Footnotes for Table TR

Brazil: ¹ Private securities. ² Started in March, 2020. ³ Started in May, 2020. ⁴ Started in October, 2020. ⁵ Started in November, 2023.

Russia: *The BIS ceased receiving data from public authorities in Russia after 28 February 2022. Where possible, data publication will be continued if the BIS is able to use data from public or commercial sources. ¹ NSD is the acronym for National Settlement Depository. ² SPB is the acronym for Saint Petersburg Exchange.

Türkiye: ¹ According to Article 87 of the Capital Market Law (No. 6362), the Capital Markets Board (CMB) can mandate reporting of information on financial transactions by counterparties to the CMB or to a trade repository that will be assigned by the CMB in order to monitor systemic risk and maintain stability in capital markets. As per the above mentioned Article of the Law, the CMB assigned MKK to provide trade repository services in Türkiye. The Electronic Trade Repository Platform (e-TRADE REPOSITORY) that enables parties of contracts to report derivative transactions on organized and over-the-counter markets in compliance with international standards was commissioned on November 30, 2018. Banks, intermediary institutions and corporate firms which are defined in Reporting Communique started to report on the e-TRADE REPOSITORY Platform as of the relevant date their derivative contracts in domestic and foreign over-the-counter markets and foreign organized markets. Other: CFD

United States: ¹ Chicago Mercantile Exchange. ² DTCC Data Repository.

European Union: ¹ As published on the website of the European Securities and Markets Authority (ESMA).
