markets. <sup>2</sup> Euronext Paris, Amsterdam, Brussels, Lisbon. <sup>3</sup> Euroclear France, Euroclear Netherlands, Euroclear Belgium and Euroclear Bank. <sup>4</sup> Corresponds to the link established with CC&G which is used for products traded on Italian markets.

**Germany**: <sup>1</sup> Eurex Frankfurt AG. <sup>2</sup> Eurex. <sup>3</sup> Clearstream Banking AG. <sup>4</sup> Clearstream Banking Luxembourg. <sup>5</sup> SIS SegaInterSettle. <sup>6</sup> Euroclear Bank. <sup>7</sup> Euroclear UK & Ireland, Euroclear France S.A., Euroclear Nederland, Euroclear Belgium, Euroclear Finland, Euroclear Sweden and Iberclear. <sup>8</sup> Montetitoli. <sup>9</sup> OeKB. <sup>10</sup> Interbolsa. <sup>11</sup> VP Denmark. <sup>12</sup> VPS Norway.

Hong Kong SAR: <sup>1</sup> Hong Kong Exchanges and Clearing Limited (HKEx). <sup>2</sup> Equities include ordinary shares, preference shares, registered warrants, provisional allotment letters representing nil paid rights, depository receipts; structured products include derivative warrants, equity linked instruments, callable bull/bear contracts; bonds include Exchange Fund notes, Hong Kong SAR retail bonds and Hong Kong SAR Link Retail Bonds; unit trust funds includes Exchange Traded Funds, REITs. <sup>3</sup> Hong Kong Securities Clearing Company Limited (HKSCC).

India: <sup>1</sup> RBI (SSS). <sup>2</sup> NSE. <sup>3</sup> NSDL. <sup>4</sup> ICCL took over these operations from BOISL in March 2012. <sup>5</sup> BSE. <sup>6</sup> BSE and Bank of India. <sup>7</sup> CSDL. <sup>8</sup> MCX-SX. <sup>9</sup> CCIL clears foreign exchange related transactions as well.

Italy: <sup>1</sup> Cassa di Compensazione e Garanzia. <sup>2</sup> Borsa Italiana. <sup>3</sup> Monte Titoli, Euroclear Bank.

**Japan**: <sup>1</sup> Japan Exchange Group. <sup>2</sup> Regional securities exchanges. <sup>3</sup> JSCC is jointly owned by Japan Exchange Group, its participants and regional securities exchanges in Japan. <sup>4</sup> JASDEC. <sup>5</sup> JDCC accepts participants' settlement obligations on a settlement day. <sup>6</sup> TFX.

**Korea**: <sup>1</sup> KRX. <sup>2</sup> KSD started clearing services for institutional investor stocks from January 2012. <sup>3</sup> KSD.

**Mexico**: <sup>1</sup> BMV. <sup>2</sup> Indeval. <sup>3</sup> Mexder. <sup>4</sup> CCV settles the cash leg in the CSD. CSD always holds funds at its central bank account that cover the sum of all CSD participants' (including CCV's) balances. <sup>5</sup> In the case of an operational failure, Asigna would carry out settlement through the CSD.

**Netherlands**: <sup>1</sup> Nasdaq OMX. <sup>2</sup> VP. <sup>3</sup> Euroclear Finland, <sup>4</sup> Euroclear UK & Ireland, <sup>5</sup> SISS, <sup>6</sup> Euroclear Sweden. <sup>7</sup> ABN AMRO Bank. <sup>8</sup> BNP Paribas, <sup>9</sup> Deutsche Bank, <sup>10</sup> SEB Norway, <sup>11</sup> Deutsche Bank Prague, <sup>12</sup> Bank Austria Creditanstalt AG, <sup>13</sup> Deutsche Bank Budapest.

Russia: <sup>1</sup> Moscow Exchange - 99.997%. <sup>2</sup> NSD. <sup>3</sup> Moscow Exchange - 100%.

**Saudi Arabia**: <sup>1</sup> The Capital Market Authority (CMA). <sup>2</sup> Tadawul.

Singapore: 1 CDP.

**Sweden**: <sup>1</sup> OMX Derivatives Markets, which is a secondary legal name for the OMX Nordic Exchange Stockholm AB. <sup>2</sup> The currency area description of OMX DM's links is very misleading. OMX DM has a link to the London market and specifically to LCH.Clearnet Ltd to facilitate the clearing of Nordic derivatives traded in London. The derivatives settled through the link are denominated in DKK, EUR, NOK and SEK.

**Switzerland**: <sup>1</sup> The Swiss National Bank owns an immaterial number of shares of SIX Group. <sup>2</sup> SIX Swiss Exchange. <sup>3</sup> LSE, Bats Chix Europe, Aquis Exchange, Burgundy, Equiduct, Getco Matched, Liquidnet, Traiana, Turquoise, UBS MTF, Aquis, GetMatched. <sup>4</sup> SIX SIS. <sup>5</sup> Euroclear Finland. <sup>6</sup> Euroclear Sweden. <sup>7</sup> Euroclear UK. <sup>8</sup> Monte Titoli.

**Turkey**: <sup>1</sup> Takasbank is a CH in clearing ISE market trades. For TURKDEX transactions, Takasbank guarantees settlement limited to transaction collateral and the guarantee fund. <sup>2</sup> ISE. <sup>3</sup> Takasbank is owned by 19 banks and 67 brokerage houses, none of which can exceed a 5% share. <sup>4</sup> Central Registry Agency (MKK), CSD of Turkey; 65% of its shares are owned by Takasbank. <sup>5</sup> Intraday margining is only applicable to derivatives clearing. <sup>6</sup> Equities. <sup>7</sup> G-bonds, T-bills.

**United Kingdom**: <sup>1</sup> LCH. Clearnet Ltd is a wholly owned subsidiary of LCH. Clearnet Group Ltd LCH. Clearnet Group Ltd is majority-owned (57%) by London Stock Exchange Group plc. <sup>2</sup> LCH. Clearnet Ltd clears for exchanges outside the London Stock Exchange Group. <sup>3</sup> Intercontinental Exchange Inc. <sup>4</sup> Euroclear Bank, Euroclear UK and Ireland. <sup>5</sup> Hong Kong Exchanges and Clearing Limited 100%. <sup>6</sup> CME Group Inc. 100%. <sup>7</sup> Offshore renminbi. <sup>8</sup> Euroclear UK and Ireland. <sup>9</sup> EuroCCP N.V., Oslo Clearing ASA, SIX x-Clear Ltd.

**United States**: <sup>1</sup> DTC. <sup>2</sup> NBES. <sup>3</sup> Cash settlement is completed at the central bank.

#### **Footnotes for Table CSD1**

**Australia**: <sup>1</sup> ASX Group. <sup>2</sup> Australian eastern standard time. <sup>3</sup> Australian eastern daylight-saving time. <sup>4</sup> Short-term debt securities if terms are agreed prior to midday. <sup>5</sup> Short-term debt securities if terms are agreed after midday. <sup>6</sup> Long-term debt securities.

Belgium: 1 Settlement currencies.

**Brazil**: <sup>1</sup> Some special transactions have intraday finality. <sup>2</sup> Payments relating to derivatives on stocks.

Canada: <sup>1</sup> IIROC. <sup>2</sup> Once payment exchange commences usually at 16:00, no further funds settlement is permitted that day; however, securities settlement can occur up to 19:30. <sup>3</sup> Equities. <sup>4</sup> GoC T-bills and money market securities. <sup>5</sup> GoC bonds with maturity of three years or less. <sup>6</sup> GoC bonds with maturity of more than three years and all provincial, municipal, corporate and other bonds or other certificates of indebtedness including mortgage-backed securities.

China: <sup>1</sup> Shanghai Stock Exchange and Shenzhen Stock Exchange each hold 50% of SD&C's shares. <sup>2</sup> There is no official name for the system yet.

**France**: <sup>1</sup> ESES France replaced RGV2 in November 2007 while the revocable channel was suppressed. <sup>2</sup> Eleven links are operating in EUR.

**Germany**: <sup>1</sup> Deutsche Börse AG. <sup>2</sup> 17:30 for specific Euro GC pooling transactions. <sup>3</sup> For stock exchange. <sup>4</sup> For over-the-counter.

Hong Kong SAR: <sup>1</sup> Equities include ordinary shares, preference shares, registered warrants, provisional allotment letters representing nil paid rights, depository receipts; structured products include derivative warrants, equity linked instruments, callable bull/bear contracts; bonds include Exchange Fund notes, Hong Kong SAR retail bonds and Hong Kong SAR Link Retail Bonds; unit trust funds includes Exchange Traded Funds, REITs. <sup>2</sup> Hong Kong Exchanges and Clearing Limited (HKEx). <sup>3</sup> CCASS stands for Central Clearing and Settlement System. <sup>4</sup> Austraclear in Australia and New Zealand, Korean Securities Depository in South Korea, China Govt Sec Depository Trust and Clearing Com Ltd in Mainland China. <sup>5</sup> Exchange trade: They are settled under continuous net settlement system on a netting basis, with final transfer of securities from the seller to the buyer at securities-on-hold status occurring throughout the 4 batches settlement runs processing cycle on T+2, with the final netting funds from the buyer to the seller on same value day. The allocated on-hold securities will become available upon receipt of bank confirmation of on T+2; Non-exchange trade: securities transfer instructions are settled on a trade-by-trade basis, with final transfer of securities from the seller to the buyer occurring throughout the 4 batch settlement runs processing cycle, with the final transfer of fund from the buyer to the seller on same value day.

**Italy**: <sup>1</sup> Monte Titoli spa. <sup>2</sup> For matched transactions in the gross settlement. <sup>3</sup> The currencies reflect the denomination of financial instruments, cash leg is settled in EUR. <sup>4</sup> For main regulated markets (eg stock exchanges) and MTFs. <sup>5</sup> For OTC trades.

**Japan**: <sup>1</sup> For commercial paper, corporate and other debt securities excluding government bonds, investment trusts. <sup>2</sup> For equities traded outside the exchanges. <sup>3</sup> For exchange-traded equities cleared via the Japan Securities Clearing Corporation.

**Korea**: <sup>1</sup> Transactions on exchange. <sup>2</sup> 16:10 for securities settlements, 16:50 for funds settlements of institutional investor stock transactions. <sup>3</sup> For bonds traded on OTC market. <sup>4</sup> Links to other CSDs through global custodians, counted on a country basis. <sup>5</sup> DVP1 for bonds traded on OTC market, DVP2 for institutional investor stock transactions, DVP3 for transactions on exchange. <sup>6</sup> T for bonds traded on exchange, T+1 for government bonds traded on exchange and for bonds traded on OTC market, T+2 for stocks traded on exchange and institutional investor stock.

**Mexico**: <sup>1</sup> DVP settlement cycle occurs every two minutes or less.

**Netherlands**: <sup>1</sup> Euroclear Group.

Russia: <sup>1</sup> For paper-based depo orders on OTC transactions. <sup>2</sup> For non-paper-based depo orders. <sup>3</sup> For depo orders settled on DVP1, DVP2 and DVP3 basis. For some transactions a different closing time may be set during the business day; up to that time depo orders are accepted and settled on the same business day. <sup>4</sup> NSD has accounts with eight CSDs (two of which allow settlement on a DVP basis). Eight CSDs have accounts with NSD. <sup>5</sup> Settlements on DVP basis, payments of securities gains, banking operations. <sup>6</sup> Payments of securities gains, banking operations.

**Saudi Arabia**: <sup>1</sup> Tadawul. <sup>2</sup> For equities. <sup>3</sup> For bonds.

**Singapore**: <sup>1</sup> Pre-Settlement Matching System. <sup>2</sup> Shares will be transferred once payment is confirmed on settlement date.

**South Africa**: <sup>1</sup> The owners are stock exchange and banks and the manager is STRATE Ltd. <sup>2</sup> T+3 for bonds. <sup>3</sup> T+5 for equities.

**Switzerland**: <sup>1</sup> The Swiss National Bank owns an immaterial number of shares of SIX Group. <sup>2</sup> For central bank money. <sup>3</sup> For commercial bank money.

**Turkey**: <sup>1</sup> Takasbank is the custodian for non-fungible domestic stocks. <sup>2</sup> Takasbank is the custodian for domestic private pension funds. <sup>3</sup> Takasbank is owned by 19 banks and 67 brokerage houses, none of which can exceed a 5% share. <sup>4</sup> Settlement is processed and finalized through the Central Securities Depository-Takasbank integrated system. Takasbank, as the cash clearing agent, manages the DVP system. <sup>5</sup> G-Bonds, T-Bills and Repos. <sup>6</sup> Derivatives T+1 until 14:00. <sup>7</sup> Equities. <sup>8</sup> Securities for delivery lag of T+0. <sup>9</sup> Securities for delivery lag of T+2.

**United Kingdom**: <sup>1</sup> Owned and operated by Euroclear UK and Ireland. <sup>2</sup> For sterling and euro settlement. <sup>3</sup> For US dollar settlement. <sup>4</sup> T for delivery by value transactions. <sup>5</sup> T+1 for gilts. <sup>6</sup> T+3 for equities.

**United States**: <sup>1</sup> NBES is the Federal Reserve's National Book-Entry System. <sup>2</sup> Eastern time.

Table CSD2
Transactions processed by selected central securities depositories: number of transactions (total for the year)

**Annexes** 

# **General comments**

Exceptions Data in the tables conform to this methodology unless indicated otherwise

in the table concerned.

However, it should be noted that varying methods of collecting data can

also complicate cross-country comparisons.

Breaks in series Where these occur, they are indicated by a footnote.

Sources of data These are indicated under the table concerned where appropriate.

Definitions Definitions in the tables which are not given in this methodology are based

on "A glossary of terms used in payments and settlement systems",

revised version, March 2003 (http://www.bis.org/publ/cpss00b.htm).

Where necessary, footnotes to individual tables explain the country-specific definitions, eg of "banks". (Note that in general the term "banks" should be broadly construed according to local regulations so as to include all relevant financial institutions, eg "credit institutions" in EU countries.)

Intrabank items These are included as appropriate except where indicated.

Foreign currencies are not included in the figures unless otherwise

indicated.

Time period Each table indicates the period (eg year) or point in time (eg end-year) for

which the data are presented. The data are totals unless the table explicitly

indicates otherwise (eg a daily average).

Estimated data Where data are broadly estimated and thus only indicative, this is indicated

in a footnote (except for population and GDP in Table 1 and data in Country Tables 7 and 8, where it is taken for granted that the data are

estimated).

Seasonal adjustment Figures are not seasonally adjusted unless otherwise indicated.

"nap", "nav" and "0" Where data are not applicable (ie the category does not exist in the

reporting country), this is indicated by "nap". Where data are not available (ie the category exists, but data are not available), this is indicated by

"nav". Where data are exactly zero or none this is indicated by "0".

# Statistical methodology for the country tables

#### General

Stock data are collected at annual frequency with reference date end-December, except when specified otherwise. Transaction data cover the whole calendar year.

Note that definitions are only provided once. The items only appear on the left-hand side of this methodology when they appear for the first time in the tables, in which case a definition is given, or when there are some specific methodological issues in the table concerned.

# Basic information: banknotes and coin; institutions; transferable deposits

#### Table 1: Basic statistical data

Population Average for the year (computed as the average of two point values at the

start and end of the year, or otherwise).

GDP Nominal (not real) GDP.

GDP per capita GDP divided by population.

CPI inflation Changes in the price of consumer goods and services (yearly averages of

monthly values), in per cent.

Exchange rate (domestic currency vis-à-vis USD) Provided both as a year-end value and as an average for the year.

#### Table 2: Settlement media used by non-banks

Notes and coin (or currency) in circulation outside banks

The value of cash in circulation in the economy. The figure excludes notes and coin kept in vaults at central banks or at banks (see Table 4) but includes holdings by non-residents. It also excludes commemorative coins

that are not used for payments, unless otherwise indicated.

Transferable deposits Deposits which are convertible into currency and/or can be used to make

cashless payments using one of the instruments mentioned in Tables 7 and 8, as included in the national definition of M1. They include, when relevant, overnight overdrafts on these accounts. In addition, they include deposits in foreign currencies and outstanding values on e-money storages

if these are also included in M1.

Other Items other than notes and coin and transferable deposits included in M1.

Narrow money supply

(M1)

Cash in circulation and transferable deposits held by non-banks including

non-residents, unless otherwise indicated.

E-money storages Instruments for storing e-money funds, eg cards (card-based, see cards

with an e-money function in Table 6), personal computers or servers (computer-based, of which software- or network-based) or other devices like mobile phones (mobile-based, with the funds stored locally on a mobile

phone).

Software-based Electronic money products which employ specialised software on a

personal computer and which can typically be used to transfer electronic

value via telecommunications networks such as the internet.

Network-based Electronic money products which allow consumers to store monetary value

551

on a centrally located server. This value can subsequently be used for making payments on the internet.

Outstanding value on e-money storages The difference between the value of cash loaded onto an e-money storage and the value spent. The value loaded is issued against a payment to the issuer in advance and is widely accepted as a means of payment by parties other than the issuer. The value of electronic money held by banks other than the issuer is included, unless otherwise specified.

#### Table 3: Settlement media used by banks

Transferable balances held at the central bank

Deposits held by banks at the central bank which can be used for payment purposes, regardless of the type of account (eg current account, reserve account, settlement account, clearing account).

Required reserves

Funds that banks are required to hold at the central bank. If only part of the required reserves can be used for payment purposes, that amount is indicated here.

Free reserves

Funds held voluntarily at the central bank that can be used for payment purposes.

Transferable balances held at other banks

Deposits held at other banks in the country (not at the central bank) which are convertible into currency and/or can be used for payment purposes.

Credit extended by the central bank

Intraday: credit extended by the central bank for a period of less than one business day. It is calculated as the average of the daily maximum value of simultaneous intraday overdraft positions or drawings on intraday credit facilities during the day for the aggregate of all banks, over the opening days of the interbank payment system.

Overnight: credit extended by the central bank (in the forms specified by the respective country) at the end of the day, in order to cover any (unexpected) overdrafts caused by banks' payment activities. This includes discount window facilities in the United States and marginal lending facilities in the euro area countries. It is calculated as the average of the daily total value for the aggregate of all banks, over the opening days of the interbank payment system.

Longer-term refinancing operations: credit of varying maturities extended by the central bank (in the forms specified by the respective country) through its monetary policy operations. Although banks' borrowing of these funds is not determined by their payment activities, the funds are made available in the payment system and therefore contribute to the liquidity of the system.

# Table 4: Banknotes and coin

Total banknotes and coin issued

Value of banknotes and coin excluding those kept in vaults at central banks or at treasury departments (but including those held at banks). Commemorative coins that are not commonly used to make payments are excluded.

Total banknotes issued

Value of banknotes which are part of the liabilities of the central bank; a breakdown by denomination is provided.

Total coin issued

Value of coin; a breakdown by denomination is provided.

Banknotes and coin held by banks

Banknotes and coin in banks' vaults and thus not in circulation among the public.

Banknotes and coin in circulation outside banks

Total banknotes and coin in circulation less banknotes and coin held by banks (identical to notes and coin in Table 2).

#### Table 5: Institutions offering payment services to non-banks

Categories

Categories of institutions are based on the individual countries' own financial systems. Particular categories are explained where this is felt to be necessary. As a rule, subsidiaries of foreign banks with legal personality in the reporting country are counted alongside domestic banks. The same holds for the post office when it is recognised as a bank by the national jurisdiction.

Branches of foreign banks

All places of business located in the reporting country of banks headquartered in other countries, which have no legal personality, and which carry out all or some of the transactions inherent in the business of banking.

Foreign-owned banks or subsidiaries of foreign banks are included with domestic banks.

Other institutions offering payment services

Non-banking institutions offering payment services to non-banks, such as the post office (when it is not considered as a bank), money remitters, card schemes or public authorities offering such services. Whenever possible, the types of institutions included are indicated.

In some countries, information for some or all of these institutions is not available, or is restricted to transaction data (which is shown in Tables 6 to 8). In such cases, Tables 6 to 8 may include information from a larger range of service providers than those included in Table 5; if required, an explanatory footnote is given.

Number of institutions

Any institution which offers payment services is included even if it does not hold deposits for customers (eg because the money transferred is given in cash by the customer to the institution, or debited from a sight account held at another institution). Each institution is counted once, irrespective of the number of branches or offices it holds in the country.

Number of branches or offices

All places of business of an institution that offer cashless payment services to non-banks. The head office of the institution is counted as an office if it offers such services. Mobile offices are excluded.

Number of accounts

The number of accounts held by banks for non-banks (including the government) and individuals, which can be debited directly using one of the instruments mentioned in Tables 7 and 8. This excludes savings accounts; it may include time deposits.

Value of accounts

The aggregate amount of deposits held by non-banks at institutions offering payment services.

This amount differs from Table 2, as that table also contains deposits held at institutions which do not offer payment services (eg money market funds).

Electronic money institutions

An undertaking or any other legal person, other than a bank, which issues means of payment in the form of electronic money.

Outstanding value on e-money storages

The value of e-money issued by electronic money institutions and held by entities other than the issuer, including banks other than the issuer.

This figure differs from that in Table 2, as that table also contains outstanding value on e-money storages issued by banks.

#### **Retail payment instruments**

# Table 6: Payment card functions and accepting devices

#### A. Cards

A card which has several functions is counted in each relevant line. Therefore, in general, these figures should not be added because of the risk of double-counting. In cases where certain functions are not indicated separately but grouped together, this is indicated in the table concerned.

Cards are counted on the issuing side. Each country reports the number of cards that have been issued in the country (and used for transactions within and outside the country of issue) and not the number of cards used in the country.

All valid cards are included, irrespective of when they were issued and how actively they are used. Expired or withdrawn cards are not included. Cards issues by three-party schemes, eg American Express or Diners, are included. Cards issued by merchants are not included in the standard categories, unless they have been issued in cooperation with a bank. When relevant, they can be included under the memorandum item *Retailer cards*.

Cards with a cash function

Cards enabling the holder to withdraw cash from a cash dispenser and/or to deposit cash.

Cards with a debit function

Cards which enable the holder to have purchases directly charged to funds on his/her account at a bank (may sometimes be combined with another function, such as that of a cash card or cheque guarantee card). The total represents the number of cards in circulation, not the number of accounts to which the cards are linked.

Cards with a delayed debit function

Cards enabling the holder to charge his/her account up to an authorised limit. These cards allow holders to make purchases, but do not offer extended credit, the full amount of the debt incurred having to be settled at the end of a specified period.

Cards with a credit function

Cards indicating that the holder has been granted a line of credit. They enable him/her to make purchases and/or draw cash up to a prearranged ceiling. The credit granted may be settled in full by the end of a specific period, or may be settled in part, with the balance taken as extended credit. Interest is charged on the amount of extended credit and the holder is sometimes charged an annual fee.

Cards with an e-money function

Reloadable multipurpose prepaid cards which can be used at the sites of several service providers for a wide range of purposes and which have the potential to be used on a national or an international scale, but may sometimes be restricted to a certain area.

Cards with an e-money function which have been loaded at least once These cards can be considered as activated: the loading may be interpreted as indicating the intention to use the e-money function.

Retailer cards

Cards issued by non-banking institutions (merchants) for use at specified retail outlets. May function as cards with a debit, delayed debit or credit function.

If the retailer cards have been issued in cooperation with a bank (cobranding) they are included according to the function(s) available on the card; whenever possible these cards are specified as a sub-item.

Non-co-branded cards can be included as a memorandum item or as a footnote.

#### B. Terminals

ATMs with several functions (eg cash dispensing and credit transfer function) are counted in each relevant line. Therefore, in general, these figures should not be added because of the risk of double-counting.

For some countries, there may be double-counting of the number of ATMs when the data are reported per card issuer or per card scheme, and the same ATM is reported under several schemes; if required, an explanatory footnote is given.

ATMs (automated teller machines)

Electromechanical devices allowing authorised users, by using a payment card, to withdraw cash from their account and in some cases to access a range of other services, such as balance enquiries, transfers of funds and acceptance of deposits. ATMs may be operated online (with real-time reference to an authorisation database) or offline.

ATMs with a cash withdrawal function

ATMs allowing their users, by using a card with a cash function, to withdraw cash from their accounts.

ATMs with a credit transfer function

ATMs allowing their users, using a payment card, to make credit transfers.

POS (point of sale)

This term refers to the use of payment cards at a retail location. The payment information is captured either by paper vouchers or by electronic terminals. Each single terminal is counted separately, independent of the existence of several terminals within one merchant location. Countries reporting each merchant location as one terminal will specify this in a footnote.

EFTPOS (electronic funds transfers at the point of sale)

A terminal at a retail location which is designed to capture, and in some cases also transmit, debit card transactions by electronic means. Each single terminal is counted separately, independent of the existence of several terminals within one merchant location. Countries reporting each merchant location as one terminal will specify this in a footnote.

E-money card terminals

Terminals allowing the transfer of e-money between the issuer of e-money and the holder of an e-money card, or between the holder of an e-money card and a beneficiary.

E-money card loading/unloading terminals Terminals allowing the transfer of electronic value from an issuer of electronic money to the holder of a card with an e-money function and vice versa (unloading).

E-money card payment terminals

Terminals located at the point of sale that permit the holder of e-money to transfer e-money value from his/her e-money card to the balance of the merchant or other beneficiary. Each single e-money accepting terminal is counted separately, independent of the existence of several terminals within one merchant location. Countries reporting each merchant location as one terminal will specify this in a footnote.

# Tables 7 and 8: Indicators of the use of payment instruments and terminals by non-banks (volume and value of transactions)

The objective of the upper part of these tables is to estimate the volume and value of transactions effected with cashless payment instruments issued in the country concerned, irrespective of where the transactions were effected. Thus payments with cards issued in the country will include both domestic payments and payments executed abroad. The lower part of each table distinguishes between cashless payments effected in the reporting country with instruments issued in the reporting country and abroad, and payments effected abroad with instruments issued in the reporting country.

Figures concerning only a sample of banks or customers should be extrapolated to provide figures covering the whole volume and value of cashless payment instruments used in the country. Only customer transactions are included. Transactions initiated by banks are excluded, unless they are related to the bank's own retail payments (utility bills, salaries etc). Transfers between accounts in the same name are only included when these accounts are at different banks. Transfers between accounts in the same name at the same bank are not included, unless indicated otherwise.

In the case of cross-border payments, there is a need to avoid double-counting (ie in the country of the originator and in that of the beneficiary). Cross-border cashless payments are accordingly counted in the country of the originator. Card payments and e-money payment transactions are counted on the issuing side. Only transactions with cards or e-money storages issued in the country are counted in the upper part of each table. For these cards and storages all transactions, within and outside the country, are reported.

#### A. Payment instruments

Credit transfers

Payment orders or possibly sequences of payment orders made for the purpose of placing funds at the disposal of the beneficiary. Both the payment orders and the funds move from the payer's bank to the payee's bank, possibly via several other banks as intermediaries and/or one or more interbank funds transfer systems. Payments are counted on the payer's side.

Credit transfers performed via ATMs with a credit transfer function are included. Credit transfers which have cash at one or both ends of the payment transaction, eg money and postal orders, are also included. Credit transfers used to settle balances of cards with a credit or a delayed debit function are included, as these are separate payments from the card holder to the card issuer. Cross-border credit transfers (sent) are included.

Cash payments into the account using a bank form are not included under credit transfers, but can be shown in a memorandum item *OTC cash deposits*.

In the case of standing orders and in the case of bulk or batch payment orders, each individual transaction is counted as one transaction.

The categories *paper-based* and *non-paper-based* are mutually exclusive.

Paper-based

Credit transfers which are submitted on paper forms. Includes submissions by telefax if they require manual intervention to be transformed into electronic payments.

Non-paper-based

Credit transfers which are submitted without the use of paper forms, eg electronically or via telephone. Includes submissions by telefax if they do not require manual intervention to be transformed into electronic payments. Includes standing orders which are originally submitted on paper forms, but then executed electronically. Includes credit transfers initiated at an ATM.

Direct debits

Preauthorised debits, possibly recurrent, of the payer's account by the payee. Both one-off and recurrent direct debits are included. In the case of recurrent direct debits, each individual payment is counted as one transaction. Direct debits used to settle balances of cards with a credit or delayed debit functions are included, as they are separate payments from the card holder to the card issuer. Direct debits resulting from the settlement of an individual card transaction should not be reported because

of the risk of double-counting. Payments are counted on the payee's side.

Cash payments out of the account using a bank form are not included, but may be shown under the memorandum item *OTC cash withdrawals*.

Card payments with cards issued in the country

Payment transactions performed with cards with a debit, credit or delayed debit function issued in the reporting country, at a terminal or via other channels. Payments can have been made in the reporting country or abroad. E-money transactions and mobile payments are not included. For the breakdown of cards by category, see Table 6. These sub-categories mutually exclusive. Only payments are included. withdrawals/deposits at ATMs or credit transfers at ATMs are not included. Cash advances at POS terminals are also excluded, when it is possible to distinguish them. Payments by phone and over the internet using a card are included. Payments with retailer cards are excluded, except when the retailer card was issued in cooperation with a credit institution. For countries with significant business with retailer cards, a memorandum item or a footnote can be included.

E-money payment transactions

Transactions where the holder of e-money transfers e-money value from his/her balance to the balance of the merchant. This can be done either with an e-money card or through other e-money storages.

Cheques

A written order from one party (the drawer) to another (the drawee, normally a bank) requiring the drawee to pay a specified sum on demand to the drawer or to a third party specified by the drawer. Cheques may be used for settling debts and withdrawing money from banks. Traveller's cheques, promissory notes and banker's drafts are included under cheques. Commercial bills are included if funds transfers can be made on the basis of these, without using another medium.

Cash withdrawals using bank forms are not included.

Cheques are counted on the payee's side when submitted for cheque clearing. Cheques issued but not submitted for clearing are not included.

Other payment instruments

Includes payment instruments that exist in some countries and cannot be included in any of the other categories. These could be, for example, bills of exchange, included truncated bills of exchange. Mobile payments are not included, unless specified otherwise. A footnote states which payment instruments are included.

#### B. Terminals

Transactions at ATM, POS and e-money card payment and loading/unloading terminals are reported according to the location of the terminal and the country of issue of the card used.

ATM cash withdrawals

Cash withdrawals performed at ATMs using a card with a cash function. Cash advances at POS terminals using a debit, credit or delayed debit card are not included, but are reported under *POS transactions*. If it is possible to distinguish them, they are, in addition, reported as a memorandum item *Cash advances at POS terminals*.

ATM cash deposits

Cash deposits performed at ATMs using a card with a cash function.

POS payment transactions

Transactions performed through POS terminals using a card with a debit, delayed debit or credit function. Cash advances at POS terminals are included. If it is possible to distinguish them, they are, in addition, reported in a memorandum item *Cash advances at POS terminals*.

E-money card loading/unloading transactions Transactions allowing the transfer of e-money value from an issuer of electronic money to a holder's card with an e-money function and vice versa. Both loading and unloading transactions are included.

E-money card payment transactions

E-money payment transactions with e-money cards.

# Interbank funds transfer systems (IFTSs)

### Table 9: Participation in selected interbank funds transfer systems

Total number of participants

Any institution that is identified/recognised by the system and which is allowed to send transfer orders to and receive transfer orders from the system, either directly (as a direct participant) or indirectly (as an indirect participant).

For CLS: settlement members and user members.

Direct participants

Any participant in a system that directly exchanges transfer orders with other participants in the system, without an intermediary, and is directly responsible for settling them. In some systems, direct participants also exchange orders on behalf of indirect participants.

For CLS: settlement members only.

Banks Any institution recognised as a bank by the national jurisdiction which is a

direct participant in the system.

Central bank is a direct participant in the system when it directly

exchanges transfer orders with other participants in the system.

General government Central, regional or local government, government agencies and other

(semi-) public institutions which are direct participants in the system.

Postal institution The postal institution is only counted separately when it i) participates

directly in the system and ii) is not considered (and supervised) as a bank

(if this is the case, it is counted together with other banks).

Clearing and settlement

organisations

All clearing and settlement organisations which are direct participants in the system. Generally, retail and securities clearing and/or settlement organisations directly participate in the large-value funds transfer system in which the respective retail or securities transactions are finally settled. When the relevant settlement organisations are considered as banks, they can be counted either under "banks" or under "clearing and settlement organisations"; a footnote explains the choice made.

When CLS is recognised as a direct participant in the system, it should be

reported as a clearing and settlement organisation.

Other financial institutions

All other financial institutions that are under the supervision of the relevant authorities (either the central bank or the prudential supervisor), but are not

considered as banks.

Other All other entities directly participating in the system.

# Tables 10 and 11: Payments processed by selected interbank funds transfer systems (volume and value of transactions)

With regard to the volume and value of transactions, each payment instruction is counted once (not twice, ie the debit from the payer's account and the credit to the payee's account are not counted separately).

Funds transfer systems

(FTSs)

Formal arrangements based on private contract or statute law with multiple membership, common rules and standardised arrangements for the transition and settlement of money obligations arising between the members.

Interbank funds transfer systems (IFTSs)

Transfer systems in which most (or all) direct participants are banks and which are used primarily to process cashless payments.

As a rule, all IFTSs with significant business for the country are mentioned here, both those managed by the central bank and those managed by

private operators.

Figures are provided system by system, with categories of various payment instruments when relevant (cheques, direct debits, credit transfers, ATM transactions, card payments, e-money transactions etc) as sub-items.

Concentration ratio in terms of volume/value

Market share of the five largest senders of payment messages in each system (this may include the central bank). The five largest senders of transactions in terms of volume may differ from the five largest senders in terms of value. Each participant which has individual access to the system is counted separately, irrespective of whether there is a legal link (eg merger) between two or more participants.

Card payments

All card payments processed in the IFTSs are reported, irrespective of where the card was actually issued or used.

Cross-border transactions are counted in the country where the transaction originates in order to avoid double-counting (this differs from Tables 7 and 8, where card payments are reported in the acquiring country). Whenever received transactions are available, they can be reported as a memorandum item.

For other payment instruments settled in these systems (credit transfers, direct debits, cheques etc), see the definitions given for Country tables 7 and 8.

# Table 12: Participation in SWIFT by domestic institutions

These figures are provided by SWIFT. Totals and their components (members, sub-members, participants) refer to "legal" users, ie users who have been approved by SWIFT's Board via the monthly Board Paper. *Live* users are those that have cutover and are connected on SWIFT.

Sub-members Domestic users sponsored by members abroad.

Participants Participants are not shareholders of SWIFT and their message traffic over

the network is restricted.

# Table 13: SWIFT message flows to/from domestic users

These figures are provided by SWIFT. All traffic for domestic and international Market Infrastructures is allocated to the country of the SWIFT destination making the payment. The traffic exchanged between Market Infrastructures and their participants is excluded from the domestic traffic.

Category I Messages used by banks to transfer funds to an account of a customer

(ie messages relating to payments that are category I messages,

eg MT100 messages).

Category II Messages used by banks to transfer funds to an account of another bank

(ie messages relating to payments that are category II messages,

eg MT200 messages).

Domestic traffic Messages sent to/received from domestic users.

# Securities and derivatives trading, clearing and settlement

# **Exchanges and trading systems**

#### Table 14: Number of participants in exchanges and trading systems

Figures are provided separately for each trading system, with categories of various participants as sub-items. When countries are unable to provide a breakdown, only the total number of participants is reported.

Trading system

An infrastructure or mechanism aimed at facilitating securities or derivatives transactions between those who wish to buy and sell. A trading system can be a legal entity recognised as an exchange or an integrated part of a stock exchange; it can also be a multilateral trading facility or an OTC trading platform.

Only recognised and/or supervised exchanges and trading systems are reported; only the exchanges and systems that the reporting central banks consider to be relevant for this publication are reported. Reporting is done by entity; if available, more detailed figures can be provided for each or some of the markets serviced by the entity.

**Participant** 

A participant is a legal entity that can submit (buy and sell) orders to the trading system on its own behalf or on behalf of its customers.

Domestic vs foreign participants

Any participant that is located in the country of incorporation of the trading system (which is also the reporting country) is considered as a domestic participant.

In the European Union, branches of foreign entities located in the reporting country, and participants in systems that are part of an international group, located in one of the participating countries, are considered as domestic participants. Other countries specify in a footnote how participants are classified.

When it is not possible to distinguish between the location of the participants in the system, the categories of participants appear as subitems under Total number of participants, instead of under the two subcategories Number of domestic participants and Number of foreign participants.

Central counterparty (CCP)

An entity that interposes itself between counterparties to contracts traded in one or more financial markets, becoming the buyer to every seller and the seller to every buyer.

A CCP may at the same time be a bank. In that case, it is classified as a CCP (ie according to its function) and not as a bank.

Banks See Country Table 5.

If a bank is at the same time a CCP, the institution is classified as a CCP

and not as a bank.

Other Other counterparties, for example dealers and brokers.

# **Table 15: Number of listed securities**

Total number of securities admitted to trading

The number of securities admitted to trading on the reported trading system. Securities are distinguished according to their ISIN code, or any other national code used in the reporting country. The ISIN (International Securities Identification Number) code system is an international standard on many financial markets that facilitates the identification of securities,

particularly in cross-border transactions, since ISIN assigns each security a single number used in all countries.

When countries are only able to provide the number of companies that are listed (and not the number of different codes), this is specified in a footnote.

Debt securities

A debt security is a promise on the part of the issuer (the borrower) to make one or more payment(s) to the holder (the lender) on a specified future date or dates. Such securities usually carry a specific rate of interest (the coupon) and/or are sold at a discount to the amount that will be repaid at maturity. Includes bonds and short-term paper.

The number of securities can be approximated by the number of codes listed.

Equity

Securities representing ownership of a stake in a corporation, ie shares traded on a stock exchange (quoted or listed shares), unquoted or unlisted shares and other forms of equity. Equities usually produce income in the form of dividends. Equity includes investment fund shares and depository receipts.

The number of companies whose shares are listed is reported. A company or investment fund with several classes of shares is counted only once.

Other

Other instruments, for example warrants.

# Table 16: Market capitalisation of listed companies

Total market capitalisation

The market value of companies, calculated as the total number of a company's shares outstanding multiplied by the current market price per share. Only domestic equities are included; foreign listings and investment fund shares/units are excluded. If shares are listed on several exchanges they are only taken into account for the calculation of the market capitalisation on the exchange where the shares have been issued. For exchanges that are part of an international group, all securities listed in one of the participating countries are considered.

## Tables 17 and 18: Number and value of executed trades

Total number of executed securities trades

Each transaction is counted once, regardless of whether the transaction has been executed on an order-driven or on a quote-driven system (even when exchanges count transactions executed on a quote-driven system twice, once for the buyer and once for the seller).

Total value of executed securities trades

Transactions in debt securities, ie bonds and short-term papers, are valued at nominal value. Transactions in equity securities are valued at market value. The monthly average securities price can be used as market value.

The value of transactions denominated in other than the reporting currency are converted to the reporting currency taking the exchange rate on the day when the transaction takes place (transactions) or the exchange rate of the last business day of the year (stocks). The monthly exchange rate can also be used as a proxy.

Total number of executed derivatives trades

Number of derivatives contracts entered into in the reporting period.

Total value of executed derivatives trades

Gross nominal or notional value of all contracts entered into in the reporting period.

# Central counterparties (CCPs) or clearing houses

A CCP is an entity that interposes itself between counterparties to contracts traded in one or more financial markets, becoming the buyer to every seller and the seller to every buyer. A clearing house is a central location or central processing mechanism reconciling and, in some cases, confirming payment orders or securities transfer instructions prior to settlement, possibly including the netting of instructions and the establishment of final positions for settlement. Only entities that do not novate transactions and assume the role of CCP are reported as clearing houses.

The name of the entity is followed, in brackets, by a mention of its function (either CCP or clearing house). When deemed necessary, a footnote provides additional information. When a single entity performs the functions of both clearing house or CCP and central securities depository, Tables 19 to 21 are completed, when relevant, with data on its clearing house or CCP activities.

#### Table 19: Number of clearing members

Figures are provided separately for each CCP or clearing house with categories of various participants as sub-items. When countries are unable to provide a breakdown, only the total number of participants is reported.

Number of clearing members

All members of the clearing house or CCP. Includes direct clearing members (participants that are able to clear only their own obligations) and general clearing members (participants that are able to clear their own obligations as well as those of clients).

Domestic vs foreign clearing members

Any clearing member that is located in the country of incorporation of the CCP or clearing house (which is also the reporting country) is considered as a domestic clearing member. A footnote specifies whether participants located in some other countries are also counted as domestic. A clearing member who is registered outside the reporting country, but has a branch in this country, is also reported as a domestic clearing member.

When it is not possible to distinguish between the location of the clearing members, then the categories of clearing members appear as sub-items under *Total number of clearing members*, instead of under the two subcategories *Number of domestic clearing members* and *Number of foreign clearing members*.

Central counterparty

(CCP)

CCPs which are clearing members of the reporting CCP or clearing house, and which are also banks, are classified as CCPs and not as banks.

Banks See Country Table 5. If a bank is at the same time a CCP, the institution is classified as a CCP and not as a bank.

Other Counterparties, for example dealers and brokers.

#### Tables 20 and 21: Number and value of contracts and transactions cleared

Contracts/transactions denominated in another currency than the reported currency are converted to the reporting currency using the exchange rate on the day at which the transaction takes place. As a proxy, the monthly average exchange rate can be used.

Securities transactions cleared

Includes both outright securities transactions and repurchase transactions.

Number of securities transactions cleared

For CCPs, the number and value of securities transactions is reported on a post-novation basis (counting the transactions with the CCP as it interposes itself as buyer to every seller and seller to every buyer).

Value of securities transactions cleared

Transactions in debt instruments and equity securities are valued at transaction values. When the transactions cleared are free-of-payment, the securities are valued at market value. The monthly average price may be

used as a proxy for the market value of transactions. When market value is not available, the latest available price is used.

Derivatives contracts Financial contracts whose value depends on the value of one or more

underlying reference assets, rates or indices.

OTC derivatives De transactions of

Derivatives transactions that have not been executed on trading platforms of recognised and/or supervised exchanges or trading systems.

Financial futures Standardised contracts, traded on an exchange, that obligate one party to

buy, and the other to sell, an underlying asset at a specific price and date in the future. In the case of financial futures, the underlying can be a financial instrument (or acquirities) or an index (or interest rates)

financial instrument (eg securities) or an index (eg interest rates).

Financial options Contracts that give the buyer the right, but not the obligation, to buy or sell

an underlying asset by (or on) a specific date for a specific price. For this right the purchaser pays a premium. In the case of financial options, the

underlying asset is a financial instrument (eg securities).

Other financial derivatives

Any financial derivatives other than future and option contracts, for example swaps.

Commodity futures Standardised contracts, traded on an exchange, that obligate one party to

buy, and the other to sell, a commodity (agricultural product, oil etc) at a

specific price and date in the future.

Commodity options Contracts that give the buyer the right, but not the obligation, to buy or sell

a commodity by (or on) a specific date for a specific price. For this right the

purchaser pays a premium.

Other commodity derivatives

Any commodity derivatives other than future and option contracts.

Number of derivatives contracts cleared

Several contracts may be traded in one transaction. This item does not refer to the number of transactions, but to the number of contracts. For CCPs, contracts are reported on a post-novation basis (counting the contract with the CCP as it interposes itself as buyer to every seller and seller to every buyer).

Transfers of underlying assets to fulfil obligations from open positions in derivatives at expiration of a derivatives contract are not counted as derivatives transactions. If the underlying is a security, such a transfer is counted as a securities transaction.

Value of derivatives contracts cleared

Derivatives transactions are valued at market value. The market value of an option is the actual premium to be paid by the option buyer. The market value of a futures contract is the market value of the underlying or, for futures with notional underlying, the market price of the futures contract itself.

# Central securities depositories

A central securities depository (CSD) is a facility (or an institution) for holding securities which enables securities transactions to be processed by book entry. Physical securities may be immobilised by the depository or securities may be dematerialised (ie so that they exist only as electronic records). In addition to safekeeping, a CSD may incorporate comparison, clearing and settlement functions. When a single entity performs the functions of both clearing house or CCP and CSD, Tables 22 to 25 are completed, when relevant, with data on its clearing house or CCP activities.

#### Table 22: Number of direct participants in CSDs

Figures are provided separately for each CSD, with categories of various participants as sub-items. When countries are unable to provide a breakdown, only the total number of participants is reported.

Direct participants Direct account holders in a tiered system or account operators in a non-

tiered system.

Tiered vs non-tiered system

In a tiered system, custodian banks or other CSDs hold accounts with the CSD. Individual customers will only be allowed to open accounts with a

custodian bank, but not directly with the CSD.

In a non-tiered system, every private individual can have an account with the CSD. However, the accounts are operated by only a few companies,

the account operators.

Account operator A company operating the account of (private) customers in non-tiered

systems. Account operators are typically banks.

Domestic vs foreign participants

Any participant that is located in the country of incorporation of the CSD (which is also the reporting country) is considered as a domestic

participant.

When it is not possible to distinguish between the location of the participants, then the categories of participants appear as sub-items under *Total number of participants*, instead of under the two sub-categories

Number of domestic participants and Number of foreign participants.

Banks If a bank is at the same time a CCP or a CSD, the institution is classified

as a CCP or a CSD and not as a bank.

# Table 23: Number of securities held on accounts at CSDs

Total number of ISIN

codes held

The number of securities (ISIN codes or national codes) held on accounts with the reporting CSD, comprising all securities issued or safe-kept in the

reporting CSD, or transferred into the CSD through a link.

Debt securities A debt security is a promise on the part of the issuer (the borrower) to

make one or more payment(s) to the holder (the lender) on a specified future date or dates. Such securities usually carry a specific rate of interest (the coupon) and/or are sold at a discount to the amount that will be repaid

at maturity.

Non-debt securities All other securities (mainly equities).

Bonds Debt securities (including convertible securities) with an original maturity of

more than one year.

Short-term paper Debt securities (including convertible securities) with an original maturity of

one year or less.

#### Table 24: Value of securities held on account at CSDs

Total value of securities

held

The value of securities held on accounts with the reporting CSD, comprising all securities issued or safe-kept in the reporting CSD, or transferred into the CSD through a link.

transferred into the CSD through a link.

The value of securities denominated in a currency other than the reporting currency is converted to the reporting currency using the exchange rate on the last business day of the year.

Debt securities

Valued at nominal value.

Equity and other

Valued at market value. The monthly average price may be used as a proxy for market value. When market values are not available, the latest available price is used (as specified in a footnote).

When no price and no recent payment value can be associated with the security (eg in DVP transactions), each security is valued at one unit of national currency.

Securities for which no market price is available

This item aims at providing information about the relative importance of non-debt securities (ISIN or national codes) for which the valuation rule has been applied.

### Tables 25 and 26: Number and value of delivery instructions processed

Delivery instructions

All instructions to move securities between accounts.

For trades not cleared by a CCP: data related to delivery instructions are reported on a gross basis. For trades cleared by a CCP: data related to delivery instructions are reported on a post-netting basis.

Delivery instructions reported also include:

- · instructions to block (and de-block) securities for collateralisation purposes on a borrower's securities account with the CSD;
- securities movements due to automatic securities lending or automatic collateralisation (including self-collateralisation);
- delivery instructions to move securities from the participant's own account to his omnibus account and vice versa when there is segregation on a participant's account with the CSD;
- delivery instructions related to the transfer of securities between two accounts of the same account operator in a non-tiered system.

Not reported are instructions:

- related to securities movements due to corporate actions (restructuring the ownership of a company through an action such as a stock split or conversion), new issues and redemptions;
- · related to purely technical bookings such as realignment procedures.

Number of delivery instructions

In principle, only delivery instructions are counted.

An instruction to transfer two or more securities (ISIN or national codes) is counted as two (or more) instructions. When processing an instruction to transfer securities from a seller to a buyer requires two transfers, due to the use of a technical account (that cannot be assigned to a CSD participant), only one transfer is reported. If the CSD receives two instructions regarding the same transaction (eg one from the seller and one from the buyer of the securities), only one instruction is reported.

For transfers through a link between CSDs, only the issuer CSD should report. When the issuing CSD is not involved (eg transfers through the "bridge"), only the delivering CSD reports.

Value of delivery instructions

The value of securities denominated in a currency other than the reporting currency is converted to the reporting currency using the exchange rate on

the day of the transaction. As a proxy, the monthly average exchange rate

can be used.

DVP transactions A mechanism that ensures that the delivery of a security occurs if, and only

if, payment occurs.

Free-of-payment

transactions

Delivery of securities with no corresponding payment of funds

Debt securities Valued at nominal value.

Equity and other Valued at market value. See Table 24.

# Statistical methodology for the comparative tables

#### General

The comparative tables are fully based on the country tables, with the exception, to a certain extent, of the payment, trading and clearing and settlement systems tables (Table PS1 ff). In this methodology, references to both country and other comparative tables are made in brackets, where [CT 1] indicates that the figures used in the comparative table under consideration have been calculated with data from Country Table 1. When figures can either be derived from a country or from a comparative table, only the reference to the country table appears, as the figures presented there are considered to be the source of the comparative tables. In some cases, however, reference is also made to other comparative tables, because of repeated identical calculations. When calculations are identical for all or most items of a table, the full formula is only given once, while repetitions are indicated by "idem".

In all tables, figures are given for individual CPMI countries. A figure for the euro area is added to the individual countries' figure in Table 2. A figure for all CPMI countries is also calculated in Tables 1-15 (where this is statistically not relevant, this is indicated by "nap"). Where applicable, these totals or averages are expressed in or based on USD terms.

Henceforth, comparative tables are simply referred to as tables.

# Basic information: banknotes and coin; institutions; transferable deposits

#### Table 1: Basic statistical data

Based on CT 1.

**GDP** Nominal figures, expressed in USD by dividing GDP in domestic currency

[CT 1] by the average exchange rate of the domestic currency vis-à-vis the

USD [CT 1].

**Population** Population [CT 1].

GDP per capita GDP in USD [Table 1] divided by population [CT 1].

CPI inflation [CT 1]. Consumer price inflation

Exchange rate

Average and end-of-year exchange rates (domestic currency vis-à-vis USD) [CT 1].

(domestic currency vis-à-vis USD)

#### Table 8: Payment transactions by non-banks: total value of transactions

Based on CT 8.

Total value of Total value of transactions with payment instruments [CT 8], converted to transactions

USD using the average exchange rate [CT 1]. This is equal to the sum of

the sub-items of Table 9.

Increase in the real Difference between total value of transactions with payment instruments [CT 8] in the current and previous year, divided by that number for the value of transactions

previous year, deflated by CPI inflation in the current year [CT 1], in per

cent.

Average value per

transaction

Total value of transactions with payment instruments in USD [Table 8] divided by total number of transactions with payment instruments [CT 7].

Total value of transactions with payment instruments in USD [Table 8]

Average value per

inhabitant

divided by population [CT 1].

Total value of transactions [CT 8] divided by GDP [CT 1].

Value as a ratio to GDP Value as a ratio to

deposits held by non-banks

Total value of transactions [CT 8] divided by total value of deposit accounts

[CT 5].

# Table 9: Use of payment instruments by non-banks: value of transactions per payment instrument

Tables 9 and 9a-e are based on CT 8. The objective of these tables is to compare the value of cashless payment instruments used in the countries concerned. These tables are based on the same general methodological guidance as Tables 7 and 7a-c.

Credit transfers Credit transfers [CT 8], converted to USD using the average exchange rate

[CT 1].

Direct debits Direct debits [CT 8]. Cheques Cheques [CT 8].

E-money payment transactions

E-money payment transactions [CT 8].

## Table 12a: Transactions at terminals: increase in the number of cash withdrawals and loading transactions

This table is based on CT 7 or on Table 12, in that it takes the figures concerning the use of cards, in volume terms, and calculates the year-on-year growth rate.

Cash withdrawals at ATMs located in the country

with cards issued outside the country

Difference between the number of transactions at terminals in the country by cards issued outside the country: ATM cash withdrawals [CT 7] in the current and previous year, divided by that number for the previous year, in

per cent.

with cards issued in the country

Idem for transactions at terminals in the country by cards issued in the country: ATM cash withdrawals [CT 7].

Cash withdrawals at ATMs located outside the country

with cards issued in the country

Idem for transactions at terminals outside the country by cards issued in the country: ATM cash withdrawals [CT 7].

E-money loading/unloading transactions at terminals in the country

with cards issued in the country

Idem for transactions at terminals in the country by cards issued in the

country: e-money loading/unloading transactions [CT 7].

#### Table 13: Transactions at terminals: value of cash withdrawals and loading transactions

This table is based on CT 8 (the amounts have been converted to USD using the *average exchange rate* [CT 1]). It gives an indication of the value of card transactions conducted at terminals located in the country, either with cards issued in the country or with cards issued outside the country.

Cash withdrawals at ATMs located in the country

with cards issued outside the country

Transactions at terminals in the country by cards issued outside the country: ATM cash withdrawals [CT 8].

with cards issued in the country

Transactions at terminals in the country by cards issued in the country: ATM cash withdrawals [CT 8].

Cash withdrawals at ATMs located outside the country

with cards issued in the country

Transactions at terminals outside the country by cards issued in the country: ATM cash withdrawals [CT 8].

E-money loading/unloading transactions at terminals in the country

with cards issued in the country

Transactions at terminals in the country by cards issued in the country:

e-money loading/unloading transactions [CT 8].

## Table 13a: Transactions at terminals: increase in the real value of cash withdrawals and loading transactions

This table is based on CT 8 or on Table 13, in that it takes the figures concerning the use of cards, in value terms, and calculates the year-on-year growth rate, deflated by CPI inflation.

Cash withdrawals at ATMs located in the country

with cards issued outside the country

Difference between the value of *transactions at terminals in the country by cards issued outside the country: ATM cash withdrawals* [CT 8] in the current and previous year, divided by that number for the previous year, deflated by *CPI inflation* in the current year [CT 1], in per cent.

with cards issued in the country

Idem for transactions at terminals in the country by cards issued in the country: ATM cash withdrawals [CT 8].

Cash withdrawals at ATMs located outside the country

with cards issued in the country

Idem for transactions at terminals outside the country by cards issued in the country: ATM cash withdrawals [CT 8].

E-money loading/unloading transactions at terminals in the country

with cards issued in the country

Idem for transactions at terminals in the country by cards issued in the country: e-money loading/unloading transactions [CT 8].

### Table 14: Transactions at terminals: number of payment transactions

This table is based on CT 7. It gives an indication of card payments conducted at terminals located in the country, either with cards issued in the country or with cards issued outside the country.

POS transactions at terminals located in the country

with cards issued outside the country

Transactions at terminals in the country by cards issued outside the country: POS payment transactions [CT 7].

with cards issued in the country

Transactions at terminals in the country by cards issued in the country:

POS payment transactions [CT 7].

## Interbank funds transfer systems (IFTSs)

## Table PS1: Features of selected interbank funds transfer systems

Figures are new and are not presented in the CTs. The first category, *System*, is presented in all payment systems (PS) tables.

System All systems presented in CT 9.

Type Large-value payment system (L); retail payment system (R); foreign

exchange settlement system (FX).

If the IFTS processes large-value and retail payments, it is shown as L+R.

Settlement Real-time gross settlement (RTGS).

Net (N), of which multilateral netting (MN) and bilateral netting (BN).

*Gross* (*G*): other gross settlement.

Batch settlement (BA): settlement of batches in gross value without netting.

Owner/manager Central bank (CB), commercial banks (B) or a payment association (PA).

Processing Manual (M), automated clearing house (offline, via an electronic clearing

system in which payment orders are exchanged among financial institutions and handled by a data processing centre; ACH) or real-time transmission (the transmission of funds transfer instructions on an

individual basis at the time they are initiated; RTT).

Membership Open (any bank can apply; O) or restricted (subject to criteria; R).

processed; C) or decentralised (more than one processing centre; D).

Pricing Costs passed on to payment system participants: full cost (F), including

investments with a view to cost recovery, variable cost (V), with a view to recovering the costs of transactions, symbolic cost (S), below variable cost,

or no cost (0).

Closing time for same

day transactions

Latest time of the day at which transactions can be sent to the system for

settlement on the same day; in local time.

Settlement finality Real time in RTGS systems.

Intraday in prefunded net systems. Intraday finality is settlement finality achieved continuously or several times throughout the settlement day. It can be provided through real-time settlement procedures and/or the settlement of the results of multiple batch processing during the settlement

day.

At specific times of the day (in local time) in other net and gross systems.

Cufoff third-party orders Latest time of the day at which transactions can be sent by third-party or

indirect participants to the system for settlement on the same day; in local

time.

Standard money market

hours

Opening and closing expressed in local time.

#### Table PS2: Payments processed by selected interbank funds transfer systems: number of transactions

Based on CT 10.

Number of transactions Total number of transactions per system [CT 10].

Increase in the number

of transactions

Difference between the total number of transactions per system [CT 10]. for the current and previous year, divided by that number for the previous

year, in per cent.

### Table PS3: Payments processed by selected interbank funds transfer systems: value of transactions

Based on CTs 10 and 11.

Value of transactions Total value of transactions per system [CT 11], converted to USD using the

average exchange rate [CT 1].

Average value per

transaction

Total value of transactions per system [CT 11], converted to USD using the average exchange rate [CT 1], divided by total number of transactions per

system [CT 10].

Increase in the real

value of transactions

Difference between the total value of transactions per system [CT 10] in the current and previous year, divided by that number for the previous

year, deflated by CPI inflation in the current year [CT 1], in per cent.

Value of transactions as a percentage of GDP

Total value of transactions per system [CT 11], divided by GDP [CT 1], in per cent.

## Table PS4: Participation in selected interbank funds transfer systems

Figures concerning participation in payment systems.come from CT 9 and concentration ratios from CTs 10 and 11.

Total number of participants

Total number of participants [CT 9].

... of which: direct participants

Direct participants [CT 9].

Concentration ratio in

terms of volume

Concentration ratio in

terms of value

Concentration ratio in terms of volume [CT 10], in per cent.

Concentration ratio in terms of value [CT 11], in per cent.

## Securities trading, clearing and settlement

## Table TRS1: Features of selected exchanges and trading systems

Figures are new and are not presented in the CTs. The first category, *Exchange/system*, is presented in all trading systems (TRS) tables.

Exchange/system All exchanges and trading systems presented in CTs 14–18.

Owner/manager Central bank (CB), commercial banks (B), a stock exchange (SE) or other

(O).

If owner and manager differ, both are provided. If (fully or partially) owned by another exchange, the name of that exchange is provided, as well as

the share of its ownership rights.

Markets/products Securities (SEC): bonds (B), certificates of deposit (C), government

securities (G), equity (E) and/or other (O); derivatives (DER).

Trading Floor trading (FLT) or electronic trading (ELT).

Operating times Opening and closing time of the exchange/system; in local time.

Relationship with the central counterparty

central counterparty (CCP)

The CCP belongs to the same entity as the exchange = internal (*int*); is a subsidiary of the exchange = parental (*par*); or is independent from the exchange (*index*). The name of the CCP is provided

exchange (*indep*). The name of the CCP is provided.

## Table TRS2: Trades executed on selected exchanges and trading systems: number of transactions

Based on CT 17.

Increase in the number

of transactions

Difference between the *total number of transactions* [CT 17] per system in the current and previous year, divided by that number for the previous year, in per cent.

## Table TRS3: Transactions processed by selected exchanges and trading systems: value of transactions

Based on CTs 17 and 18.

Value of transactions Total value of transactions per system [CT 18], converted to USD using the

average exchange rate [CT 1].

Average value per

transaction

Total value of transactions per system [CT 18], converted to USD using the average exchange rate [CT 1], divided by total number of transactions per

system [CT 17].

Increase in the real

value of transactions

Difference between the *total value of transactions* per system [CT 18] in the current and the previous year, divided by the *total value of transactions* 

[CT 18] in the previous year, deflated by CPI inflation in the current year

[CT 1], in per cent.

Value of transactions as

a percentage of GDP

Total value of transactions per system [CT 18], divided by GDP [CT 1], in

per cent.

### Table TRS4: Participation in selected exchanges and trading systems

Based on CT 14.

Total number of participants

Number of participants in trading systems – total [CT 14].

### Table TRS5: Securities listed on selected exchanges and trading systems

Based on CTs 15 and 16.

Number of securities

Total number of securities listed [CT 15].

listed

Market capitalisation Total market capitalisation [CT 16], converted to USD using the end-of-

year exchange rate [CT 1].

### Table CCP1: Features of selected central counterparties and clearing houses

Figures are new and are not presented in the CTs. The first category, *Entity,* is presented in all CCP tables.

Entity All CCPs presented in CTs 19–21.

CCP or clearing house The entity is a central counterparty (CCP) or a clearing house (CH).

Owner/manager Central bank (CB), commercial banks (B), a stock exchange (SE), another

CCP (CCP) or clearing house (CH) or other (O).

If owner and manager differ, both are provided. If (fully or partially) owned by an exchange, a CCP or a clearing house, the name of that entity is

provided, as well as the share of its ownership rights.

Relationship with

exchange

The CCP belongs to the same entity as the exchange = internal (*int*); is a subsidiary of the exchange = parental (*par*); or is independent from the

exchange (indep). The name of the CCP is provided.

Relationship with CSD The CCP belongs to the same entity as the CSD = internal (int); is a

subsidiary of the CSD = parental (par); or is independent from the CSD

(indep). The name of the CSD is provided.

Intraday margining Routine and/or event-driven. When event-driven, price-driven (P) or size-

driven (S).

Products/markets

cleared

Securities (SEC), derivatives (DER) and/or repos (REP).

Currencies ISO code of the cleared currencies.

Securities settlement

agent

The securities settlement agent (CSD (the name of the CSD is provided), central bank (CB), commercial banks (B) or other (O)) settles the securities leg of the transaction. The information is given per product and per

currency.

Cash settlement agent The cash settlement agent (central bank (CB), commercial banks (B) or

other (O)) settles the cash leg of the securities transaction. The information

is given per product and per currency.

Links to other CCPs Such links can be based on cross-participation or on common systems.

The number of links is provided per currency area.

#### Table CCP2: Transactions cleared by selected central counterparties and clearing houses: number of transactions

Based on CT 20.

Number of transactions Total number of transactions per CCP or clearing house [CT 20].

Increase in the number

Difference between the total number of transactions [CT 20] per CCP or clearing house in the current and previous year, divided by that number for of transactions

the previous year, in per cent.

### Table CCP3: Transactions cleared by selected central counterparties and clearing houses: value of transactions

Based on CTs 20 and 21.

Value of transactions Total value of transactions per CCP or clearing house [CT 21], converted

to USD using the average exchange rate [CT 1].

Average value per

transaction

Total value of transactions per CCP or clearing house [CT 21], converted to USD using the average exchange rate [CT 1], divided by total number of

transactions per system [CT 20].

Increase in the real value of transactions Difference between the total value of transactions per system [CT 21] in the current and the previous year, divided by the total value of transactions [CT 21] in the previous year, deflated by CPI inflation in the current year

[CT 1], in per cent.

Value of transactions as a percentage of GDP

Total value of transactions CCP or clearing house [CT 21], divided by GDP

[CT 1], in per cent.

## Table CCP4: Participation in selected central counterparties and clearing houses

Based on CT 19.

Total number of participants

Number of participants in CCPs and clearing houses – total [CT 19].

#### Table CSD1: Features of selected central securities depositories

Figures are new and are not presented in the CTs. The first category, CSD, is presented in all central securities depositories (CSDs) tables.

CSD All CSDs presented in CTs 22-26.

Type of securities held Domestic securities (DOM) and/or international securities (INT). Bonds (B),

certificates of deposit (C), government securities (G), equity (E) and/or

other (O).

Owner/manager Central bank (CB), commercial banks (B), the stock exchange (SE) or

other (O).

Securities settlement

system

Name of the settlement system(s). If more than one system is in operation during the reporting period for the statistical tables, information and data

can be sent separately for each settlement system.

Closing time for same

Links to other CSDs

day transactions

Latest time of the day at which transactions can be sent to the system for

Such links can be *direct* (based on cross-participation), or *indirect* (through

local agents). They can allow FoP or DVP settlement. The number of links

and their category is provided per currency area.

settlement on the same day; in local time.

Delivery lag (T+n) Time lag between entering into a trade/bargain and its discharge by the

final exchange of a financial asset for payment.

Intraday finality Settlement finality achieved continuously or several times throughout the

settlement day. Intraday finality can be provided through real-time settlement procedures and/or the settlement of the results of multiple batch processing during the settlement day (yes if the system offers intraday

finality; no otherwise).

DVP (delivery versus payment) mechanism

A link between a securities transfer system and a funds transfer system that ensures that delivery occurs if, and only if, payment occurs.

In *DVP model 1*, transfer instructions for both securities and funds are settled on a trade-by-trade basis, with final transfer of securities from the seller to the buyer (delivery) occurring at the same time as final transfer of

the funds from the buyer to the seller (payment).

In *DVP model 2*, securities transfer instructions are settled on a gross basis, with final transfer of securities from the seller to the buyer (delivery) occurring throughout the processing cycle, but funds transfer instructions are settled on a net basis, with final transfer of the funds from the buyer to the seller (payment) occurring at the end of the processing cycle.

In *DVP model 3*, transfer instructions for both securities and funds are settled on a net basis, with final transfer of both securities and funds securities at the and of the processing evels.

occurring at the end of the processing cycle.

Currencies For domestic CSDs, ISO code of the currencies in which settlement can be

done; for international CSDs, number of currencies in which settlement can

be done.

stock exchange (SE) or other (the name of the cash settlement agent is provided)) settles the cash leg of the securities transactions. The

information is provided per currency, when relevant.

## Table CSD2: Transactions processed by selected central securities depositories: number of transactions

Based on CT 25.

Number of transactions Total number of transactions per CSD [CT 25].

Increase in the number of transactions

Difference between the *total number of transactions* [CT 25] per CSD in the current and previous year, divided by that number for the previous

year, in per cent.

## Table CSD3: Transactions processed by selected central securities depositories: value of transactions

Based on CTs 25 and 26.

Value of transactions Total value of transactions per CSD [CT 26], converted to USD using the

average exchange rate [CT 1].

Average value per

transaction

Total value of transactions per CSD [CT 26], converted to USD using the average exchange rate [CT 1], divided by total number of transactions per CSD [CT 25].

Difference between the total value of transactions per CSD [CT 26] in the

10] 400

Increase in the real value of transactions

current and the previous year, divided by the *total value of transactions* [CT 26] in the previous year, deflated by *CPI inflation* in the current year [CT 1],

in per cent.

Value of transactions as

Total value of transactions per CSD [CT 126], divided by GDP [CT 1], in

a percentage of GDP per cent.

## Table CSD4: Participation in selected central securities depositories

Based on CT 22.

Total number of participants

Number of participants in CSDs - total [CT 22].

## Table CSD5: Securities held on account at selected central securities depositories

Based on CTs 23 and 24.

Number of securities

Total number of securities held [CT 23].

held

Value of securities held 
Total value of securities held [CT 24], converted to USD using the average

exchange rate [CT 1].
