The great acceleration of Carbon Dioxide

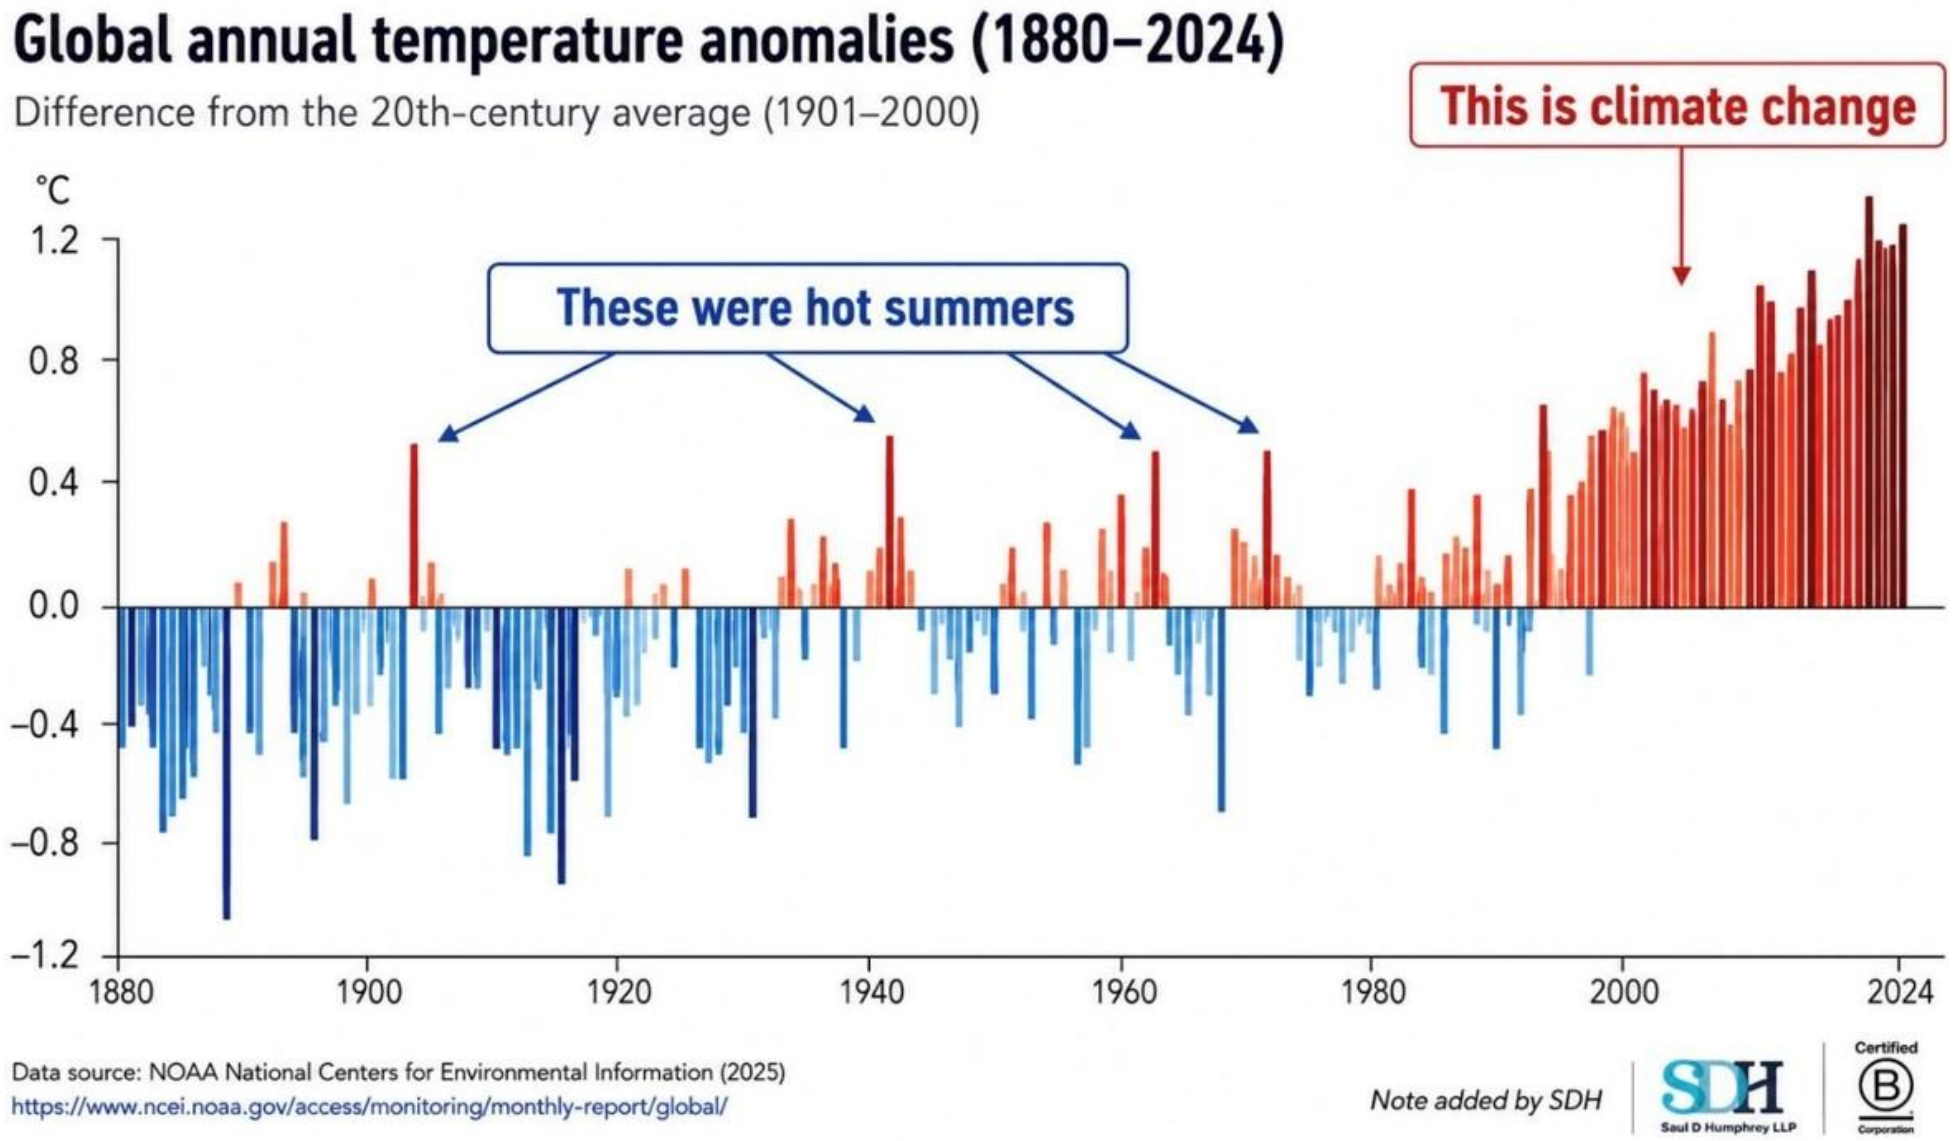

The relationship is simple: more greenhouse gas, more warming

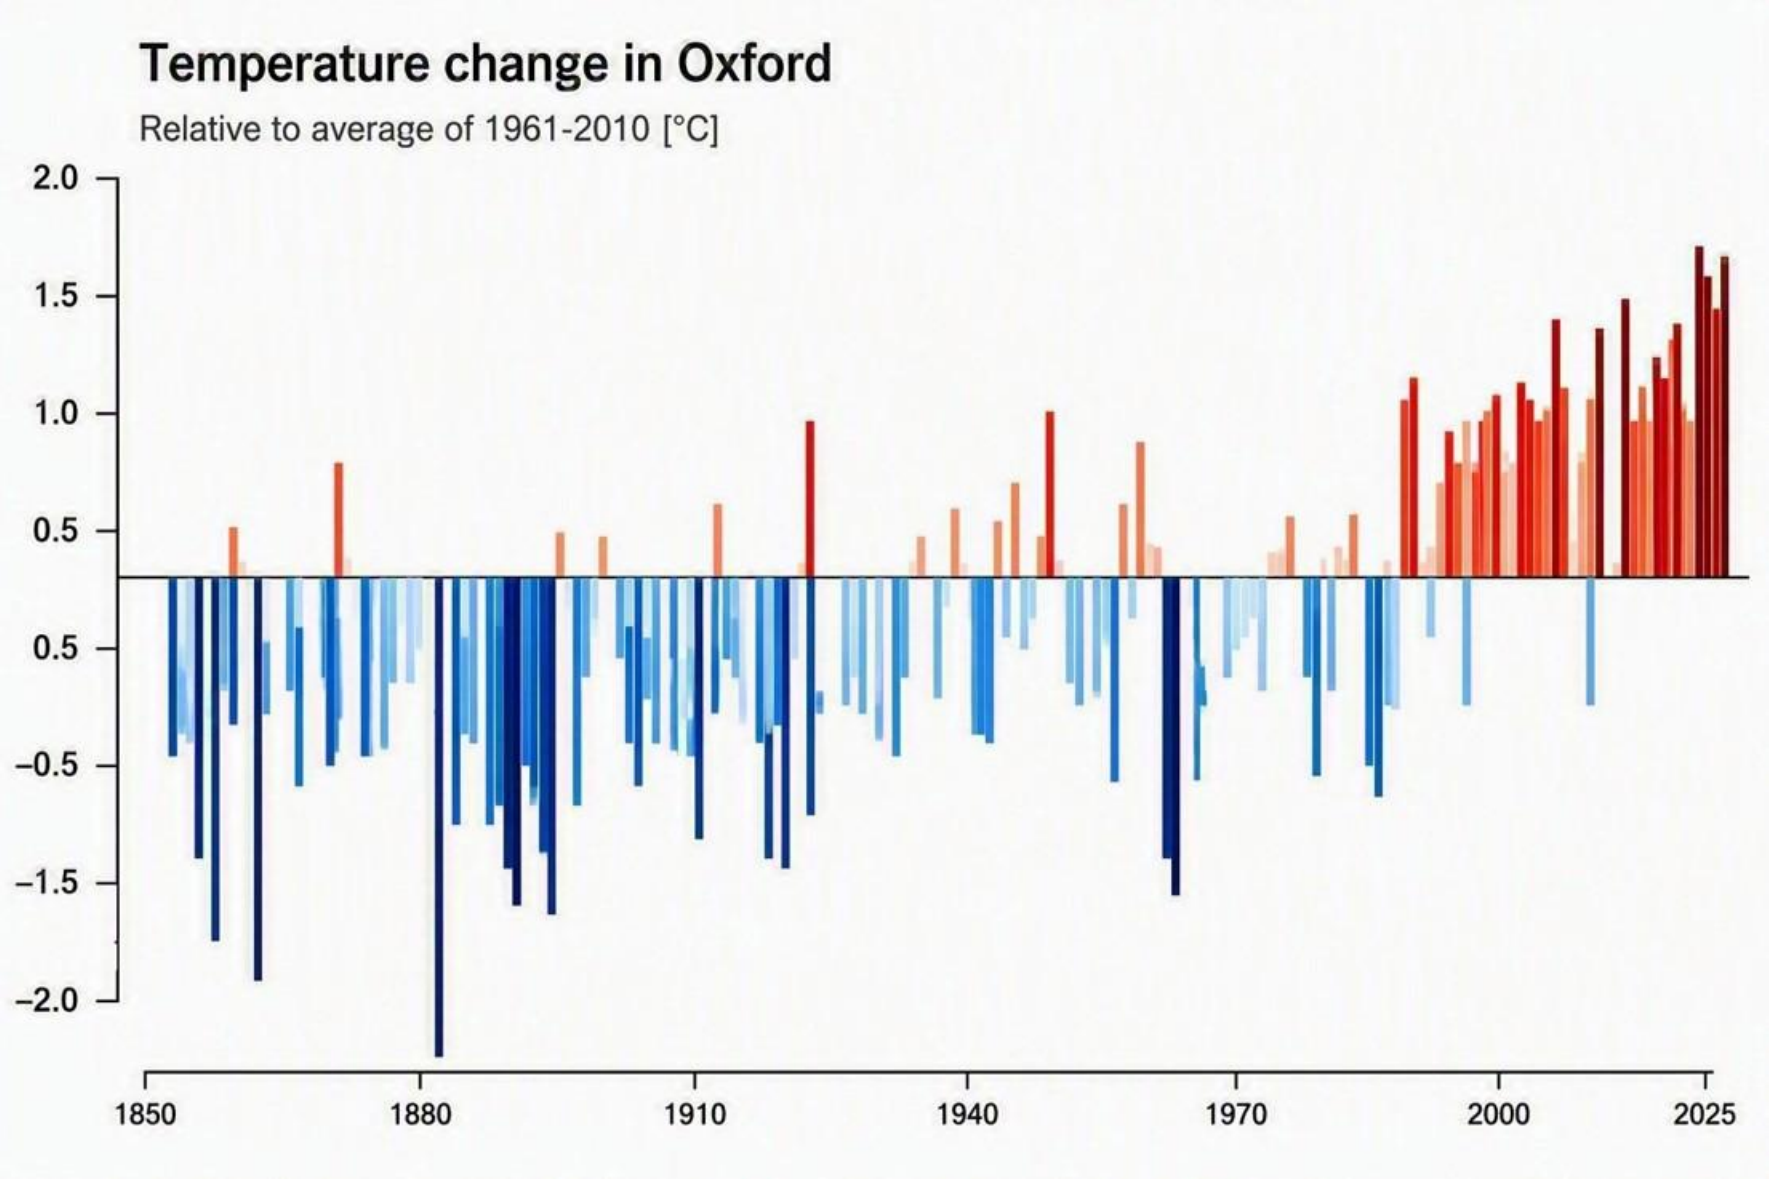

Data Source: NASA Goddard Institute for Space Studies, https://data.giss.nasa.gov/gistemp/

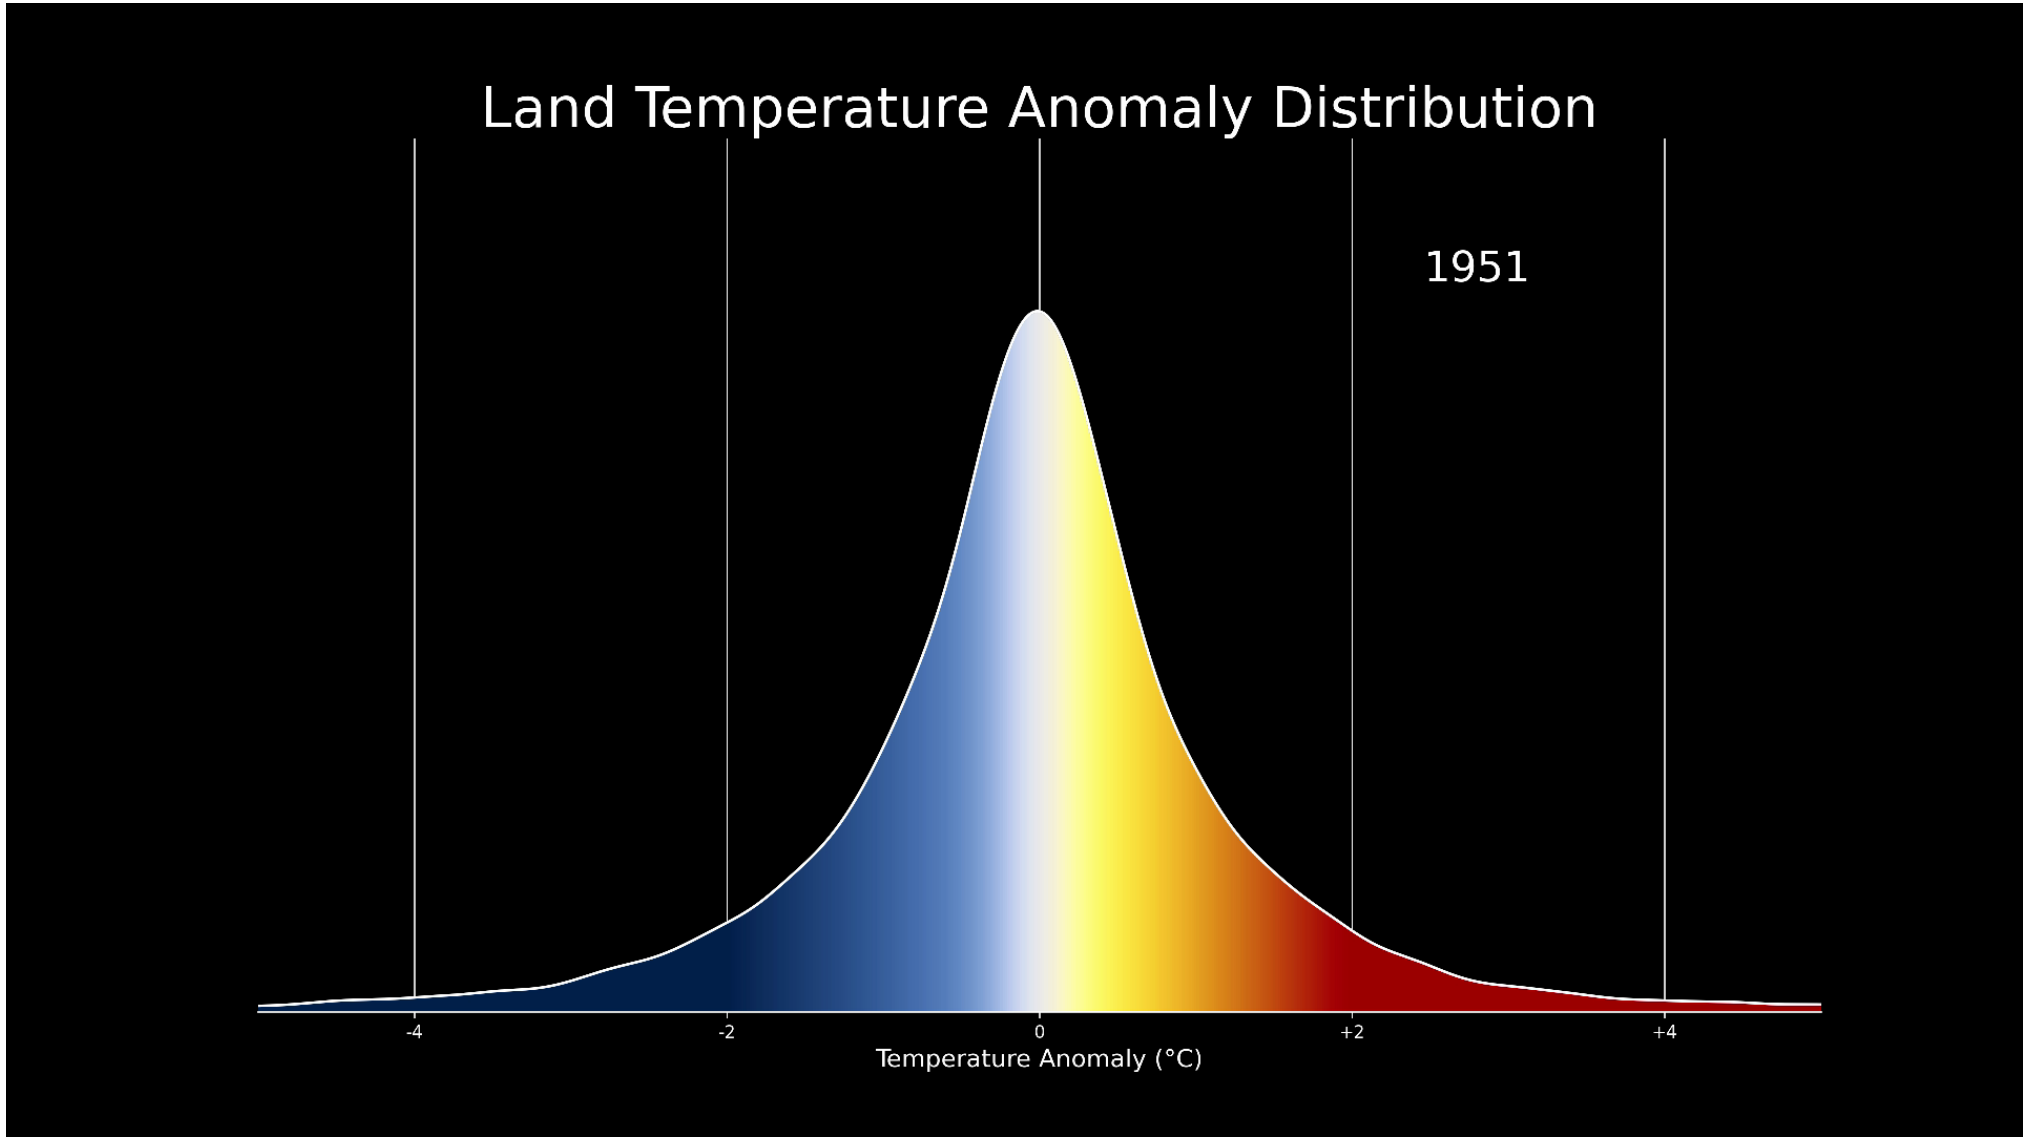

Global temperature anomalies: the baseline has shifted

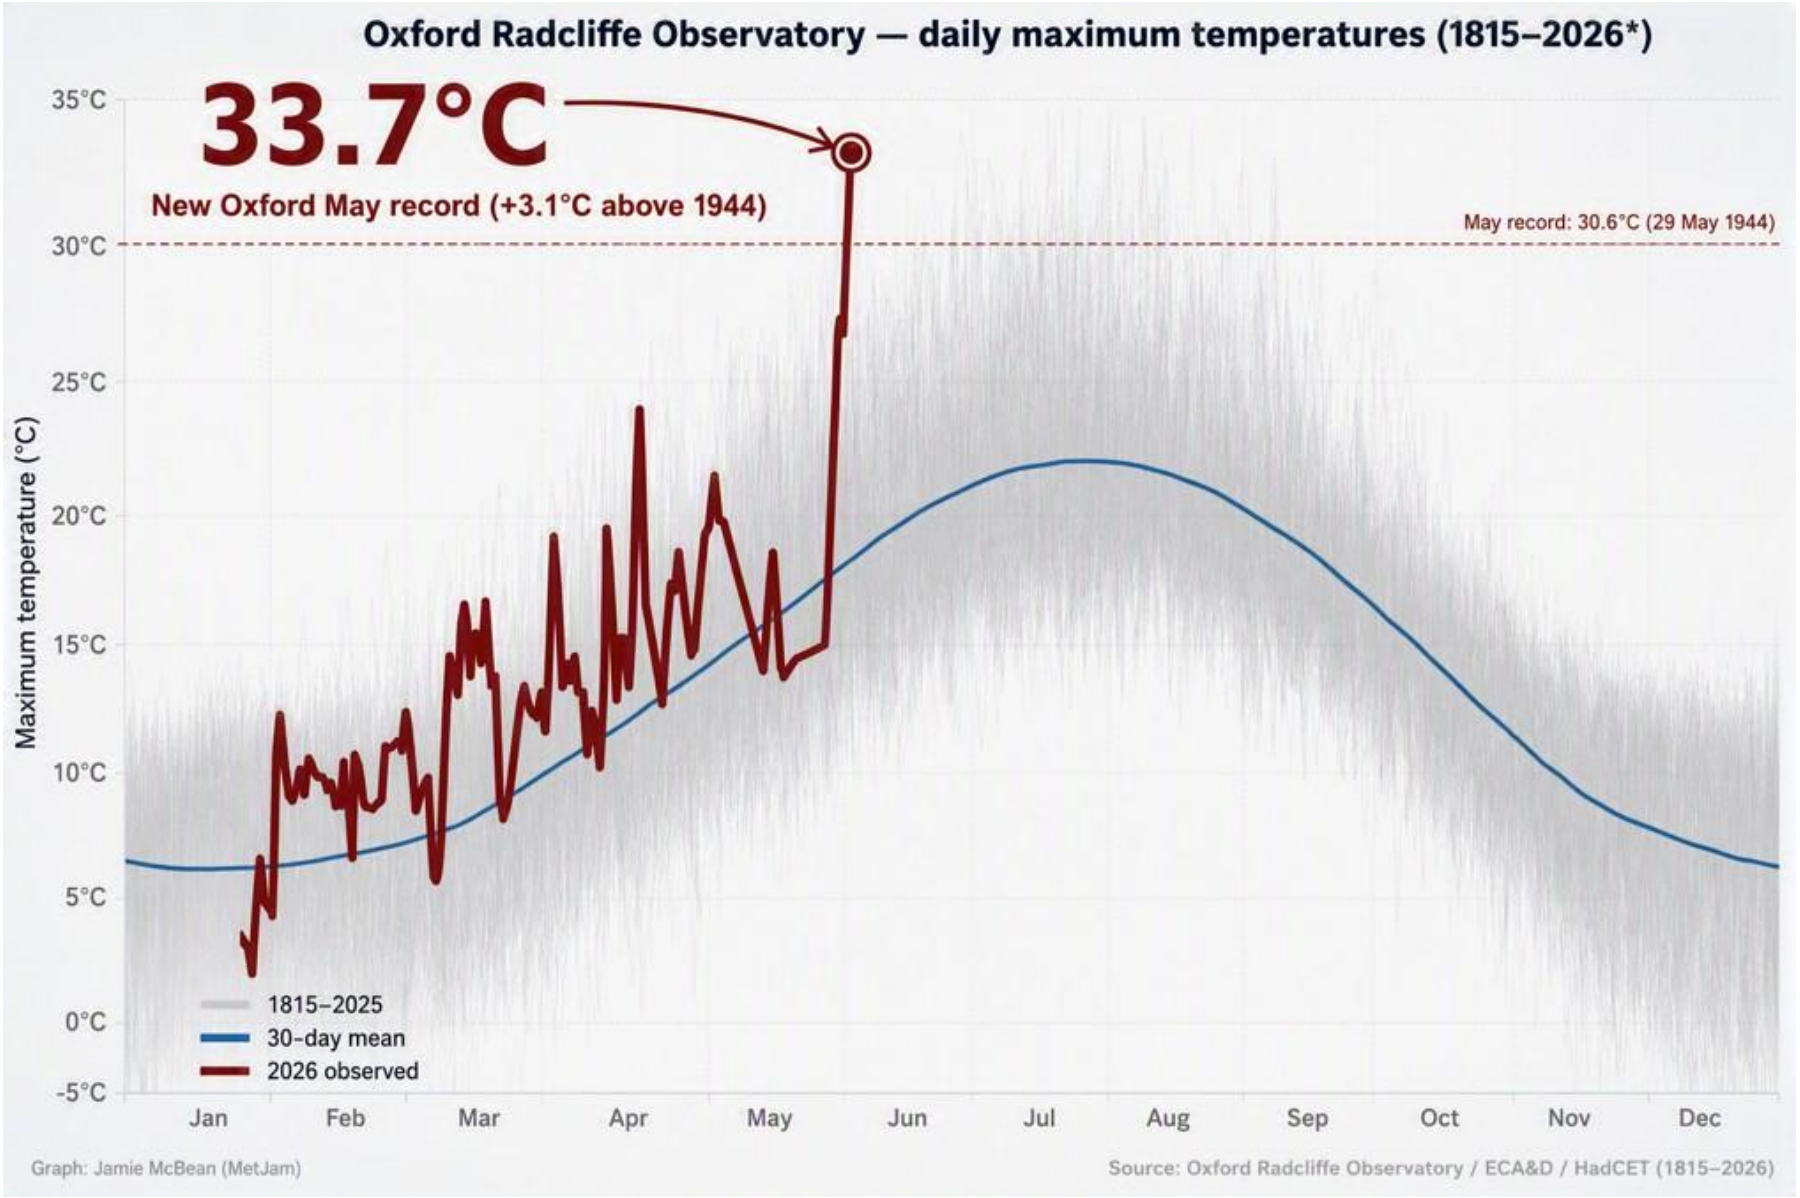

So have England's

Climate extremes: loading the dice

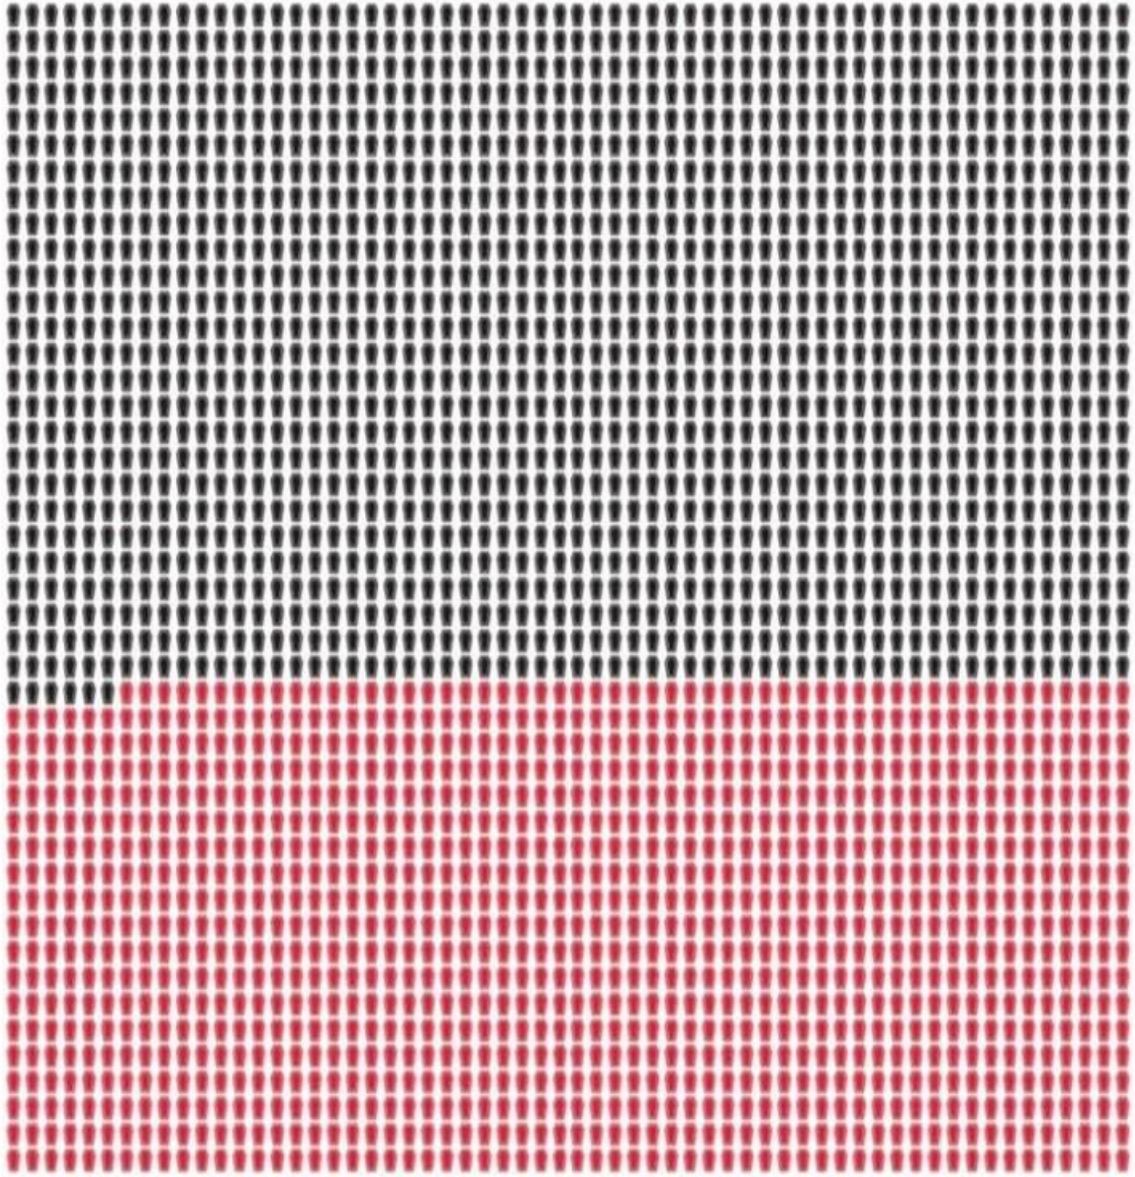

Two Centuries of Observations, One Unprecedented May

“A Green and Pleasant Land” No More

Over 2,700 lives were lost in England from May’s heatwave

The worst of this El Niño has not arrived yet.
