International Journal of Central Banking Premier Issue

The *International Journal of Central Banking* (IJCB), a new quarterly publication that is a joint project of the Bank for International Settlements (BIS), the European Central Bank, and each of the Group of Ten (G-10) central banks,¹ seeks submissions for its premier issue, slated for publication in early 2005. The objectives of the IJCB are to disseminate widely the best policy-relevant and applied research on central banking and to promote communication among researchers both inside and outside of central banks.

The editors seek manuscripts of high analytical quality on the theory and/or practice of central banking, with special emphasis on research bearing on monetary and financial stability. Topic areas of published research will include but not be limited to macroeconomics, monetary economics, econometric modeling, finance and capital markets, banking and financial intermediation, the analysis of payments systems, prudential regulation and supervision, issues relating to domestic and international financial stability, and international finance more generally.

The journal will publish full-length articles; shorter articles or “notes”; and comments on previously published work (with authors’ replies). The journal may also on occasion commission surveys of important developing areas of research.

Federal Reserve Board Governor Ben S. Bernanke will serve as the initial managing editor, reporting to a governing committee comprised of designees from the sponsoring institutions. The editors welcome manuscripts for consideration from central bank staff and other researchers. Please observe the submission guidelines below or visit <http://gemini.econ.umd.edu/ijcb/ijcbsubmit.html> for further details.

¹ Bank of Canada, Bank of England, Bank of France, Bank of Italy, Bank of Japan, Deutsche Bundesbank, Federal Reserve Board, National Bank of Belgium, Netherlands Bank, Sveriges Riksbank, and Swiss National Bank.

SUBMISSION GUIDELINES

Manuscripts are accepted for review with the understanding that the submission has been approved for publication by all of the authors.

The *International Journal of Central Banking* accepts both electronic and paper submissions; however, electronic submissions are strongly preferred. Manuscripts must be written in English and should be submitted with a concise abstract. Submissions should be double spaced, except for references, footnotes, and legends, which should be single spaced. Tables and figures should be collected at the end of the manuscript. The Journal does not normally publish manuscripts longer than 40 pages, including references, tables, and figures.

ELECTRONIC SUBMISSION: Authors may submit manuscripts online or via e-mail. All manuscript files should be double-spaced. Submission as an e-mail attachment is acceptable provided that all files are included in a single archive the size of which does not exceed two (2) megabytes. Files may be submitted online in MS Word (DOC) or Portable document format (PDF).

Authorship should not be identified anywhere in the body of the manuscript. (Authors submitting online will be asked to provide their contact information on a separate form. Authors submitting files via e-mail should include their contact information in the body of the e-mail message, not in the attachments.)

Submit manuscripts online at: <http://gemini.econ.umd.edu/ijcb/ijcbsubmit.html>

Submit manuscripts via e-mail to: BDM-IJCB-Editor@frb.gov

PAPER SUBMISSION: Authors should submit four (4) copies of the manuscript (single-sided, double-spaced), along with an electronic file in MS Word or WordPerfect format on disk to:

Managing Editor
International Journal of Central Banking
MS-127
Board of Governors of the Federal Reserve System
Washington, DC 20551

Authorship should be identified only on a removable cover page.

ABSTRACT INSTRUCTIONS: Authors should place the abstract on the title page of the manuscript. The abstract should be an overview of the manuscript, including significant keywords, but excluding references and equations. Please limit the abstract to 100 words.

SUBMISSION FEE: The manuscript submission fee is U.S.\$100. Revisions will not require additional fees. Payment must be submitted online via credit card (at: <http://gemini.econ.umd.edu/ijcb/ijcbsubmit.html>) prior to the manuscript submission.

QUICK-SCREEN PROCEDURE: In the interest of avoiding unnecessary editorial delays and conserving reviewing resources, the Board of Editors will retain the option, within one month of submission, of determining that a manuscript is unlikely to be appropriate for the journal, without sending it to other referees. “Appropriateness” may reflect fit of the manuscript with the journal's objectives, the Editors' assessment of quality or originality, or other factors. Manuscripts rejected by a quick-screen procedure will be returned to the author with a refund of half the submission fee. The decision to reject under the quick-screen procedure cannot be appealed.
