Integrated Environmental Equilibrium Model for Costa Rica (IEEM-CR)

Dynamic recursive GEM that incorporates the environmental accounts.

Forward-looking analysis of public policies and understanding of the impact of decisions prior to their implementation.

Risk scenarios that consider environmental factors for macroeconomic projections.

Use of the platform to link national and environmental accounts to analyze feasibility of achieving environmental commitments.

Some examples of the uses of IEEM-CR

Estimates for the National Development and Public Investment Plan 2019-2022

Projection of CO₂ emissions associated with the use of energy for the period 2015-2030.

Financial stability survey (February 2019)

Aim

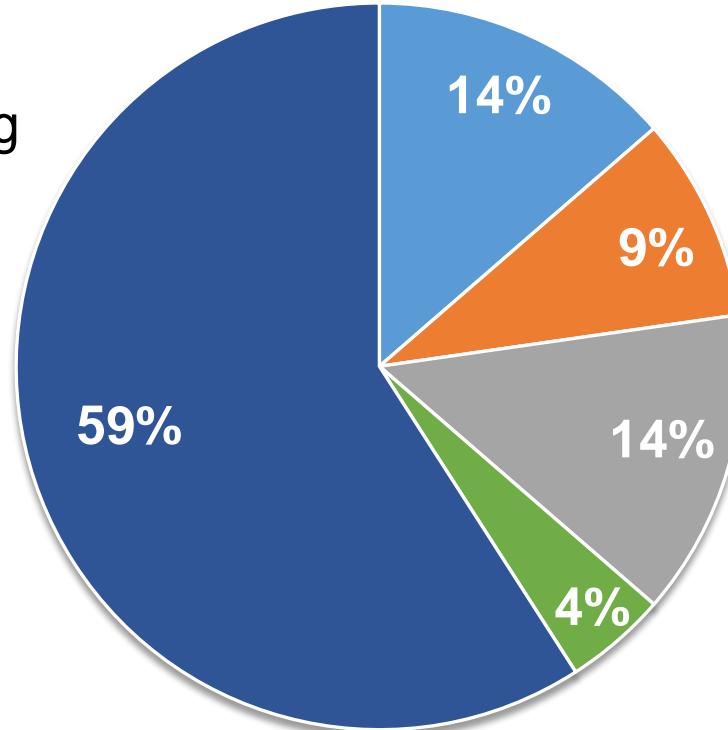

To identify the vision of financial entities about the soundness of the financial system, in the face of main macro-financial events and vulnerabilities they perceive.

Assessment of the climate risk perception and management:

- i. Degree of relevance in which risks from climate change and extreme climate are perceived,
- ii. Exposure according to business lines and climatic zones,
- iii. Progress in risk management, and
- iv. Identification of opportunities for proper management.

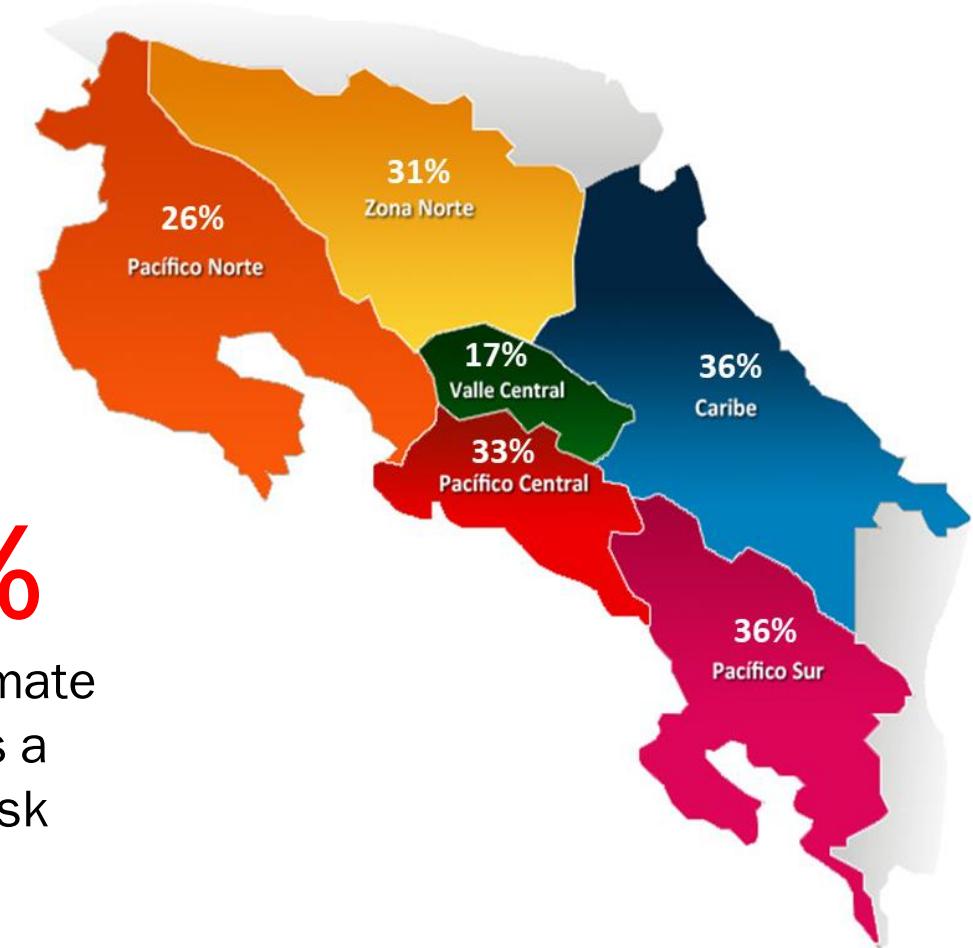

Perception of climate change as a relevant risk

Who is
perceiving
this risk?

- Insurance companies
- Other entities
- Financial market
- Pension funds
- Deposit companies

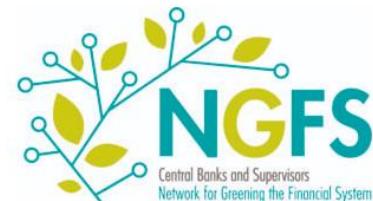

52%
perceive climate
change as a
relevant risk

Design of a strategy to green the international monetary reserves

The governor of BCCR requested to work on a proposal to green the reserves.

While preparing the proposal, BCCR has contacted different entities for assistance and advice: NGFS, BIS, WB, several central banks and portfolio managers.

Preliminary proposal presented to the board of directors: Impact strategy to green reserve management

Aim

To generate a green and sustainable investment portfolio, without causing any prejudice to the current objectives of the Bank.

Investments in green bonds through the Green Bond Fund of BIS

Environmental “best-in-class” in BCCR’s portfolio

Agreement with the IMF: Three-year extended fund facility

MEFP Action	Agreed date
<p>BCCR: Development of a roadmap to integrate climate change considerations into the design of monetary and fiscal policy.</p>	December 2021

Climate change roadmap of BCCR – work areas
