

Research Task Force

5 December 2019

Announcement: Call for research proposals

The Scientific Committee of the Research Task Force (RTF) and the Secretariat of the Basel Committee on Banking Supervision are seeking research proposals that make use of Basel III monitoring data.

The RTF Scientific Committee with the support of the Secretariat will review the proposals. Preference will be given to projects that (i) inform the Committee's role as primary global standard setter for the prudential regulation of banks; and (ii) are supported by rigorous analysis.

Interested researchers should complete a research proposal form and send it, together with their resume, to Martin Birn (Martin.Birn@bis.org) of the Basel Committee's Secretariat. The submission deadline is **31 January 2020**. Researchers will be notified by 31 March 2020.
