## Features

22 Subject Titles , 315 Datagroups,  
26 000 Time Series

8 formula options for every time  
series

Customized formulas

Get quick information on key  
economic indicators via dashboards

Search within data groups

Dynamic map display for data groups  
containing locations

Personal dashboards that can be saved,  
linked and shared

Subscription

Help desk

REST web service usage

# Dashboards

Monetary Aggregates Annual Percentage Growth

The graph presents the annual growth rates of M1 and M3 money supply. M1 is composed of currency in circulation and demand deposits. Broad money supply M3 is derived by adding time deposits, funds received from repo transactions, money market funds and debt securities issued with a maturity up to 2 years to the M1. The graph shows that M3 growth rate exceeds the M1 growth rate recently.

The series used in the graph are taken from Money Supply and Counterpart Items table under the Money and Banking Statistics available at EVDS.

Prepared by: CBRT Statistic Department, Monetary and Financial Statistics Data Division (Contact: [parasal.veriler@tcmb.gov.tr](mailto:parasal.veriler@tcmb.gov.tr)).

# Mobile Application

- Access the latest available statistics and display them in tables, charts and maps and export data in various formats (such as .csv or .png)
- Access, download and/or share your dashboards and predefined graphs
- Users can tweet, mail, or post their favorite graph or dashboards

## Increasing Public Awareness

The Bank publishes brochures, videos, organizes training programs for different target groups.

A video has been released by the CBRT to make it accessible to a larger audience.

## Use of EVDS: Immediate Results

Number of total clicks

Number of visitors and visits

## Next Strategic Steps

Increase the number of economic and financial data available in the EVDS

Add new functions (mathematical operations between the time series)

Build a statistical portal

Focus more on increasing financial literacy

Increasing public awareness

# Thank you!
