E-mail address: hayri.turkmen@kuveytturk.com.tr
Consultative document: Revisions to the Standardised Approach for credit risk - second consultative document(/bcbs/publ/d347.pdf)
Classification: Public

Comments:

1- When we classify banks like A, B or C on Standardised Credit Risk Assessment Approach (SCRA) we have to know "Does bank exceed the published minimum regulatory requirements and buffers established by its national supervisor as implemented in the jurisdiction where the borrowing bank is incorporated" but we don't have a regularly updated list which supplies this ratios for member and non-member countries?

Will BIS publish a such a list for this need?

2- How we classify bank if bank meets minimum regulatory ratio not to exceed buffers? Are we evaluate altogether or not?
