Transitional arrangements

**Version effective as of
01 Jan 2023**

Implementation date changed to 1 January 2023
and output floor phase-in arrangements
updated as announced on 27 March 2020.

BANK FOR INTERNATIONAL SETTLEMENTS

90.1 The output floor will be implemented as of 1 January 2023, based on the following calibration phase-in arrangement:

Date	Calibration
1 January 2023	50%
1 January 2024	55%
1 January 2025	60%
1 January 2026	65%
1 January 2027	70%
1 January 2028	72.5%

90.2 During the phase-in period, supervisors may exercise national discretion to cap the incremental increase in a bank's total risk-weighted assets (RWA) that results from the application of the floor. This transitional cap will be set at 25% of a bank's RWA before the application of the floor. In the example shown in [RBC20.13](#), the application of this national discretion by the supervisor would cap the bank's RWA to 95 (ie a 25% increase of its pre-floor RWA of 76).
