Subject: Comments on Harmonisation of the Unique Product Identifier Consultative report-CFETS

Dear Sir/Madam,

We would like to express our gratitude for the invitation to comment on "Harmonisation of the Unique Product Identifier Consultative report".

As referred in the consultative report, the structure of the UPI contains instrument type, product, contract and transaction. We suggest that data elements for transaction (such as counterparty information, trade date and execution time) should not be included in UPI, which may make the product classification system too precise.

2016-01-29

顺祝 商祺!
Best regards,

侯蕴涵
