HOUSEHOLD INDEBTEDNESS FROM A COMPARATIVE PERSPECTIVE

Household indebtedness in Turkey has become a matter of concern due to the importance of a balanced growth environment and the need to safeguard financial stability. Current account balance and stability are crucial factors affecting the country’s economic environment. By signing up to our mailing list, you will receive updates from the Central Bank.

ON TURKEY’S TOTAL DEBT

The total debt of the relevant sectors in Turkey is mostly driven by internal debts and its ratio to GDP has been on the decline since the third quarter of 2015, remaining at low levels compared to the selected countries.
