Financial Accounts Report 2018-III

Contents

I-Introduction	3
II- Financial Institutions	5
III. General Government	8

Summary

Financial balance sheets of assets of the Turkish economy liabilities reached TRY 14,8 trillion. The rest of the world increased TRY 2,007 billion.

Financial flows between the countries reveal that net transactional valuation decreased world change in exchange rate.

A cross-country comparison of households and non-financial institutions maintained its place among the third quarter.

International seminars and workshops...

SEMINAR
SECTORAL
FINANCIAL
ACCOUNTS

DATE & PLACE: April 8-10, İstanbul
APPLY BY : February 22

DESCRIPTION

As an important tool for analyzing financial flows between domestic sectors and with the rest of the world, sectoral financial accounts provide a way of examining the financial effects of economic policy and a map of financial flows to be used to analyze sectoral behavior in times of financial crisis. The seminar mainly aims to improve participants' knowledge of statistical methodology underlying the financial accounts, linkages, compilation methods, practical issues and future developments. The seminar will also cover how the CBRT compilers harmonize and bridge national statistics and the requirements of System of National Accounts (SNA 2008) and the European System of Accounts (ESA 2010). Moreover, organizational issues within the compiler agency and with other agencies will be considered. Sessions will be devoted to the work of national compilers of financial accounts at sector level with particular attention paid to difficult areas and subjects that need to be improved. Also, group exercises will enhance the knowledge of particular classification issues.

TARGET AUDIENCE

The seminar is designed for experts who are responsible for compiling financial accounts. Participants are encouraged to share their country experiences with short presentations in each session on the compilation of financial accounts.

MAIN TOPICS

- Key concepts, definitions and methodology
- Institutional responsibilities, data sources
- Accounts of institutional sectors: Theory and practice (financial and non-financial corporations, government, households, rest of the world)
- Use of financial accounts

Additional Information

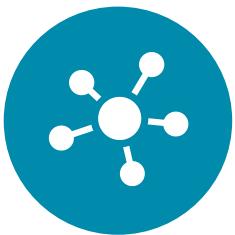

The IMB will accept a limited number of applications from developing countries. Applications should be submitted to the CBRT's IMB unit available for a limited period of time. Financial Accounts section of the CBRT's IMB unit for further information.
