Bank for International Settlements

67th Annual Report

1st April 1996—31st March 1997  Basle, 9th June 1997
# Table of Contents

## Letter of transmittal

I. Introduction: clear objectives but unclear indicators

- Economic developments and conflicting policy signals
- Financial developments and measures to strengthen the financial system

II. Developments in the industrial countries

- Highlights
- Developments in the three major economies
- Developments in the other major European economies
- Developments in smaller European economies
- Developments in other industrial countries
- Macroeconomic policies and other factors affecting demand
  - Macroeconomic policies
  - Other factors affecting demand
- Recent trends in wage and price inflation
- Developments in labour markets
  - Developments in employment and non-employment
  - Employment, foreign trade and foreign direct investment
  - Employment and relative wage flexibility
- Concluding remarks

III. Economic policies and developments in the rest of the world

- Highlights
- Recent developments in Latin America
- Recent developments in Asia
  - Slowing export growth
  - China and India
  - Other Asian economies
- The Middle East and Africa
- Price stability and competitiveness in emerging economies
- Recent developments in transition economies
  - Currency board arrangements

IV. Monetary policy and asset prices in the industrial countries

- Highlights
- Monetary policy in the three major economies
  - United States
  - Japan
  - Germany

Bond yields and the inflation record* ................................................... 152
Central bank autonomy: selected developments ...................................... 153
Credit and real aggregate asset prices* ................................................ 157
submitted to the Annual General Meeting
of the Bank for International Settlements
held in Basle on 9th June 1997

Ladies and Gentlemen,

It is my pleasure to submit to you the 67th Annual Report of the Bank for International Settlements for the financial year which began on 1st April 1996 and ended on 31st March 1997.

The net profit for the year amounted to 194,289,449 gold francs, after transfer of 3,000,000 gold francs to the provision for exceptional costs of administration and 6,000,000 gold francs to the provision for modernisation of premises and renewal of equipment. This compares with a net profit for the preceding year of 181,333,300 gold francs.

The Board of Directors recommends that, in application of Article 51 of the Bank’s Statutes, the present General Meeting should apply the sum of 48,780,923 gold francs in payment of a dividend of 280 Swiss francs per share. It may be noted that the dividend payable in respect of the 44,000 new shares which were issued during the latter half of the financial year will be settled on a pro rata basis according to the relevant date of subscription.

The Board further recommends that 41,018,778 gold francs be transferred to the general reserve fund, 3,000,000 gold francs to the special dividend reserve fund and the remainder of 101,489,748 gold francs to the free reserve fund.

If these proposals are approved, the Bank’s dividend for the financial year 1996/97 will be payable to shareholders on 1st July 1997.

Basle, 23rd May 1997

ANDREW CROCKETT
General Manager
