

IFC High Level Meeting on Data Governance, co-organised with the International Statistical Institute

22 November 2019, Tunis, Tunisia

Collecting data: new information sources¹

Somsajee Siksamat,

Bank of Thailand

¹ This presentation was prepared for the meeting. The views expressed are those of the author and do not necessarily reflect the views of the BIS, the IFC or the central banks and other institutions represented at the meeting.

ธนาคารแห่งประเทศไทย BANK OF THAILAND

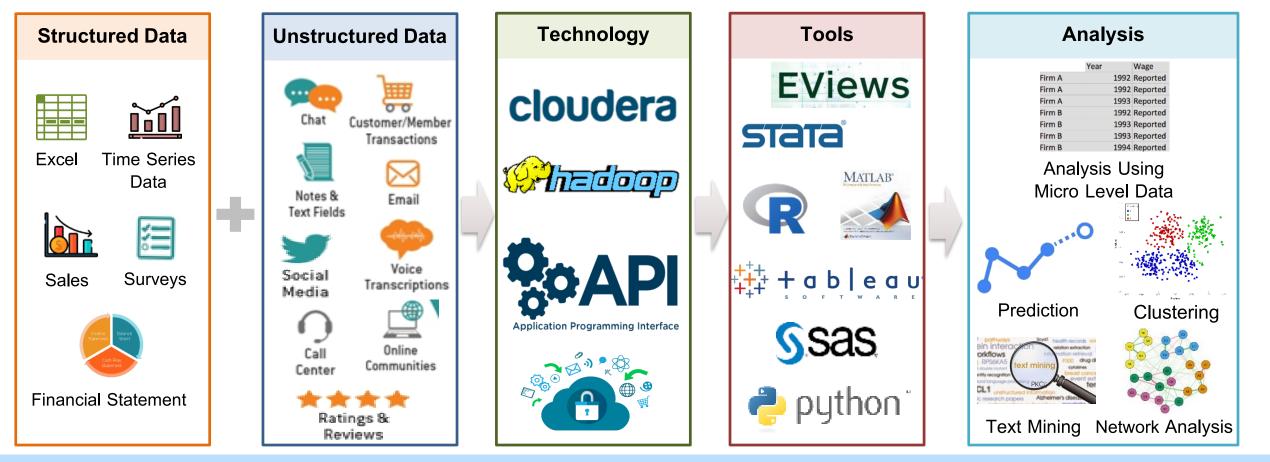

Session 1 : Collecting data New Information Sources

Dr. Somsajee Siksamat Senior Director Data Management Department, Bank of Thailand 22 Nov 2019

1. Data Revolution and Implications

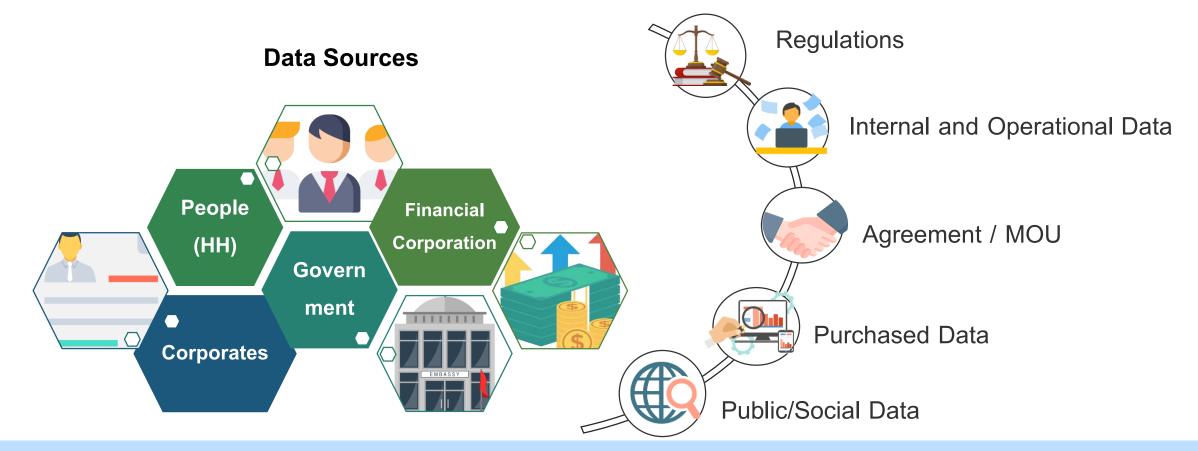

Data is one of the strategic asset and can make large benefits to an organization. Right acquisition process and right data are crucial steps to reap the befefits of the data evolutions for achieving sustainable growth, stability and development.

2. Response to the Data Revolution: Data Acquisition (1)

Seeking to acquire new sources and new types of (micro /unconventional) data and analytic methods, under the good "Data Governance", we need to understand the new business model and policy objectives.

2. Response to the Data Revolution:

Bank OF THAILAND Big data: from macro towards micro data and from conventional to unconventional data (2)

5

2

2. Response to the Data Revolution:

ธนาคารแห่งประเทศไทย Data Governance leading to appropriate and lawful data management (3)

BANK OF THAILAND

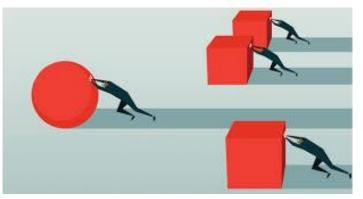

ธนาคารแห่งประเทศไทย ^{BANK OF THAILAND}

3. Challenges in Data Revolution (Collections and Uses)

Change in business model related to economic and financial transformation: 🕈 New economy

- Demand for and Supply of data: Content analysis, what needed, what data do we have or need more
- Data cost rationalization
- Data literacy
- 2 Data quality assurance / trade-off in Big data
 - Accuracy, Accessibility, Comprehensiveness, Consistency, Currency, Definition, Granularity, Precision, Relevancy and Timeliness
 - Regulatory vs. Statistical data, Small amount vs. Large amount
- 3 Legal binding: Data Protection / security and privacy plus stakeholder engagement
- 4 Data flooding / Drowning: Manage and Use of data issues
 - People: skills and awareness
 - Process: Management system and Governance conduct
 - Technologies: Tools and Platform
- 5 Data sharing/Data inclusion: Open central bank data and Linked data
 - Scope and details / To whom / Benefits / Access Channel
 - Data standard and Masking (encryption)
- 6 Leverage (Big) data for improved decision-making : aware of the difference between correlation and causation, a potentially dangerous pitfall for decision-making
