## Closing at 2 pm

*NB. The introductory course will start on January 17 next, with recurring sessions:*

<https://www.coursera.org/learn/macroeconomic-financial-accounts?#syllabus>.

*The main topics: net lending and borrowing of the institutional sectors, the balance of payments, the logic of financial accounts, the concepts of net worth and financial wealth, and finally economic policy and financial stability after the Great Financial Crisis and in the aftermath of the Covid shock. Tutorials are included on how to access and download relevant data from the databases of the OECD, the BIS, the ECB and the FED. The content is presented using videos and slides, there are appendices with SNA definitions, references to the economics literature and podcasts with experts in the field. Two specialized courses will follow.*
