

Economic Prospects for EBRD regions: Has inflation peaked yet?

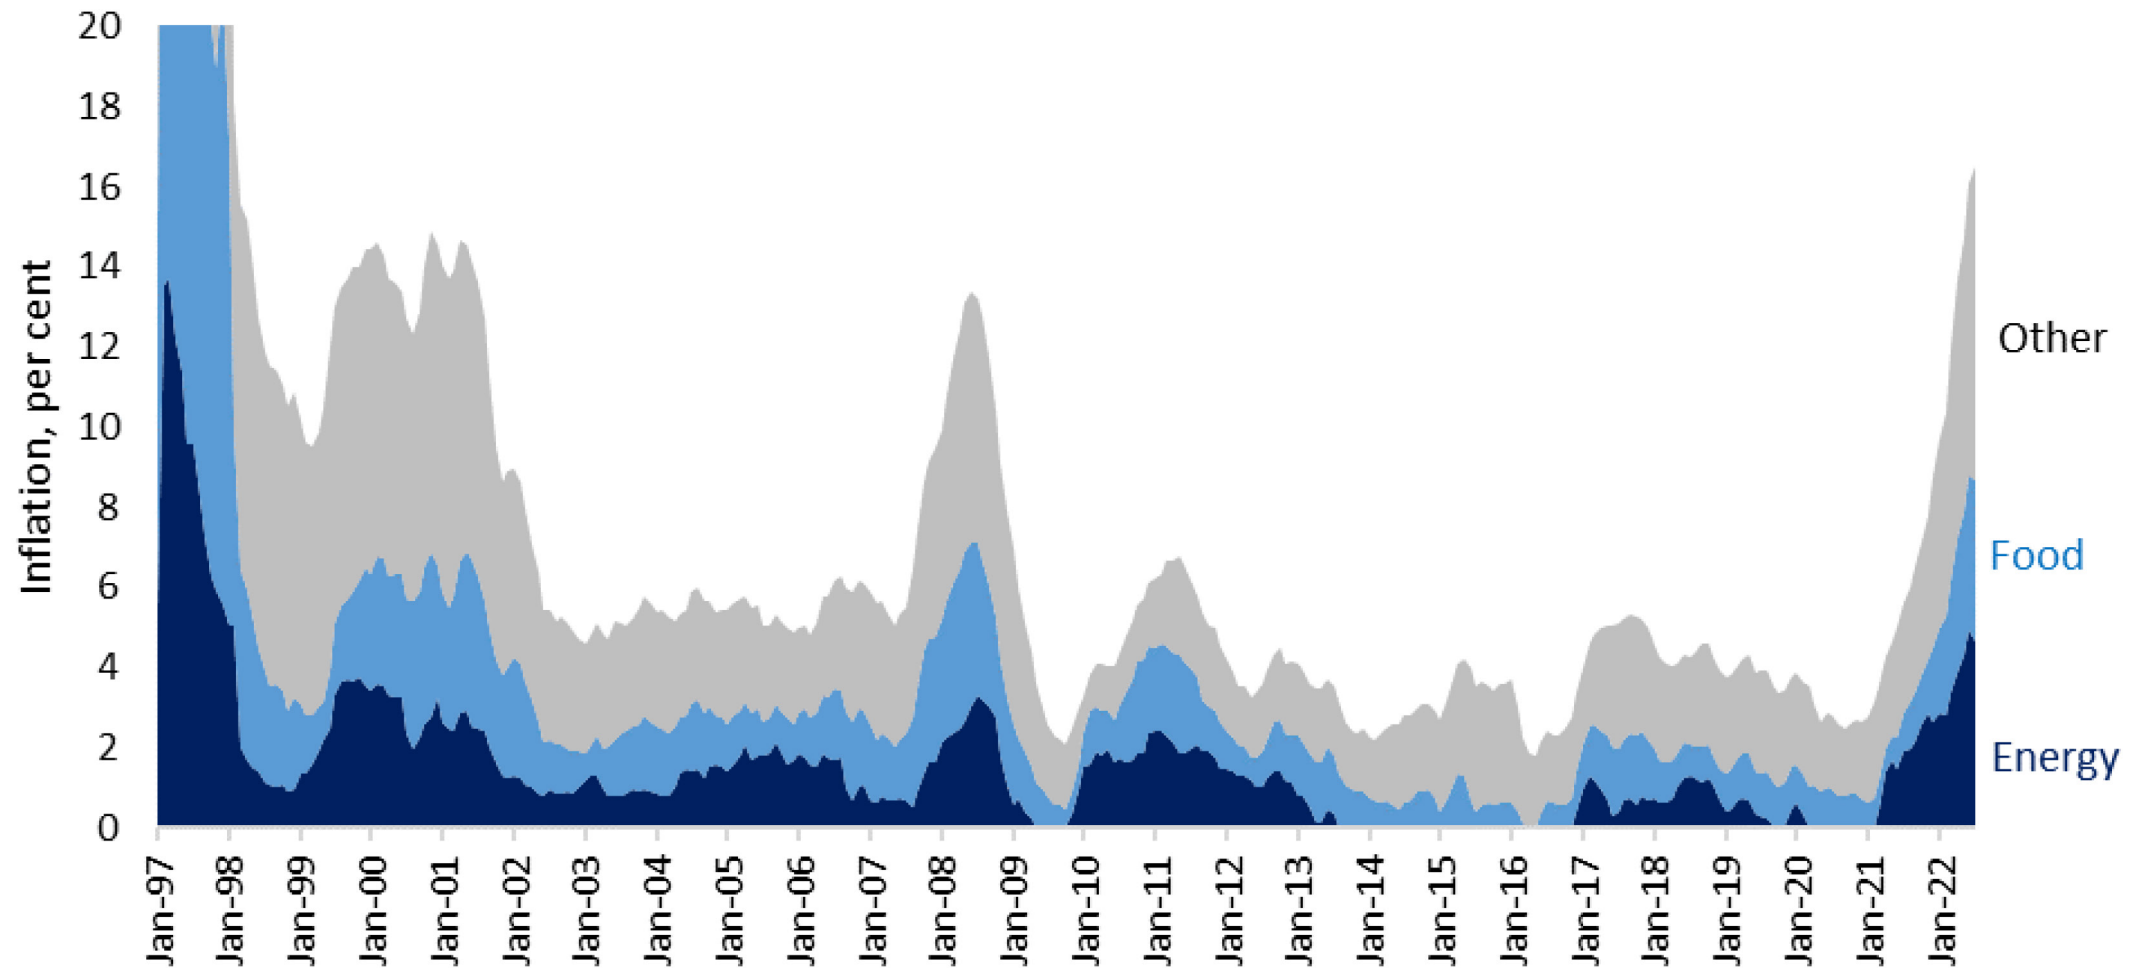

Beata Javorcik

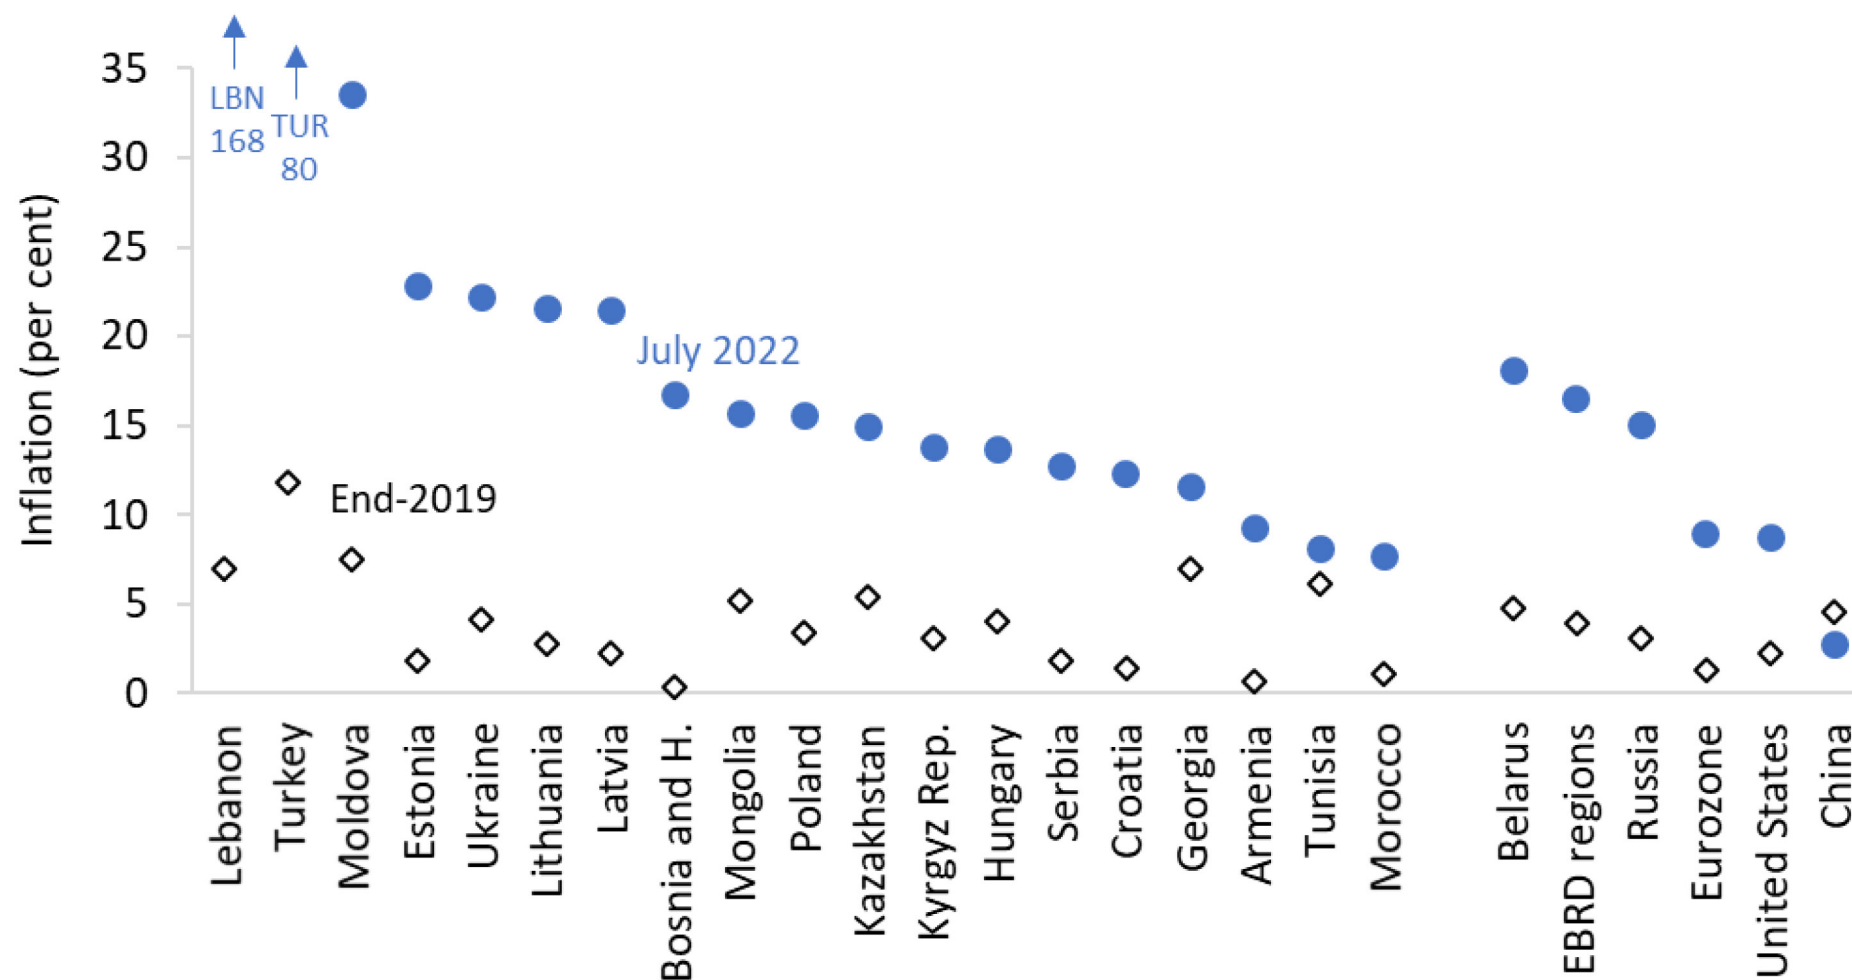

European Bank
for Reconstruction and Development

Inflation in the EBRD regions increased to 16.5% in July 2022: the highest since the late 1990s

Double-digit inflation in 80%+ of economies

Sources: National authorities via CEIC and authors' calculations.

Notes: Year-on-year changes. EBRD regions refers to a simple average across 33 economies, excludes Lebanon.

Most of economies in the EBRD regions hiked policy interest rates between May 2021 and July 2022
