## Declaration regarding a Conflict of Interest

### Referring to initiative:

(the "Initiative")

It is the policy of the BIS to ensure a transparent tendering process with independent bidders.

Therefore, the undersigning consultant ("**Consultant**") is expected to disclose any relationships with companies or individuals participating in the Initiative ("**Participant**") which could impair its independence and objectivity or interfere with duties vis-à-vis the BIS in connection with the Initiative ("**Conflict of Interest**"). Such Conflict of Interest may, in particular, exist if the Consultant was previously employed or otherwise engaged by a Participant, if the Consultant received any gratuities or other consideration by a Participant or if the Consultant has a financial, managerial, political, ownership interest or any other interest in the Participant.

The intent is not to prevent a Consultant with a potential Conflict of Interest to participate in the Initiative. Timely and complete disclosure of potential Conflicts of Interest may be a satisfactory remedy and protect the Consultant from suspicion and accusations of breach of professional integrity.

### Participants of the Initiative:

### Declaration:

Consultant confirms the following (tick the relevant box):

- ☐ it has not provided services to any Participant within the previous 12 months;
- ☐ it has no direct or indirect interest in any Participant;
- ☐ it is not controlled directly or indirectly by any Participant; and
- ☐ it is not otherwise legally connected with any Participant (e.g. through a common parent firm).

---

For any box that is ***not*** ticked, please provide a brief explanation.
