98.1

Supervision and supervisory practices are not static. The Committee frequently issues new (and revises existing) standards, guidelines and sound practices. These are designed to strengthen regulatory and supervisory regimes, particularly for internationally active banks in Committee member jurisdictions. Supervisors are encouraged to move towards the adoption of updated and new international supervisory standards as they are issued.

98.2

Any standards that are consolidated in the Basel Framework are automatically incorporated into the Basel Core Principles when "Basel Framework" is referred to in the text. Similarly, when the Basel Core Principles refer to "applicable standards", this refers to the most recent BCBS standard or guideline that is effective.

98.3

The Committee has included this annex as a resource on supervisory practices and emerging risks that have evolved since the last review of the Basel Core Principles. When the next review of the Basel Core Principles is conducted, it will consider whether and how to embed any specific requirements or learnings from these publications within the text of the Core Principles.
