## Introduction

The Markets Committee comprises senior officials responsible for market operations at central banks of the G10 and some of the largest non-G10 economies. Formerly known as the Committee on Gold and Foreign Exchange, it was established in 1962 following the setting-up of the so-called Gold Pool. Then, members continued to meet at the BIS for open and informal exchanges of views. Over the years, the focus of these discussions has shifted towards coverage of recent developments in financial markets, an exchange of views on possible future trends, and consideration of the short-run implications of particular current events for the functioning of these markets and central bank operations.

The Committee also serves as a forum for central banks to discuss the specifics of their own market operations. An important feature that has been constantly highlighted by the discussions is that central banks' decisions and actions are shaped by the frameworks in which they operate. While these monetary policy frameworks share a number of similarities across countries, there are also noticeable differences, in particular at the operational level. Monetary policy frameworks also evolve.

To facilitate its discussions, the Markets Committee condensed the information on the monetary policy frameworks and market operations of its members into a single and easily accessible document. This "Compendium" includes information on four main aspects: monetary policy committees (or similar decision-making bodies); policy implementation; market operations; and monetary policy communication. The Committee thinks that sharing such information with market participants and the public at large could also enhance market transparency and the understanding of central bank actions. The information will be regularly updated.

The descriptions of monetary policy frameworks presented in the Compendium have been submitted by the respective central banks and either reproduce or summarise information which is already publicly available in their publications or on their websites. The original central bank publications shall remain the ultimate references.

## Australia

<b>1. Monetary policy committee</b>	<b>Reserve Bank of Australia</b>
1.1 Name and legal status	Reserve Bank Board.
1.2 Major mandates (in relation to monetary policy)	Achievement of inflation target.
1.3 Monetary policy target	Yes
1.3.1 Legal status and involvement of government	Agreement between Governor and the Minister of Finance (Treasurer).
1.3.2 Target indicator, timeframe and style	Target range of 2-3% inflation over the medium term in terms of total CPI.
1.3.3 System of evaluation	
1.3.4 Disclosure of performance	Regular discussion in quarterly Statement of Monetary Policy, Governors' semi-annual appearances before the Parliamentary Economics Committee.
1.3.5 Measures in case of failure to meet target	
1.4 Other relevant guidance	
1.5 Size and composition	Nine members: 3 ex officio members (Governor, Deputy Governor & Secretary to the Treasury) and 6 external members.
1.6 Appointment of members, [length and renewability of term]	The Governor and Deputy Governor are appointed for up to 7 years and are eligible for reappointment. The external members are appointed for up to 5 years and are eligible for reappointment.
1.7 Process of decision-making and voting rights	Consensus.
1.8 Frequency and length of meeting	Monthly.
1.9 Pre-scheduling of meetings and its disclosure	Normally meets 11 times each year, on the first Tuesday of each month (no meeting in January). Timing of upcoming meetings listed on website.
<b>2. Policy implementation</b>	<b>Reserve Bank of Australia</b>
2.1 Key policy rate	Target cash rate.
2.2 Operational target	Interbank cash rate.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Loans / deposit; overnight.
2.3.2 Pricing method	Fixed margin above / below target cash rate.
2.3.3 Access limits	Collateral, RBA agreement / Exchange settlement account eligibility.
2.3.4 Corridor width	50 basis points.
2.4 Reserve requirements	No.
2.4.1 Reserve ratios	
2.4.2 Averaging	
2.4.3 Carry-over	
2.4.4 Maintenance period and ending date	
2.4.5 Calculation period and ending date	
2.4.6 Lag before maintenance	
2.4.7 Vault cash	
2.4.8 Remuneration	
2.4.9 Remuneration of excess reserves	
<b>3. Market operations</b>	<b>Reserve Bank of Australia</b>
3.1 Main operations	
3.1.1 Functions	Liquidity injection and withdrawal.

3.1.2 Types of operations	Repo and reverse repo.
3.1.3 Maturity of operations	Typically 1 day to about 6 months.
3.1.4 Frequency of operations	Daily.
3.2 Other discretionary operations	
3.2.1 Functions	Liquidity injection and withdrawal.
3.2.2 Types of operations	Outright transactions, FX swaps.
3.2.3 Maturity of operations	Typically 1 day to 3 months.
3.2.4 Frequency of operations	Several times per month.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	RBA offers an overnight repo facility through which banks can access cash at a penalty rate of 25 basis points over the cash rate. The facility is accessed, on average, around twice a month.
3.3.1.1 Eligible collateral for standing facility	<p>Australian Commonwealth Government Securities.</p> <p>Securities issued by Australian state and territory governments.</p> <p>Selected AAA-rated AUD-denominated securities issued by certain supranational institutions.</p> <p>Selected AAA-rated AUD-denominated securities issued by foreign governments and foreign government agencies.</p> <p>Bills and certificates of deposit issued domestically by any authorised deposit-taking institution (ADI) which holds an Exchange Settlement (ES) account at the Reserve Bank of Australia.</p> <p>AUD-denominated bonds issued by an ADI rated A3 or higher which holds an ES account at the Reserve Bank of Australia.</p> <p>AUD-denominated residential mortgage-backed securities (RMBS) rated AAA. Value is provided for all prime, full-doc, insurable mortgages underlying the security, and for similarly qualified low-doc mortgages up to a maximum of 10 per cent of the underlying mortgages.</p> <p>AUD-denominated asset-backed commercial paper (ABCP) rated P-1 or equivalent. Value is provided for all prime, full-doc, insurable residential mortgages underlying the security, and for similarly qualified low-doc mortgages up to a maximum of 10 per cent of the underlying assets.</p>
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	The RBA has discretion to expand its collateral to any security type lodged in the domestic securities settlement system.
3.3.2 Eligible collateral for open market operations	Same collateral as for standing facility.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	The RBA has discretion to expand its collateral to any security type lodged in the domestic securities settlement system.
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	Discretionary collateral changes can be put in place almost immediately.

4. Monetary policy communication	Reserve Bank of Australia
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	2.30 pm on day of board meeting; central bank website and Reuters.
4.1.2 Policy announcement	Target cash rate.
4.1.3 Explaining the decision	Detailed press release / media statement.
4.1.4 Associated documents	
4.1.5 Discretion left to operational desk	Use of instruments within authorisation, size & timing of operations.
4.2 Publication of minutes	Yes.
4.2.1 Timing and media of announcement	As soon as practical after board meeting (usually two weeks).
4.2.2 Content	Description of economic and financial conditions and the policy consideration.
4.3 Economic/inflation forecasts	Yes.
4.3.1 Legal status and mandate of reporting	
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	Outlook presented in Statement of Monetary Policy.
4.3.3 Position in policy conduct	
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Staff.
4.3.5 Covering indicators	Economic growth, inflation.
4.3.6 Time horizon	Up to two years ahead.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Unchanged policy rate.
4.3.8 Frequency of revision	
4.3.9 Publication and its timing	Quarterly in Statement of Monetary Policy.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Regular speeches by Governors, semi-annual appearances before the Parliamentary Economics Committee.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	Yes.
4.5.1.1 Forecast period	Same day.
4.5.1.2 Timing and media of announcement	Shortly before operations; Reuters, RBA website.
4.5.1.3 Major contents	Forecast for current day only.
4.5.1.4 Information on reserves	
4.5.2 Dissemination of information on operations	
4.5.2.1 Types of operations	Open market.
4.5.2.2 Major contents	Volume and price.
4.5.2.3 Timing and media of dissemination	On Reuters within a few minutes of operations. On website within one hour of operations.
4.5.2.4 Other relevant information on operations	

1. Monetary policy committee	Central Bank of Brazil
1.1 Name and legal status	Monetary Policy Committee (COPOM).
1.2 Major mandates (in relation to monetary policy)	Achievement of inflation targets set by the National Monetary Council (Government).
1.3 Monetary policy target	Yes.
1.3.1 Legal status and involvement of government	Government sets the target.
1.3.2 Target indicator, timeframe and style	Point target of 4.5% with tolerance range of 2 percentage points for total CPI (annual inflation).
1.3.3 System of evaluation	Annual CPI (official index is the Consumer Price Index).
1.3.4 Disclosure of performance	The target and the actual index are public knowledge.
1.3.5 Measures in case of failure to meet target	The Governor of the Central Bank is required to write an open letter to the Minister of Finance explaining the reasons the target was missed, as well as the measures required to bring inflation back to the target, and the time period over which these measures are expected to take effect.
1.4 Other relevant guidance	
1.5 Size and composition	Seven-nine board members and 5 department heads (only board members vote).
1.6 Appointment of members, [length and renewability of term]	Undetermined, since the Monetary Policy Committee is composed by Board members, and their term are undetermined.
1.7 Process of decision-making and voting rights	Voting of the 7-9 board members.
1.8 Frequency and length of meeting	8 per year (more or less each 6 weeks) for 2 days.
1.9 Pre-scheduling of meetings and its disclosure	Pre-determined meeting dates are on the website ( <a href="http://www.bcb.gov.br/?SCHEDULE2007">http://www.bcb.gov.br/?SCHEDULE2007</a> ).
2. Policy implementation	Central Bank of Brazil
2.1 Key policy rate	Selic rate - interest rate on overnight interbank loans collateralized on federal debt instruments.
2.2 Operational target	Selic rate target.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Lending and deposit facilities, 2 days.
2.3.2 Pricing method	Security collateral price accepted by Banco Central do Brasil repurchase agreements.
2.3.3 Access limits	Both facilities are available to eligible counterparties on their own initiative, against the presentation of federal government securities as collateral.
2.3.4 Corridor width	Selic rate (+80 bp, - 80 bp).
2.4 Reserve requirements	Yes. Banks divided into 2 groups: A and B.
2.4.1 Reserve ratios	45% on demand deposits.
2.4.2 Averaging	Yes. Minimum level: 80%.
2.4.3 Carry-over	3% of excess can be offset in the following period.
2.4.4 Maintenance period and ending date	2 weeks, starting on a Wednesday and ending on the second Tuesday. Groups A and B start periods alternately.
2.4.5 Calculation period and ending date	2 weeks, starting on a Monday and ending on the second Friday: Groups A and B start periods alternately.
2.4.6 Lag before maintenance	2 weeks. Overlapping of 3 days of calculation and maintenance.
2.4.7 Vault cash	Up to 40% of reserve requirements can be held as vault cash (of the preceding period).
2.4.8 Remuneration	No.
2.4.9 Remuneration of excess reserves	There is an additional ratio of 8% imposed on demand deposits, which is remunerated by the Selic rate. Maintenance periods start every Monday, relative to the preceding week (the

	calculation period).
<b>3. Market operations</b>	<b>Central Bank of Brazil</b>
3.1 Main operations	
3.1.1 Functions	Adjust market liquidity to maintain the effective overnight interest rate close to the target.
3.1.2 Types of operations	Repurchase agreements, using National Treasury securities as collateral.
3.1.3 Maturities of operations	Shorter-term operations: 1 (more frequent) to 30 working days. Longer-term operations: 5-month and 7-month repos.
3.1.4 Frequency of operations	Shorter-term operations: daily. Longer-term operations: weekly.
3.2 Other discretionary operations	
3.2.1 Functions	Structural operations, managing liquidity for a future period, securities lending.
3.2.2 Types of operations	Outright operations, associated repo operations.
3.2.3 Maturities of operations	Outright operations: non-standardised. Associated repo operations: overnight.
3.2.4 Frequency of operations	Outright operations: non-regular. Associated repo operations: access at the discretion of the eligible counterparties.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	BCB's standing facilities are implemented through repos and reverse repos of two working days maturity. They are conducted at the end of the day, at punitive rates (around 80 bp above or below the Selic rate estimated for the day). The amount of these operations, however, is usually very low (see table 1 below). Discount window: Costless intraday credit (for purpose of payment systems operations); Overnight credit and longer term operations; the only widely used is the intraday credit and its current status is normal; Overnight discount window is rarely used; Longer term discount window operations have never been used since its implementation (2002).
3.3.1.1 List of eligible collateral for standing facility	Standing facilities: the BCB accepts federal debt securities only as collateral. Discount window: For intraday credit and overnight discount window federal debt securities only are allowed. Longer operations can be demanded using any bank assets as collateral.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	Standing facilities: in the short term, the BCB doesn't have discretion to widen the range of securities used for these operations. Discount window: BCB may accept any financial or even real assets as collateral for credit operations on a discretionary basis.
3.3.2 List of eligible collateral for open market operations	In its OMOs, the BCB only accepts federal debt securities as collateral.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	In the short term, the BCB doesn't have discretion to expand collateral types for these operations.
3.3.2.2 Additional information (i.e. delays required if	The price of collaterals used in BCB's OMOs, standing facilities, intraday and overnight discount window is set daily by the BCB,

discretionary collateral changes)	by applying a haircut to market prices. Unless collateral assets are already deposited and registered on a Central Security Depository, longer term discount window operations demand time to be evaluated and priced. Extra time is also necessary to analyze, check the legal status, liquidity and solvency of the demanding institution. Although effective since 2002, operations using collaterals other than federal debt securities have not been done.
<b>4. Monetary policy communication</b>	<b>Central Bank of Brazil</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	On second day of COPOM meeting; press release (after markets are closed).
4.1.2 Policy announcement	Selic rate target.
4.1.3 Explaining the decision	Yes.
4.1.4 Associated documents	Short statement with the decision and the score.
4.1.5 Discretion left to operational desk	
4.2 Publication of minutes	Yes.
4.2.1 Timing and media of announcement	Six working days after the meeting.
4.2.2 Content	Reasoning for decision, data analysis, voting result without identification of the voters.
4.3 Economic/inflation forecasts	The Inflation Forecasts in the Quarterly Report belong to the MPC/Board, rather than the Staff.
4.3.1 Legal status and mandate of reporting	Article 5 from Decree nº 3088, from June 21 1999.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	Inflation Report (published quarterly) discloses inflation and GDP forecast.
4.3.3 Position in policy conduct	Explains the evolution of the economy if everything (interest and exchange rates) remains constant.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Staff.
4.3.5 Covering indicators	
4.3.6 Time horizon	24 months.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Forecast are done based on two scenarios: the baseline scenario relies on the interest rate and the exchange rate constant at the levels prevailing the day before the Copom meeting, and the market scenario, with interest rate and exchange rate paths expected by the market economists (market expectations on these and other variables surveyed regularly by the central bank).
4.3.8 Frequency of revision	Quarterly for the public; every meeting for the Board.
4.3.9 Publication and its timing	Quarterly: March, June, September, December.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Press Conference to present the Inflation report to the journalists by Deputy Governor for Economic Policy; Testimony in the Congress by the Governor (twice a year) are broadcast by Senate TV.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	No.
4.5.1.1 Forecast period	No.
4.5.1.2 Timing and media of announcement	No.

4.5.1.3 Major contents	No.
4.5.1.4 Information on reserves	Publish every day.
4.5.2 Dissemination of information on operations	
4.5.2.1 Types of operations	
4.5.2.2 Major contents	
4.5.2.3 Timing and media of dissemination	
4.5.2.4 Other relevant information on operations	

1. Monetary policy committee	Bank of Canada
1.1 Name and legal status	The Governing Council is responsible for monetary policy. It has been delegated this role by the Governor, who has the responsibility under the Bank of Canada Act.
1.2 Major mandates (in relation to monetary policy)	The primary objective of Canada's monetary policy is to enhance the well-being of Canadians by contributing to sustained economic growth, rising levels of employment and improved living standards. The preamble of the Bank of Canada Act states that the Bank should mitigate, by its influence, fluctuations in the general level of production, trade, prices and employment, so far as may be possible within the scope of monetary action and generally to promote the economic and financial welfare of Canadians.
1.3 Monetary policy target	An inflation targeting framework.
1.3.1 Legal status and involvement of government	The inflation targets are agreed jointly by the Government of Canada and the Bank of Canada for a five-year period.
1.3.2 Target indicator, timeframe and style	A target rate for total CPI of 2% on a 12-month basis, with a 1-3% control range. The current target range extends to 2011.
1.3.3 System of evaluation	In preparation for each 5-year renewal, the Bank undertakes a formal review of Canada's experience with inflation targeting and identifies key issues for discussion. Most recently, an assessment was included in "Renewal of the Inflation-Control Target: Background Information", November 2006.
1.3.4 Disclosure of performance	There are two main monetary policy reports undertaken on a semi-annual basis (Monetary Policy Report) and two updates (Updates) on a semi-annual basis. Thus, a review of inflation trends is undertaken on a quarterly basis.
1.3.5 Measures in case of failure to meet target	When CPI inflation persistently deviates from the target, the Bank will pay special attention in its Monetary Policy Reports or Updates to explaining why inflation deviated to such an extent from the target, what steps (if any) are being taken to ensure that inflation moves back to the target, and when inflation is expected to return to target.
1.4 Other relevant guidance	Although total CPI inflation is targeted, core inflation is used as an indicator of future trends in total CPI.
1.5 Size and composition	Six members. The Governor, Senior Deputy Governor and four Deputy Governors.
1.6 Appointment of members, [length and renew ability of term]	The Governor and Senior Deputy Governor are appointed by the Board of Directors, with the approval of the federal cabinet, for 7-year terms. The Deputy Governors are appointed by the Board of Directors and are permanent Bank staff.
1.7 Process of decision-making and voting rights	The Governing Council reaches all decisions on a consensus basis. There is no voting.
1.8 Frequency and length of meeting	There are 8 fixed announcement dates set for each year. On an exceptional basis, the policy rate can be adjusted at any time. There are a number of briefings and discussions of the Governing Council before each decision.
1.9 Pre-scheduling of meetings and its disclosure	The 8 scheduled days for policy announcements are on the website. They are announced in the summer for the following calendar year. ( <a href="http://www.bankofcanada.ca/en/press/2007/pr07-15.html">http://www.bankofcanada.ca/en/press/2007/pr07-15.html</a> ).
2. Policy implementation	Bank of Canada
2.1 Key policy rate	Overnight rate target (interest rate on collateralized market-based transactions).
2.2 Operational target	Overnight rate on collateralized transactions.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Deposit and overdraft facilities offered to participants in the Large Value

	Payments System (LVTS). LVTS is Canada's RTGS-equivalent payments system.
2.3.2 Pricing method	The Bank lends to LVTS participants at the overnight rate target +25 bp; the Bank accepts deposits from LVTS participants at the overnight rate target -25 bp.
2.3.3 Access limits	Collateralized (no limits).
2.3.4 Corridor width	50 basis points.
2.4 Reserve requirements	No. But daily balance must be at least zero.
2.4.1 Reserve ratios	
2.4.2 Averaging	
2.4.3 Carry-over	
2.4.3 Maintenance period and ending date	(Daily).
2.4.4 Calculation period and ending date	
2.4.5 Lag before maintenance	
2.4.6 Vault cash	
2.4.7 Remuneration	
2.4.8 Remuneration of excess reserves	(No reserve requirements, but any balances of LVTS participants are compensated at the overnight rate target less 25 basis points.)
<b>3. Market operations</b>	<b>Bank of Canada</b>
3.1 Main operations	Two main types of operational activities: (1) Open market operations (repos/reverse repos) with primary dealers in the overnight market for collateralized funds; (2) End of day settlement balances of the Bank in the Large Value Payments System (LVTS).
3.1.1 Functions	Typically to achieve overnight rate close to overnight rate target and, when required, to support the effective functioning of financial markets.
3.1.2 Types of operations	(1) Adding intra-day liquidity through Special Purchase and Resale Agreements (repo-like transactions) at the overnight rate target or draining liquidity through Sale and Repurchase Agreements (SRA) at the overnight rate target. (2) Management of settlement balances, ie, setting the amount of balances supplied to the direct clearers in LVTS.
3.1.3 Maturities of operations	One business day.
3.1.4 Frequency of operations	Open market operations are occasional. Management of settlement balances occurs daily through deposits/maturities of government balances using an auction process.
3.2 Other discretionary operations	
3.2.1 Functions	From time to time throughout the year the Bank temporarily adds assets to its balance sheet through term purchase and resale agreements (term PRA) to offset seasonal increases in the demand for bank notes. These transactions have no monetary policy significance.
3.2.2.Types of operations	Term PRA undertaken to temporarily add assets to the balance sheet are normally auctioned against Government of Canada securities. In December 2007 the Bank temporarily expanded the list of securities eligible for term PRA over the calendar year-end 2007 to include the following: <ul style="list-style-type: none"> <li>- Securities issued by the Government of Canada Securities guaranteed by the Government of Canada (this category includes Canada Mortgage Bonds and NHA mortgage-backed securities with a minimum pool size of \$75 million);</li> <li>- Securities issued or guaranteed by a provincial government Bankers' acceptances and bearer deposit notes, having a remaining term to maturity not exceeding one hundred and eighty days.</li> </ul>

3.2.3 Maturities of operations	
3.2.4 Frequency of operations	
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	<p>The standing liquidity facility can be accessed by any participant in the large value payments system (LVTS) that is in a deficit position in LVTS at the end of the day.</p> <p>The Bank normally targets positive settlement balances in the system of \$25 million in order to facilitate its smooth functioning and reduce the need to access the standing facilities. On an exceptional basis, the level of settlement balances may be adjusted to mitigate pressure on overnight rate.</p>
3.3.1.1 List of eligible collateral for standing facility	<p>Securities issued by the Government of Canada; Government of Canada stripped coupons and residuals; Securities guaranteed by the Government of Canada (this category includes Canada Mortgage Bonds and NHA mortgage-backed securities with a minimum pool size of \$75 million); Securities issued or guaranteed by a provincial government; Bankers' acceptances and promissory notes, including those of foreign issuers (maximum term 364 days) with a minimum issuer credit rating of R1 (low) by the Dominion Bond Rating Service (DBRS) or A-1 (mid) by Standard and Poor's (S&amp;P) or P1 by Moody's Investors Service (Moody's); Commercial paper and short-term municipal paper, including those of foreign issuers (maximum term 364 days) with a minimum issuer credit rating of R1 (low) by DBRS or A-1 (mid) by S&amp;P or P1 by Moody's; Corporate, municipal and foreign issuer bonds with a minimum long-term issuer credit rating of A (low) by DBRS or A- by S&amp;P or A3 by Moody's; Special Deposit Accounts held at the Bank of Canada. (It should be noted that the Bank does not accept any asset-backed securities, other than the NHA mortgage-backed securities guaranteed by the Government of Canada). Some conditions apply, see: <a href="http://www.bankofcanada.ca/en/financial/securities.pdf">http://www.bankofcanada.ca/en/financial/securities.pdf</a></p>
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	<p>The Bank may take additional forms of collateral, as long as consistent with the Bank of Canada Act (<a href="http://www.bankofcanada.ca/en/about/act_loi_boc_bdc.pdf">http://www.bankofcanada.ca/en/about/act_loi_boc_bdc.pdf</a>): Any additional forms of collateral depends on the ability of the Bank to obtain an appropriate market price and haircut and to be satisfied that the security is fairly liquid. The Bank may make loans or advances for periods not exceeding six months to members of the Canadian Payments Association on taking security in any property that the institution to which the loan or advance is made is authorized to hold. The Bank may (a) acquire from any bank or authorized foreign bank that is not subject to the restrictions and requirements referred to in subsection 524(2) of the <i>Bank Act</i> and hold any property held by the bank or authorized foreign bank as security under Part VIII of the <i>Bank Act</i>.</p>
3.3.2 List of eligible collateral for open market operations	<p>Government of Canada securities are the standard securities eligible for open market buyback operations (injecting liquidity through Special Purchase and Resale Agreements or withdrawing liquidity through Sale and Repurchase Agreements). Open market operations are typically not conducted on a daily basis. However, from time to time it is necessary for the Bank to enter into</p>

	open market buyback operations for one business day to reinforce the target for the overnight rate.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	<p>The Bank may take additional securities eligible for buyback operations insofar as it is consistent with the Bank of Canada Act (<a href="http://www.bankofcanada.ca/en/about/act_loi_boc_bdc.pdf">http://www.bankofcanada.ca/en/about/act_loi_boc_bdc.pdf</a>):</p> <p>The Bank may for the purpose of its open-market operations, buy and sell in the open market from or to any person, either in or outside Canada, securities, bills of exchange and promissory notes of the kinds and maturities and subject to the limitations, if any, referred to in paragraphs (c) to (e) and (g) with or without the endorsement of a bank;</p> <p>(c) buy and sell securities issued or guaranteed by Canada or any province;</p> <p>(d) buy and sell securities issued or guaranteed by the Government of the United States of America or Japan or the government of a country in the European Union;</p> <p>(g) buy and sell bills of exchange and promissory notes endorsed, accepted or issued by a bank or authorized foreign bank that is not subject to the restrictions and requirements referred to in subsection 524(2) of the <i>Bank Act</i> and having a maturity not exceeding one hundred and eighty days, excluding days of grace, from the date of acquisition by the Bank;</p> <p>(g.1) if the Governor is of the opinion that there is a severe or unusual stress on a financial market or financial system, buy and sell any other securities, treasury bills, obligations, bills of exchange or promissory notes, to the extent determined necessary by the Governor for the purpose of promoting the stability of the Canadian financial system.</p>
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	Taking delivery of securities that do not reside in the domestic clearing and settlement system may take some additional time to put the arrangements in place.
<b>4. Monetary policy communication</b>	<b>Bank of Canada</b>
4.1 Announcement of policy decision	Press release for each fixed announcement date.
4.1.1 Timing and media of announcement	9:00 am on the day of the announcement.
4.1.2 Policy announcement	Target for the overnight rate.
4.1.3 Explaining the decision	Yes – usually one page statement.
4.1.4 Associated documents	Quarterly monetary policy reports – 2 main semi-annual reports and 2 updates.
4.1.5 Discretion left to operational desk	[When the overnight rate differs significantly from target, SPRA/SRA is undertaken under a well-defined policy and the amount of settlement balances in the LVTS system may be adjusted.]
4.2 Publication of minutes	No.
4.2.1 Timing and media of announcement	
4.2.2 Content	
4.3 Economic/inflation forecasts	Yes.
4.3.1 Legal status and mandate of reporting	None.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	The economic projection is contained in the quarterly Monetary Policy Reports and Updates. A Business Outlook Survey based on a business questionnaire is released quarterly prior to the fixed announcement dates associated with Monetary Policy Reports and Updates. The Bank's web page contains key background statistics pertaining to monetary policy.

4.3.3 Position in policy conduct	The Monetary Policy Reports and Updates are the main vehicle through which monetary policy is communicated to Canadians.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	The Monetary Policy Reports and Updates are reports of the Governing Council. Staff provide background briefings and analysis pertaining to Monetary Policy that are not made public.
4.3.5 Covering indicators	Economic growth for major economies. Economic growth and inflation for Canada.
4.3.6 Time horizon	2-3 years.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	No explicit interest rate forecast is given. Qualitative or forward-looking statements for the policy interest rate are usually given.
4.3.8 Frequency of revision	Quarterly.
4.3.9 Publication and its timing	Quarterly.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	The Governor and Senior Deputy Governor give a press conference after every Monetary Policy Report or Update. The Governor and other Governing Council members give regular speeches, many of which contain an update on the economic conjuncture and monetary policy setting. The Governor and Senior Deputy Governor meet at least semi-annually with Parliamentary and Senate Committees. Interviews are only rarely given, but there are typically press conferences after each speech by the Governor.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	Target settlement balances in LVTS.
4.5.1.1 Forecast period	For next day.
4.5.1.2 Timing and media of announcement	Web site at 4:20pm.
4.5.1.3 Major contents	
4.5.1.4 Information on reserves	
4.5.2 Dissemination of information on operations	Yes.
4.5.2.1 Types of operations	(1) open market purchase / repurchase operations (Special Purchase and Resale Agreements or Sale and Repurchase Agreements). (2) level of settlement balances in LVTS.
4.5.2.2 Major contents	(1) For SPRA / SRA: amount, in millions of dollars, of collateral par value. (2) For settlement balances: amount of end of day settlement balances targeted and actual, in millions of dollars.
4.5.2.3 Timing and media of dissemination	(1) For SPRA / SRA: - on the Bank's web site ( <a href="http://www.bankofcanada.ca/fmd/bankrate.html">http://www.bankofcanada.ca/fmd/bankrate.html</a> ) at 12:15 p.m. when open market purchase / repurchase operations are conducted at the regular intervention time (11:45 a.m.), or as soon as available otherwise - in Weekly Financial Statistics ( <a href="http://www.bankofcanada.ca/pdf/wfs.pdf">http://www.bankofcanada.ca/pdf/wfs.pdf</a> ) and in monthly Banking and Financial Statistics (paper publication): number of days transacted and total amounts. (2) For settlement balances: on the Bank's web site ( <a href="http://www.bankofcanada.ca/en/rates/interest-look.html">http://www.bankofcanada.ca/en/rates/interest-look.html</a> ) at 4:20 p.m., after the publication of the results for the PM auction of Receiver General balances.
4.5.2.4 Other relevant information on operations	Other special operations (not monetary policy related): (1) Securities-lending - on the Bank's web site: ( <a href="http://www.bankofcanada.ca/fmd/bankrate.html">http://www.bankofcanada.ca/fmd/bankrate.html</a> ), amounts of Government of Canada Treasury bills or bonds, in million dollars of par value loaned (secondary source of Government securities when

---

	<p>they are trading or are unavailable in the repo market below a certain threshold) - in Weekly Financial Statistics (<a href="http://www.bankofcanada.ca/pdf/wfs.pdf">http://www.bankofcanada.ca/pdf/wfs.pdf</a>) and in monthly Banking and Financial Statistics (paper publication): number of days transacted and total amount.</p> <p>(2) Term repos: - on the Bank's web site: (<a href="http://www.bankofcanada.ca/fmd/bankrate.html">http://www.bankofcanada.ca/fmd/bankrate.html</a>), amounts of Government of Canada Treasury bills or bonds purchased via repurchase operations (temporary acquisition of assets for balance sheet purposes) in Weekly Financial Statistics (<a href="http://www.bankofcanada.ca/pdf/wfs.pdf">http://www.bankofcanada.ca/pdf/wfs.pdf</a>) and in monthly Banking and Financial Statistics (paper publication): number of days transacted and total amount.</p>
--	---

---

1. Monetary policy committee	European System of Central Banks
1.1 Name and legal status	The body collectively responsible for the conduct of monetary policy in the euro area is the Governing Council of the European Central Bank (ECB), according to Art. 12.1 of the Statute of the European System of Central Banks (ESCB) and of the ECB.
1.2 Major mandates (in relation to monetary policy)	To maintain price stability in the euro area (Art. 105.1 of the Treaty).
1.3 Monetary policy target	Not applicable.
1.3.1 Legal status and involvement of government	None.
1.3.2 Target indicator, timeframe and style	The Governing Council of the ECB in 1998 adopted a quantitative definition of price stability as an annual increase in the Harmonised Index of Consumer Prices (HICP) for the euro area of below 2%. More specifically, the Governing Council also agreed that in the pursuit of price stability it aims at inflation rates of below, but close to, 2% over the medium term, in terms of the HICP.
1.3.3 System of evaluation	Overall assessment of the economic situation and the risks to price stability based on a comprehensive economic and monetary analysis in the context of the ECB's (two-pillar) monetary policy strategy.
1.3.4 Disclosure of performance	Through regular and timely communication to the markets, media and general public.
1.3.5 Measures in case of failure to meet target	Not applicable.
1.4 Other relevant guidance	None.
1.5 Size and composition	Six members of the Executive Board of the ECB and 13 (as of 1 January 2008: 15) Governors from the national central banks (NCBs).
1.6 Appointment of members, [length and renewability of term]	Eight years and not renewable for the Members of the Executive Board of the ECB, according to Art. 11.2 of the Statute of the ESCB and of the ECB; not less than five years for NCB Governors, according to 14.2 of the Statute (otherwise according to the provisions laid down in the individual statutes of NCBs).
1.7 Process of decision-making and voting rights	Voting principle but monetary policy decisions are taken by consensus, following an intense discussion about the external environment and on the analysis of economic, monetary and financial developments in the euro area.
1.8 Frequency and length of meeting	Governing Council meetings have a bi-monthly frequency, with the first meeting of each month being (almost exclusively) devoted to an assessment of the overall economic and monetary situation and the risks to price stability, followed by an evaluation of the monetary policy stance and interest rate decisions. The second meeting does typically not discuss issues relating to the current monetary policy conduct. As a rule, each meeting is scheduled for one day.
1.9 Pre-scheduling of meetings and its disclosure	Meetings are pre-scheduled and announced on the website well in advance. ( <a href="http://www.ecb.int/events/calendar/mgcb/html/index.en.html">http://www.ecb.int/events/calendar/mgcb/html/index.en.html</a> )
2. Policy implementation	European System of Central Banks
2.1 Key policy rate	Minimum bid rate in main refinancing operation (MRO).
2.2 Operational target	No formal operating target.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Loan / deposit.
2.3.2 Pricing method	Posted.
2.3.3 Access limits	Collateral / no limit.
2.3.4 Corridor width	200 basis points.

2.4 Reserve requirements	Yes.
2.4.1 Reserve ratios	Domestic currency / foreign currency: 2%.
2.4.2 Averaging	Yes.
2.4.3 Carry-over	No.
2.4.3 Maintenance period and ending date	4 – 5 weeks (exceptionally longer than 5 weeks). Variable.
2.4.4 Calculation period and ending date*	2.5 – 3.5 weeks. Variable.
2.4.5 Lag before maintenance**	5 - 7 weeks.
2.4.6 Vault cash	No.
2.4.7 Remuneration	Yes, fully remunerated at main operation's rate.
2.4.8 Remuneration of excess reserves	No.

\* Period that passes between the reporting by credit institutions of their reserve base statistics and the final calculation and freezing of the corresponding reserve requirement (i.e. first day of a maintenance period).

\*\* Period that passes between the start of a maintenance period and the reference date of the reserve base data underlying the calculation of the reserve requirement for that particular maintenance period.

3. Market operations	European System of Central Banks
3.1 Main operations	
3.1.1 Functions	Basic refinancing.
3.1.2 Types of operations	Repurchase operation (Repo) or collateralised credit.
3.1.3 Maturities of operations	1 week / 3 months.
3.1.4 Frequency of operations	Weekly / monthly.
3.2 Other discretionary operations	
3.2.1 Functions	Fine-tuning.
3.2.2 Types of operations	Repo -quick tenders.
3.2.3 Maturities of operations	Varies.
3.2.4 Frequency of operations	As needed.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	Largest recourse to marginal lending facility for EUR 3.9 billion on 26 September 2007.
3.3.1.1 List of eligible collateral for standing facility	No distinction is made between collateral eligible for Marginal Lending Facility/ Open Market Operations/ Intraday credit. Two categories: 1. Marketable assets, representing 9.6 trillion euros (not all available on the banks balance sheets). Full list available at: <a href="https://mfi-assets.ecb.int/dla_EA.htm">https://mfi-assets.ecb.int/dla_EA.htm</a> . 2. Non marketable assets. Eligibility tables for both categories are attached below.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	The Governing Council has discretion to expand the list of eligible assets; only limited by art. 18.1 of ESCB Statute requesting “adequate collateral”; “adequate” depends on the context (emergency liquidity assistance is done according to national rules). Not in the very short-term. Eligible collateral is already large and diversified.
3.3.2 List of eligible collateral for open market operations	See single list above.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central	Same degree of discretion applies as described above (see 3.3.1.2).

bank can take for OMOs on a discretionary basis	
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	The Eurosystem accepts currently already a very broad range of debt instruments, issued both by public and private issuers, including Asset Backed Securities (ABS) based on a true-sale and bankruptcy remote. Decision/reaction time: dependent on time to organize an ECB Governing Council decision, hence very rapid. Lead times for implementation would be higher for foreign exchange denominated assets, and, in particular, for other types of ABS, due to valuation difficulties.
<b>4. Monetary policy communication</b>	<b>European System of Central Banks</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	Press release immediately after all monetary policy meetings.
4.1.2 Policy announcement	Decision on minimum bid rate on the main refinancing operations and the interest rates on the marginal lending facility and the deposit facility.
4.1.3 Explaining the decision	Not in the press release which is kept factual; but 45 minutes after the policy announcement in the press release a press conference takes place, including the Introductory Statement by the ECB President (explaining the Governing Council's overall assessment underlying its policy decision in real-time and in greater detail) and a Q&A session.
4.1.4 Associated documents	Monthly Bulletin (typically provides in greater detail the economic and monetary analyses underlying the Governing Council's overall assessment of the economic and monetary situation and the risks to price stability, as well as its policy decisions).
4.1.5 Discretion left to operational desk	No.
4.2 Publication of minutes	No. The information conveyed by the ECB President in its Introductory Statement is, in essence, similar to what other central banks publish in the form of "summary minutes", as it properly reflects the collective sentiment of the Governing Council.
4.2.1 Timing and media of announcement	Not applicable.
4.2.2 Content	
4.3 Economic/inflation forecasts	Yes ( <a href="http://www.ecb.int/pub/pdf/other/staffprojectionsguideen.pdf">http://www.ecb.int/pub/pdf/other/staffprojectionsguideen.pdf</a> ).
4.3.1 Legal status and mandate of reporting	None.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	The Eurosystem/ECB does not provide an Inflation Report. Eurosystem/ECB staff prepares macroeconomic projections for economic growth, inflation and other relevant macroeconomic variables in the euro area. Eurosystem/ECB staff projections are made publicly available.
4.3.3 Position in policy conduct	The Eurosystem/ECB staff projections play an important role in the policymaking process and provide an organising framework for the ECB's economic analysis. They are a key element in the assessment of the economic prospects and of the short to medium-term risks to price stability.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	The ownership of the macroeconomic projections is exclusively with ECB/Eurosystem staff. The Governing Council does not endorse them.
4.3.5 Covering indicators	Real GDP growth, HICP inflation and other relevant macroeconomic variables in the euro area.
4.3.6 Time horizon	Two-three years ahead.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate)	The ECB does not publish its own interest rate path. The Eurosystem/ECB staff projections are based on the technical assumption that short-term market interest rates move in line with market expectations.

according to market pricing, future rates estimated by the central bank?)	With regards to short-term interest rates as measured by the three-month EURIBOR, market expectations are measured by forward rates, reflecting a snapshot of the yield curve at the cut-off date.
4.3.8 Frequency of revision	
4.3.9 Publication and its timing	Eurosystem/ECB staff projections are published four times a year in March and September (ECB staff projections) and June and December (Eurosystem staff projections) in the corresponding issue of the ECB's Monthly Bulletin. The main results from the staff projections are made available within few hours after the announcement of the policy decision, following the press conference.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	The results of the staff projections are also presented by the ECB President in its Introductory Statement.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	Yes.
4.5.1.1 Forecast period	1 week.
4.5.1.2 Timing and media of announcement	Together with announcement and allotment of weekly main refinancing operations and (possibly) fine-tuning operations; Reuters, Bloomberg, ECB website.
4.5.1.3 Major contents	Forecasts for daily averages are published.
4.5.1.4 Information on reserves	Reserve requirements and current account holdings for the current maintenance period published on Reuters, Bloomberg, ECB website.
4.5.2 Dissemination of information on operations	
4.5.2.1 Types of operations	Open market.
4.5.2.2 Major contents	Main refinancing operations, longer-term refinancing operations, fine-tuning reverse transactions.
4.5.2.3 Timing and media of dissemination	When allotment results are published (eg, between 11:15 and 11:20 CET for main refinancing operations). Aggregated amount of all outstanding operations: Daily at 9:15am.
4.5.2.4 Other relevant information on operations	

<b>Eligibility criteria</b>		<b>Marketable assets</b>
Type of asset	ECB debt certificates Other marketable debt instruments: eg Central government debt instruments Debt instruments issued by central banks Local and regional government debt instruments Supranational debt instruments Covered bank bonds Credit institutions debt instruments Debt instruments issued by corporate and other issuers Asset-backed securities	
Credit standards	The asset must meet high credit standards. The high credit standards are assessed using Eurosystem credit assessment framework (ECAAF) rules for marketable assets.	
Place of issue	European Economic Area (EEA) i.e. European Union, Norway, Iceland and Liechtenstein	
Settlement / handling procedures	Place of settlement: euro area Instruments must be centrally deposited in book-entry form with central banks or a Securities Settlement Systems (SSS) fulfilling the ECB's minimum standards.	
Type of issuer / debtor / guarantors	Central banks Public sector Private sector International and supranational institutions	
Place of establishment of the issuer / guarantor	Issuer: EEA or non-EEA G10 countries Guarantor: EEA	
Acceptable markets	Regulated markets Non-regulated markets accepted by the ECB	
Acceptable markets	Regulated markets Non-regulated markets accepted by the ECB	
Currency	Euro	
Cross-border use	Yes	
<b>Eligibility criteria</b>		<b>Non-marketable assets</b>
Type of asset	Credit claims	Retail Mortgage-Backed Debt instruments (RMBDs)
Credit standards	The debtor / guarantor must meet high credit standards. The creditworthiness is assessed using ECAAF rules for credit claims.	The asset must meet high credit standards. The high credit standards are assessed using ECAAF rules for RMBDs.
Handling procedures	Eurosystem procedures	Eurosystem procedures
Type of debtor / guarantors	Public sector Non-financial corporations International and supranational institutions	Credit institutions that are eligible counterparties
Place of establishment of the debtor or guarantor	Euro area	Euro area
Currency	Euro	Euro
Minimum size	Minimum size threshold at the time of submission of the credit claim.	Not applicable

	<p>Between 1 January 2007 and 31 December 2011:</p> <ul style="list-style-type: none"> <li>- for domestic use: choice of the NCB;</li> <li>- for cross-border use: common threshold of € 500,000.</li> </ul> <p>As from 1 January 2012:</p> <ul style="list-style-type: none"> <li>- common minimum threshold of € 500,000 throughout the euro area.</li> </ul>	
Governing laws related to credit claims	<p>Governing law for credit claim agreement and mobilisation: law of a Member State of the euro area.</p> <p>The total number of different laws applicable to</p> <ul style="list-style-type: none"> <li>(i) the counterparty</li> <li>(ii) the creditor,</li> <li>(iii) the debtor,</li> <li>(iv) the guarantor (if relevant),</li> <li>(v) the credit claim agreement and</li> <li>(vi) the mobilisation agreement</li> </ul> <p>shall not exceed two.</p>	Not applicable
Cross-border use	Yes	Yes

1. Monetary policy committee	Hong Kong Monetary Authority
1.1 Name and legal status	Currency Board Sub-committee (CBC) of Exchange Fund Advisory Committee (EFAC); EFAC is established under Section 3(1) of the Exchange Fund Ordinance, which requires the Financial Secretary to consult EFAC in his exercise of control of the Exchange Fund.
1.2 Major mandates (in relation to monetary policy)	To ensure that the operation of the Currency Board arrangements is in accordance with the policies determined by the Financial Secretary in consultation with EFAC.
1.3 Monetary policy target	Yes.
1.3.1. Legal status and involvement of government	According to the “Exchange of Letters between the Financial Secretary and the Monetary Authority” dated 25 June 2003, the Financial Secretary is responsible for determining the monetary policy objective and the structure of the monetary system of Hong Kong, and the Monetary Authority is responsible for achieving the monetary policy objective, including determining the strategy, instrument and operational means for doing so, and for maintaining the stability and integrity of the monetary system of Hong Kong.
1.3.2 Target indicator, timeframe and style	A target of HKD 7.8 = USD 1.
1.3.3 System of evaluation	Market exchange rate of HKD/USD.
1.3.4 Disclosure of performance	Exchange rate is publicly available information.
1.3.5 Measures in case of failure to meet target	Not applicable.
1.4 Other relevant guidance	Exchange Fund Ordinance.
1.5 Size and composition	7 CBC members.
1.6 Appointment of members, [length and renewability of term]	The Monetary Authority is the chairman of CBC. Other members are appointed by the Financial Secretary. No fixed-appointment term for CBC members.
1.7 Process of decision-making and voting rights	Consensus.
1.8 Frequency and length of meeting	Four times a year.
1.9 Pre-scheduling of meetings and its disclosure	Meetings are pre-scheduled but the schedule is not disclosed to the public.
2. Policy implementation	Hong Kong Monetary Authority
2.1 Key policy rate	HKD 7.8 = USD 1.
2.2 Operational target	Spot exchange rate.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Repo; overnight.
2.3.2 Pricing method	Discount rate is set at the Base Rate for the first 50% of Exchange Fund paper holding, and at the higher of the Base Rate plus 5% or the overnight HIBOR for the day for the next 50%. The Base Rate is set at the higher of 150 basis points above the prevailing US Fed funds target rate or the average of the five-day moving averages of the overnight and one-month HIBORs.
2.3.3 Access limits	Collateral (Exchange Fund paper).
2.3.4 Corridor width	Not applicable.
2.4 Reserve requirements	No.
2.4.1 Reserve ratios	Not applicable.
2.4.2 Averaging	Not applicable.
2.4.3 Carry-over	Not applicable.
2.4.3 Maintenance period and ending date	Not applicable.
2.4.4 Calculation period	Not applicable.

and ending date	
2.4.5 Lag before maintenance	Not applicable.
2.4.6 Vault cash	Not applicable.
2.4.7 Remuneration	Not applicable.
2.4.8 Remuneration of excess reserves	Not applicable.
<b>3. Market operations</b>	<b>Hong Kong Monetary Authority</b>
3.1 Main operations	Two-way Convertibility Undertakings (CU).
3.1.1 Functions	To maintain currency stability, within the framework of the Linked Exchange Rate system.
3.1.2 Types of operations	Buy USD at HKD 7.75 under the strong-side CU and sell USD at HKD 7.85 at the weak-side CU (the strong-side CU was introduced on 18 May 2005).
3.1.3 Maturities of operations	Usually spot transaction.
3.1.4 Frequency of operations	Irregular, subject to market conditions.
3.2 Other discretionary operations	Market operations within the Convertibility Zone between 7.75 and 7.85 subject to Currency Board rules (introduced on 18 May 2005).
3.2.1 Functions	To promote the smooth functioning of the money and foreign exchange markets.
3.2.2 Types of operations	Buy / sell USD for HKD at prevailing market rate.
3.2.3 Maturities of operations	Usually spot transaction.
3.2.4 Frequency of operations	Irregular, subject to market conditions.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	Use of Discount Window is at a normal level.
3.3.1.1 List of eligible collateral for standing facility	All Exchange Fund Bills and Notes.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	The Monetary Authority may determine the strategy, instrument and operation means to achieve the monetary policy objective. Under the currency board arrangements, in ensuring the monetary base being fully backed by US dollar reserves, only Exchange Fund bills and notes are accepted for Discount Window given the paper already fully backed by US dollars.
3.3.2 List of eligible collateral for open market operations	Not applicable as HKMA does not conduct open market operations in the form of repo.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	Not applicable.
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	Not applicable.
<b>4. Monetary policy communication</b>	<b>Hong Kong Monetary Authority</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	Press release and HKMA website.
4.1.2 Policy announcement	Base Rate.
4.1.3 Explaining the decision	The adjustment of Base Rate is “automatic” basing on a pre-specified formula

	involving the US Fed funds target rate.
4.1.4 Associated documents	Not applicable.
4.1.5 Discretion left to operational desk	Not applicable.
4.2 Publication of minutes	Yes.
4.2.1 Timing and media of announcement	Records of the Currency Board Sub-committee's meetings are published regularly.
4.2.2 Content	Summary of discussion.
4.3 Economic/inflation forecasts	
4.3.1 Legal status and mandate of reporting	No legal requirement.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	HKMA does not publish economic and inflation forecasts.
4.3.3 Position in policy conduct	Not applicable.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Not applicable.
4.3.5 Covering indicators	Not applicable.
4.3.6 Time horizon	Not applicable.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Not applicable.
4.3.8 Frequency of revision	Not applicable.
4.3.9 Publication and its timing	Not applicable.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Briefings to the Legislative Council Panel on Financial Affairs, Viewpoint article (weekly column on HKMA website), regular publications (annual report and quarterly bulletin), speeches, and interviews etc.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	Yes.
4.5.1.1 Forecast period	Four-day ahead day-end forecasts.
4.5.1.2 Timing and media of announcement	Real time on Reuters and Bloomberg and daily release on website.
4.5.1.3 Major contents	Forecast change in the Aggregate Balance.
4.5.1.4 Information on reserves	Not applicable.
4.5.2 Dissemination of information on operations	
4.5.2.1 Types of operations	Fx transaction.
4.5.2.2 Major contents	Amount of HKD bought / sold.
4.5.2.3 Timing and media of dissemination	Real time on Reuters and Bloomberg and daily release on website.
4.5.2.4 Other relevant information on operations	Not applicable.

1. Monetary policy committee	Reserve Bank of India
1.1 Name and legal status	No formal Monetary Policy Committee. <sup>1</sup> Overall decision making body: Central Board of Directors. Governor exercises all powers concurrently with the Board.
1.2 Major mandates (in relation to monetary policy)	Maintaining price stability, financial stability and ensuring appropriate flow of credit to productive sectors. RBI Act mandates “to regulate the issue of bank notes and keeping of reserves with a view to securing monetary stability in India and generally to operate the currency and credit system of the country to its advantage.”
1.3 Monetary policy target	No formal target.
1.3.1 Legal status and involvement of government	No.
1.3.2 Target indicator, timeframe and style	Multiple Indicator approach; interest rates/rates of return in different markets, data on currency, credit, fiscal position, trade, capital flows, inflation rate, exchange rate, refinancing and transactions in foreign exchange juxtaposed with output data.
1.3.3 System of evaluation	
1.3.4 Disclosure of performance	
1.3.5 Measures in case of failure to meet target	
1.4 Other relevant guidance	
1.5 Size and composition	
1.6 Appointment of members, [length and renewability of term]	
1.7 Process of decision-making and voting rights	
1.8 Frequency and length of meeting	Central Board of Directors meets 7 times a year. The Committee of the Central Board meets weekly.
1.9 Pre-scheduling of meetings and its disclosure	
2. Policy implementation	Reserve Bank of India
2.1 Key policy rate	Repo / reverse repo rate. In addition, Bank Rate used as a medium term signal.
2.2 Operational target	No formal operating target; reducing volatility in overnight rate is the objective.
2.3 Standing facility(-ies)	Yes. Lending facility: Export credit refinance (ECR) to banks; liquidity support to Non-bank Primary Dealers (NPD).
2.3.1 Form and maturity	Lending; for ECR up to 180 days; for NPDs up to 90 days.
2.3.2 Pricing method	Fixed rate.
2.3.3 Access limits	Collateral, banks and NPDs; limit for ECR is 15 per cent of the outstanding export credit at the end of the second preceding fortnight.
2.3.4 Corridor width	Not applicable.
2.4 Reserve requirements	Yes.
2.4.1 Reserve ratios	Domestic currency: 7%.
2.4.2 Averaging	Yes.
2.4.3 Carry-over	No.

<sup>1</sup>A Technical Advisory Committee on Monetary Policy advises on the stance of monetary policy and provides guidance to the policy making though the responsibility, accountability and time paths for decision making are not formally constrained by its meetings.

2.4.4 Maintenance period and ending date	2 weeks. Friday.
2.4.5 Calculation period and ending date	2 weeks. Friday.
2.4.6 Lag before maintenance	2 weeks.
2.4.7 Vault cash	No.
2.4.8 Remuneration	No.
2.4.9 Remuneration of excess reserves	No.
<b>3. Market operations</b>	<b>Reserve Bank of India</b>
3.1 Main operations	Liquidity Adjustment Facility (LAF) and outright sale/purchase.
3.1.1 Functions	Liquidity management.
3.1.2 Types of operations	LAF (repo, reverse repo) and outright sale/purchase.
3.1.3 Maturities of operations	1 day for LAF.
3.1.4 Frequency of operations	Once a day for LAF.
3.2 Other discretionary operations	Yes.
3.2.1 Functions	Sterilisation.
3.2.2 Types of operations	Outright transactions - in Market Stabilisation Scheme.
3.2.3 Maturities of operations	91 days/182 days/364 days Treasury bills and dated government securities.
3.2.4 Frequency of operations	Need based with weekly announcements of issuance.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	Currently scheduled commercial banks can avail of standing facility from the Reserve Bank of India in the form of export credit refinance which is fixed at 15 per cent of the eligible export credit outstanding. Stand-alone Primary Dealers can avail of standing facility in the form of liquidity support. The rate of interest for both facilities is currently 7.75 per cent per annum.
3.3.1.1 List of eligible collateral for standing facility	For the export credit refinance, bills of exchange against eligible outstanding export credit are eligible collateral, while for liquidity support to primary dealers, central government securities are eligible collateral.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	By law the central bank can purchase, sell and rediscount bills of exchange and promissory notes drawn on and payable in India and arising out of bona fide commercial or trade transactions. Options exist under the details of this broad direction to make additional collateral eligible if the central bank so desires.
3.3.2 List of eligible collateral for open market operations	The Reserve Bank of India conducts open market operations through liquidity injecting/absorbing repo/reverse repo operations as well as through outright sale/purchase operations. The rate of interest per annum for repo and reverse repo operations is currently 7.75 per cent and 6.0 per cent, respectively. Central and State Government securities are eligible as collateral for liquidity injecting repos, while only central government securities are used for outright sale/purchase open market operations.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	By law, the central bank can under normal circumstances undertake purchase and sale of securities of the Central Government or State Governments. It also has the option of widening the collateral to securities of local authorities subject to notification by the Central Government on the recommendation of the central bank.
3.3.2.2 Additional information (i.e. delays required if	The law also empowers the central bank to accept any collateral in exceptional circumstances as part of its lender of last resort function.

discretionary collateral changes)	
<b>4. Monetary policy communication</b>	<b>Reserve Bank of India</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	Within minutes of the implementation of the decision; press release and central bank website.
4.1.2 Policy announcement	Monetary policy statement.
4.1.3 Explaining the decision	Yes.
4.1.4 Associated documents	"Macroeconomic and Monetary Developments".
4.1.5 Discretion left to operational desk	Choice of instrument, size and timing of operations.
4.2 Publication of minutes	Not applicable.
4.2.1 Timing and media of announcement	Not applicable.
4.2.2 Content	Not applicable.
4.3 Economic/inflation forecasts	Yes.
4.3.1 Legal status and mandate of reporting	None.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	Indicative Forecasts in the monetary policy statement.
4.3.3 Position in policy conduct	High.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Staff.
4.3.5 Covering indicators	Economic growth, inflation.
4.3.6 Time horizon	Up to one-year ahead.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	
4.3.8 Frequency of revision	Quarterly.
4.3.9 Publication and its timing	Along with Policy Statements.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Press conferences, speeches, interviews.
4.5 Transparency of operations	High.
4.5.1 Announcement of liquidity forecast	No.
4.5.1.1 Forecast period	Not applicable.
4.5.1.2 Timing and media of announcement	Not applicable.
4.5.1.3 Major contents	Not applicable.
4.5.1.4 Information on reserves	Disseminated with a lag of one week.
4.5.2 Dissemination of information on operations	
4.5.2.1 Types of operations	Open market.
4.5.2.2 Major contents	Volume and price - fixed rate auctions.
4.5.2.3 Timing and media of dissemination	Same day press release on RBI website.
4.5.2.4 Other relevant information on operations	

1. Monetary policy committee	Bank of Japan
1.1 Name and legal status	The Policy Board (Monetary Policy Meeting). Policy Board): Established in accordance with the law of the Bank of Japan. Monetary Policy Meeting: Policy Board Meeting which discusses monetary policy.
1.2 Major mandates (in relation to monetary policy)	Determining or altering the followings: 1) Discount rates, and the types and terms of bills to be discounted; 2) Loan rates, and the types, terms, and value of collateral to be used for loans; 3) Reserve requirement ratios, the base date and other conditions of Reserve Deposit Requirement System; 4) Guidelines for money market control through various measures such as buying and selling of bills or bonds, as well as the types, terms, and other conditions of bills or bonds to be used; 5) Bank of Japan's view on currency and monetary control, including its basic view on economic and monetary conditions.
1.3 Monetary policy target	Not applicable.
1.3.1 Legal status and involvement of government	Not applicable.
1.3.2 Target indicator, timeframe and style	Not applicable.
1.3.3 System of evaluation	Not applicable.
1.3.4 Disclosure of performance	Not applicable.
1.3.5 Measures in case of failure to meet target	Not applicable.
1.4 Other relevant guidance	In conducting monetary policy, the Policy Board examines economic activity and prices currently from two perspectives: First: examining, as regards economic activity and prices one to two years in the future, whether the outlook deemed most likely follows a path of sustainable growth under price stability; Second: examining, in a longer term, various risks relevant to the conduct of monetary policy aimed at realizing sustainable growth under price stability (examining factors that will significantly impact economic activity and prices although the probability is low). A level of inflation rate that policy board members currently understand as price stability from a medium- to long-term viewpoint is disclosed (currently, an approximate range between zero and two percent in the rate of year-on-year change in the consumer price).
1.5 Size and composition	Policy board: consisting of six Deliberative members, the Bank of Japan's Governor and two Deputy Governors. Deliberative members: those with academic expertise or experience including experts on the economy or finance. The Minister of Finance and the minister who is in charge of economic and fiscal policy (or their respective designated staff member) may, when necessary, attend and express views at Monetary Policy Meeting for monetary control matters.
1.6 Appointment of members, [length and renewability of term]	All members: Appointed by the Cabinet, subject to the consent of the House of Representatives and the House of Councilors. The term of office shall be five years, and they may be reappointed.
1.7 Process of decision-making and voting rights	By a majority vote of the nine members. Two from Government can attend Monetary Policy Meeting but do not

	have voting rights.		
1.8 Frequency and length of meeting	Once or twice a month. One or two days (One-day meeting and meeting of the second day of two-day meeting usually start at 9:00am; meeting of the first day of two-day meeting usually starts at 2:00pm).		
1.9 Pre-scheduling of meetings and its disclosure	Meetings for the next twelve months are pre-determined semi-annually. Posted on the website: <a href="http://www.boj.or.jp/en/type/schedule/s070615.htm">http://www.boj.or.jp/en/type/schedule/s070615.htm</a>		
<b>2. Policy implementation</b>	<b>Bank of Japan</b>		
2.1 Key policy rate	Uncollateralized overnight call rate.		
2.2 Operational target	Uncollateralized overnight call rate.		
2.3 Standing facility(-ies)	Yes (Complementary lending facility).		
2.3.1 Form and maturity	Fixed-term loan, 1 day.		
2.3.2 Pricing method	Basic loan rate.		
2.3.3 Access limits	Collateral; Counterparties of the Bank of Japan only.		
2.3.4 Corridor width	Not applicable.		
2.4 Reserve requirements	Yes.		
2.4.1 Reserve ratios	Domestic currency: 0.05-1.3%; Foreign currency: 0.15-0.25%; Average: 0.6%.		
2.4.2 Averaging	Yes.		
2.4.3 Carry-over	No.		
2.4.4 Maintenance period and ending date	1 month. 15 <sup>th</sup> of every month.		
2.4.5 Calculation period and ending date	1 month. End of every month.		
2.4.6 Lag before maintenance	15 days.		
2.4.7 Vault cash	No.		
2.4.8 Remuneration	No.		
2.4.9 Remuneration of excess reserves	No.		
<b>3. Market operations</b>	<b>Bank of Japan</b>		
3.1 Main operations	Open market.		
3.1.1 Functions	Long-term funds-supplying operation.	Short-term funds-supplying operations.	Short-term funds-absorbing operations.
3.1.2 Types of operations	Outright purchase of long-term JGBs.	Purchase of JGBs or TBs/FB with repurchase agreement Funds-supplying operations against pooled collateral Purchase of CPs with repurchase agreement Outright purchase of TBs/FB.	Outright sales of bills Sales of JGBs or TBs/FBs with repurchase agreement Outright sales of TBs/FBs.
3.1.3 Maturities of operations	Not applicable.	Short-term funds-supplying operations: O/N to 1 year (usually O/N up to 4 months).	
3.1.4 Frequency of operations	4 times a month	Short-term funds-supplying operations: approximately 2 times a day (average in FY 2006, at the discretion of the desk).	
3.2 Other discretionary operations			
3.2.1 Functions			
3.2.2 Types of operations			
3.2.3 Maturities of operations			
3.2.4 Frequency of operations			
3.3 Collateral			

3.3.1 Status and use of standing facilities/discount window	<p>The Bank of Japan's counterparties can borrow overnight from the Bank of Japan within the amount of collateral pledged at the Bank of Japan. The current rate is 0.75% (0.25% above the policy target rate).</p> <p>Recently, in most days, the facility has not been used for more than 10 billion Yen.</p>
3.3.1.1 List of eligible collateral for standing facility	<p>JGSs, Government-guaranteed bonds, municipal bonds, FILP agency bonds (at least A rated), corporate bonds (at least A rated), CP, bills drawn by companies, ABSs (AAA rated), ABCP (a-1 rated), foreign government bonds (at least AA rated), international financial institution bonds (at least AA rated), loans on deeds to companies (at least A rated), loans on deeds (to the government's special account for the allotment of local allocation tax and local transfer tax, the Deposit Insurance Corporation with government guarantee, and the Banks' Shareholdings Purchase Corporation with government guarantee). For corporate bonds, CP, bills drawn by companies, and loans on deeds to companies, the Bank of Japan judges the eligibility by such factors as creditworthiness. (The pool of collateral can be used for the Complementary lending facility, daylight overdrafts and funds-supplying operations against pooled collateral.)</p> <p>The list which is in the "Guidelines on Eligible Collateral" is posted on the website:  <a href="http://www.boj.or.jp/en/type/law/ope/yoryo18.htm">http://www.boj.or.jp/en/type/law/ope/yoryo18.htm</a>.</p>
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	<p>The Bank of Japan Law limits the types of collateral required against lending to securities. However, it is possible to add other types of collateral if there is approval of the government. Loans on deeds have been added with such approval.</p> <p>Under this legal framework, the Policy Board has set the "Guidelines on Eligible Collateral", which requires creditworthiness and marketability as general eligibility standards for collateral. The Policy Board has defined the types of collateral and the eligibility criteria in accordance with the standards, and has revised them as necessary in light of developments in the financial markets.</p>
3.3.2 List of eligible collateral for open market operations	<p>For funds-supplying operations against pooled collateral: Same as the list of eligible collateral for the standing facility.</p> <p>For purchases of JGSs with repurchase agreements: Japanese government bonds with coupons, TBs and FBs.</p> <p>For purchases of CP with repurchase agreements: CP and ABCP that are eligible as collateral for the standing facility.</p>
3.3.2.1 Additional information (i.e. delays required if discretionary collateral changes)	<p>The Bank of Japan Law allows the following 3 types of open market operations: (i) sales and purchases of bills, government bonds, and other types of bonds, (ii) lending and borrowing of government bonds and other types of bonds with cash collateral, and (iii) lending of funds against collateral as mentioned above in the third row.</p> <p>Basic matters related to open market operations (e.g. types of assets, eligibility criteria of counterparties, terms and conditions of transactions), including their introduction and abolishment, are decided at the Policy Board.</p> <p>The Bank of Japan has carried out outright purchases of ABSs and ABCP between July 2003 and March 2006 with a view to support the long-term development of the securitization market, and to strengthen the monetary policy transmission mechanism.</p>
3.3.2.2 Any additional information on collateral for operations that may be important (for example, if	<p>Changes to the "Guidelines on Eligible Collateral", the "Principal Terms and Conditions for the Purchase/Sale of Japanese Government Securities with Repurchase Agreements", or the "Principal Terms and Conditions for the Purchase of CP with Repurchase</p>

discretionary collateral changes would take a significant amount of time to implement.)	Agreements” are decided at the Policy Board.
<b>4. Monetary policy communication</b>	<b>Bank of Japan</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	Announcement to market media immediately after the end of the monetary policy meeting.
4.1.2 Policy announcement	Target of uncollateralized overnight call rates as well as other policy decisions related to 1.2.
4.1.3 Explaining the decision	Press conference by the Governor on the same day of the announcement of the decision.
4.1.4 Associated documents	Short note explaining backgrounds of the decision released simultaneously. "Monthly Report of Recent Economic and Financial Developments" released on the same day of the announcement of the decision.
4.1.5 Discretion left to operational desk	Choice of instruments, size and timing of operations.
4.2 Publication of minutes	Yes.
4.2.1 Timing and media of announcement	Approved at the first or the second meeting held around one month after the meeting concerned. Released on the website on the third business day after the approval.
4.2.2 Content	1) List of participants. 2) Summary of staff reports on economic and financial developments. 3) Summary of discussions by the policy board on economic and financial developments. 4) Summary of discussions on monetary policy for the immediate future. 5) Remarks by government representatives. 6) Voting results (all votes of members are identified) 7) Discussion of the Bank's view of recent economic and financial developments.
4.3 Economic/inflation forecasts	Outlook for Economic Activity and Prices.
4.3.1 Legal status and mandate of reporting	Based on the decision made in the monetary policy meeting in October 2000 to enhance transparency of monetary policy. No legal requirement.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	As "The Background", following materials are attached: 1) Evaluations of economic activity, prices and monetary and financial developments; 2) Examination of mechanism of changes in economic activity and prices; 3) Charts of recent developments of economic activity and prices; 4) Economic assessment by region.
4.3.3 Position in policy conduct	Does not contain any targets of monetary policy. Just to promote public understanding of the Bank of Japan's evaluations of economic and financial developments and the conduct of monetary policy.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Policy board decides and releases the outlook.
4.3.5 Covering indicators	Including the forecasts of board members about real GDP, domestic CGPI, and CPI (excluding fresh food) (all year-on-year basis)
4.3.6 Time horizon	Both the April and the October issues: covering the current fiscal year and the following fiscal year.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according	Individual Policy Board members make forecasts with reference to the view of market participants regarding the future course of the policy interest rate – a view that is incorporated in market rates.

to market pricing, future rates estimated by the central bank?)	
4.3.8 Frequency of revision	Semiannually (at the meetings in April and October). In addition, interim assessment on the Bank of Japan's evaluations of economic and financial developments in the latest Outlook report in January and July (the result of interim assessment is included in "Monthly Report of Recent Economic and Financial Developments" in January and July).
4.3.9 Publication and its timing	"The Bank's View": Posted on the website: <a href="http://www.boj.or.jp/intra/htdocs/doc2/h220/taigai/en/theme/seisaku/handan/gp/index.htm">http://www.boj.or.jp/intra/htdocs/doc2/h220/taigai/en/theme/seisaku/handan/gp/index.htm</a> on the same day when the Policy Board decides. "The Backgrounds": Posted on the website: <a href="http://www.boj.or.jp/intra/htdocs/doc2/h220/taigai/en/theme/seisaku/handan/gp/index.htm">http://www.boj.or.jp/intra/htdocs/doc2/h220/taigai/en/theme/seisaku/handan/gp/index.htm</a> on its next business day.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Presentation: Testimonies, speeches, press conferences and interviews of Board members. Publication: "Outlook for Economic Activity and Prices" (see [4.3].) and "Monthly Report of Recent Economic and Financial Developments".
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	Yes.
4.5.1.1 Forecast period	Month ahead. Next business day.
4.5.1.2 Timing and media of announcement	Monthly: On the second business day of the month. Daily: 6pm (7pm on the final business day of a month) on the previous business day. Announcement to market media and posting on the website: <a href="http://www.boj.or.jp/intra/htdocs/doc2/h220/taigai3/market/en/menu.htm">http://www.boj.or.jp/intra/htdocs/doc2/h220/taigai3/market/en/menu.htm</a> .
4.5.1.3 Major contents	Monthly: Forecasts of autonomous factors with breakdowns of sources to bank notes and treasury funds. Daily: Forecasts of autonomous factors with breakdowns of sources to bank notes, treasury funds and the Bank of Japan's operations (including the outstanding of the lending facility).
4.5.1.4 Information on reserves	Daily forecast of reserves announced at 8:00am to market media (not on website).
4.5.2 Dissemination of information on operations	Yes.
4.5.2.1 Types of operations	All types of operations.
4.5.2.2 Major contents	Volume. Price Results.
4.5.2.3 Timing and media of dissemination	Volume: Simultaneously with the offer of each operations. Price Results: Simultaneously with the notification of the results of each operations to counterparties.
4.5.2.4 Other relevant information on operations	

<b>1. Monetary policy committee</b>	<b>Bank of Korea</b>
1.1 Name and legal status	Monetary Policy Committee.
1.2 Major mandates (in relation to monetary policy)	Price stability.
1.3 Monetary policy target	Yes.
1.3.1 Legal status and involvement of government	In consultation with government, central bank sets target.
1.3.2 Target indicator, timeframe and style	During 2004~06, target range of 2.5-3.5% in terms of 3-year average of annual inflation for core CPI During 2007~09, target range of 3.0±0.5% in terms of 3-year average of annual inflation for headline CPI.

1.6 Appointment of members, [length and renewability of term]	Governor: Appointed by the President and approved by the Senate for a 6-year term. Deputy Governors: Appointed by the President and approved by the Senate for an 8-year staggered term. Both are renewable if by the date of the new appointment they are under 65 years old.
1.7 Process of decision-making and voting rights	Voting, though possible, has not been disclosed so apparently decisions have been taken by consensus.
1.8 Frequency and length of meeting	No formal meetings. Monthly announcement of monetary policy decisions.
1.9 Pre-scheduling of meetings and its disclosure	The announcement schedule for the following year is published in the October Inflation Report.
<b>2. Policy implementation</b>	<b>Bank of Mexico</b>
2.1 Key policy rate	Interbank overnight funding rate (since Sep 2005) and overdrafts on current account balances ("corto").
2.2 Operational target	Interbank overnight rate and bank's current accounts at the central bank.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Lending Facility: Overnight. Deposit Facility: Overnight.
2.3.2 Pricing method	Lending Facility: Charged at twice the overnight interbank rate. Deposit Facility: Not remunerated.
2.3.3 Access limits	Lending Facility: Limits set according to bank's capital. Deposit Facility: Not specified but unlimited in principle.
2.3.4 Corridor width	From 0% to twice the overnight interbank rate.
2.4 Reserve requirements	None but Banco de Mexico has imposed mandatory deposits to manage liquidity, mostly for long-term sterilization.
2.4.1 Reserve ratios	The size of the mandatory deposit has been set to suit Banco de México's need and allocated pro rata amongst banks according to the market share of each bank's demand and savings deposits.
2.4.2 Averaging	Not applicable.
2.4.3 Carry-over	Not applicable.
2.4.4 Maintenance period and ending date	The mandatory deposits do not have a maturity date so Banco de Mexico, according to its needs, may decide when to require additional deposits or return the existing ones.
2.4.5 Calculation period and ending date	Not applicable.
2.4.6 Lag before maintenance	Not applicable.
2.4.7 Vault cash	Not applicable.

2.4.8 Remuneration	Overnight interbank rate.
2.4.9 Remuneration of excess reserves	Not remunerated.
<b>3. Market operations</b>	<b>Bank of Mexico</b>
3.1 Main operations	
3.1.1 Functions	Aimed to balance the amount of liquidity in the banking system while achieving the target on the current accounts of the commercial bank at the central bank at the closing of the day.
3.1.2 Types of operations	Credit and Repo in the noon operations, most of the times to inject liquidity to the banking system. Credit and, on rare occasions, Deposit operations in the evening intervention.
3.1.3 Maturities of operations	Short term: Most of them with maturity between one and 25 days
3.1.4 Frequency of operations	Daily. The bulk is conducted at noon (12pm) and there is a fine tuning session in the evening (6pm).
3.2 Other discretionary operations	
3.2.1 Functions	Withdraw long-term excess liquidity.
3.2.2 Types of operations	Issuance of long-term floating bonds for long-term management of liquidity.
3.2.3 Maturities of operations	Three and five years for the market securities.
3.2.4 Frequency of operations	Weekly.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	No use, regular operation. The rate charged to use this facility is twice the overnight rate, so normally it is not used by banks.
3.3.1.1 List of eligible collateral for standing facility	Federal Government Debt (including Cetes, Bonos, Bondes, Udibonos, IPAB) and Central Bank Debt (BREMS). Compulsory cash deposits from commercial banks held by the central bank.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	The central bank has all the discretion to accept other collateral types, but it needs first to adjust current regulation. Additional collateral could be: Corporate Debt, Mortgage Backed Securities (MBS) and Bank Certificates.
3.3.2 List of eligible collateral for open market operations	Federal Government Debt (including Cetes, Bonos, Bondes, Udibonos, IPAB) and Central Bank Debt (BREMS). Compulsory cash deposits from commercial banks held by the central bank.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	The central bank has all the discretion to accept other collateral types, but it needs first to adjust current regulation. Additional collateral could be: Corporate Debt, Mortgage Backed Securities (MBS) and Bank Certificates.
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	All the operations of the central bank with the market are collateralized and haircuts are used to price the collateral that is received. Collateral substitution is possible at all times. Changes to eligible collateral require important changes to systems that might take some time to implement.
<b>4. Monetary policy communication</b>	<b>Bank of Mexico</b>
4.1 Announcement of policy decision	
4.1.1 Timing and media of announcement	Monthly press release on website.
4.1.2 Policy announcement	Banco de Mexico announces the desirable change in monetary

	conditions in basis points, i.e. interbank overnight rate. It also announces the target on the daily balance of the current accounts of the commercial banks at the central bank.
4.1.3 Explaining the decision	Yes.
4.1.4 Associated documents	Quarterly inflation report.
4.1.5 Discretion left to operational desk	Not applicable.
4.2 Publication of minutes	Not applicable.
4.2.1 Timing and media of announcement	Not applicable.
4.2.2 Content	Not applicable.
4.3 Economic/inflation forecasts	Yes.
4.3.1 Legal status and mandate of reporting	Not applicable.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	Economic and inflation forecasts published in Quarterly Inflation Report.
4.3.3 Position in policy conduct	In its monthly press release, Banco de Mexico states the bias of its monetary policy.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Not specified.
4.3.5 Covering indicators	Inflation (range), GDP growth (range), current account of the balance of payments, employment.
4.3.6 Time horizon	Current and next year.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Not specified.
4.3.8 Frequency of revision	Quarterly.
4.3.9 Publication and its timing	Quarterly.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Speeches.
4.5 Transparency of operations	Yes.
4.5.1 Announcement of liquidity forecast	Daily.
4.5.1.1 Forecast period	One day.
4.5.1.2 Timing and media of announcement	At noon, before the open market operations.
4.5.1.3 Major contents	Expected change in the commercial banks deposits during the day and the intervention amount to offset it.
4.5.1.4 Information on reserves	Reserves i.e. current accounts of commercial banks at the central bank are targeted and the daily target is published monthly.
4.5.2 Dissemination of information on operations	Yes.
4.5.2.1 Types of operations	Open market operations and the issuance of the long-term floating bonds.
4.5.2.2 Major contents	Amounts and interest rates.
4.5.2.3 Timing and media of dissemination	Daily (Internet) for open market operations and weekly for the bonds.
4.5.2.4 Other relevant information on operations	The amounts of bonds to be issued during a quarter is announced at the end of the previous quarter.

1. Monetary policy committee	Monetary Authority of Singapore
1.1 Name and legal status	Monetary and Investment Policy Meeting (MIPM).
1.2 Major mandates (in relation to monetary policy)	The MIPM deliberates and decides on issues relating to the formulation and implementation of monetary policy with the objective of maintaining price stability for sustainable economic growth. The Meeting also oversees the investment of MAS' reserves. <a href="http://www.mas.gov.sg/about_us/mgt_structure/MIPM.html">http://www.mas.gov.sg/about_us/mgt_structure/MIPM.html</a>
1.3 Monetary policy target	The objective of monetary policy is to promote price stability as a sound basis for sustainable economic growth.
1.3.1 Legal status and involvement of government	It is stipulated in the MAS Act (Cap. 186) that one of the principal objects of the MAS is to "...to maintain price stability conducive to sustainable growth of the economy..."
1.3.2 Target indicator, timeframe and style	GDP growth, CPI inflation and range of other derivative activity and cost indicators.
1.3.3 System of evaluation	Reviewed at quarterly and semi-annual frequencies by the relevant decision-making bodies (see below).
1.3.4 Disclosure of performance	
1.3.5 Measures in case of failure to meet target	
1.4 Other relevant guidance	
1.5 Size and composition	Presently five, consisting of the Chairman, Deputy Chairman, and Managing Director of the MAS as well as two other members appointed by the MAS Board.
1.6 Appointment of members, [length and renewability of term]	
1.7 Process of decision-making and voting rights	Consensus.
1.8 Frequency and length of meeting	Fortnightly. The review of monetary policy is conducted semi-annually, in April and September. MIPM may be convened to conduct an interim review of the policy if there is a major change in the external environment which substantially affects the outlook for the Singapore economy. In such cases, MAS would issue a press statement to inform the market of any shift in the policy stance.
1.9 Pre-scheduling of meetings and its disclosure	Not disclosed but the date of the semi-annual Monetary Policy Statement (MPS) is usually announced 10 calendar days ahead on the MAS website.
2. Policy implementation	Monetary Authority of Singapore
2.1 Key policy rate	Singapore's monetary policy is centered on the management of the exchange rate against a trade-weighted basket of currencies of major trading partners.
2.2 Operational target	The S\$NEER is maintained broadly within a policy band.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Lending / deposit; overnight.
2.3.2 Pricing method	Overnight rate determined at MAS morning auction +/- 50bp.
2.3.3 Access limits	SGS Primary Dealers only.
2.3.4 Corridor width	100 bp.
2.4 Reserve requirements	Yes. All banks in Singapore maintain cash balances in their current accounts with MAS for the purpose of meeting their reserve requirements and settlement of interbank transactions.
2.4.1 Reserve ratios	Domestic currency: 3%. Banks are required to maintain interest-free cash balances with MAS - called the Minimum Cash Balance (MCB) - equivalent to 3% of their liabilities base.
2.4.2 Averaging	Yes. While banks' MCB is allowed to fluctuate between 2% and 4% of their liabilities base on a day-to-day basis, they must ensure that the average MCB ratio for the two-week maintenance period is not less

	than 3%.
2.4.3 Carry-over	No.
2.4.4 Maintenance period and ending date	2 weeks. Wednesday.
2.4.5 Calculation period and ending date	2 weeks. Wednesday.
2.4.6 Lag before maintenance	2 weeks.
2.4.7 Vault cash	No.
2.4.8 Remuneration	No.
2.4.9 Remuneration of excess reserves	No.
<b>3. Market operations</b>	<b>Monetary Authority of Singapore</b>
3.1 Main operations	
3.1.1 Functions	Exchange rate intervention.
3.1.2 Types of operations	FX spot.
3.1.3 Maturities of operations	Spot.
3.1.4 Frequency of operations	Discretionary.
3.2 Other discretionary operations	Monetary Management Operations.
3.2.1 Functions	Liquidity injection and withdrawal.
3.2.2 Types of operations	Repo, FX swaps, direct lending/borrowing (uncollateralised).
3.2.3 Maturities of operations	Up to 1 year.
3.2.4 Frequency of operations	Daily.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	Standing deposit and lending facilities are available daily to the primary dealer banks, at a margin of +/-50 basis points against a reference overnight rate that is determined during the daily morning open market operations.
3.3.1.1 List of eligible collateral for standing facility	Singapore Government Securities are the collateral for primary dealers' usage of the Standing Facility to borrow funds.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	The MAS has discretion to expand the list of eligible collateral to any security type deemed suitable, and there are no legal restrictions on the form of acceptable collateral.
3.3.2 List of eligible collateral for open market operations	The MAS conducts repos and reverse repos as part of its open market operations. Singapore Government Securities (SGS) are the as collateral for such repos/ reverse repos.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	Same degree of discretion applies as above.
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	Discretionary collateral changes can be implemented without undue delay.
<b>4. Monetary policy communication</b>	<b>Monetary Authority of Singapore</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	Decisions are announced on a semi-annual basis via a monetary policy statement issued to the press media and on the MAS website.

4.1.2 Policy announcement	Monetary Policy Statement.
4.1.3 Explaining the decision	Yes.
4.1.4 Associated documents	The Macroeconomic Review (MR) is published twice a year in conjunction with the release of the MAS Monetary Policy Statement. The Review documents the Economic Policy Department's (EPD) analysis and assessment of macroeconomic developments in the Singapore economy, and shares with market participants, analysts, and the wider public, the basis for the policy decisions conveyed in the Monetary Policy Statement.
4.1.5 Discretion left to operational desk	Staff recommends the date of announcement for MIPM's approval.
4.2 Publication of minutes	No.
4.2.1 Timing and media of announcement	
4.2.2 Content	
4.3 Economic/inflation forecasts	GDP growth and inflation forecasts.
4.3.1 Legal status and mandate of reporting	The Ministry of Trade and Industry (MTI) is the official authority for Singapore's GDP forecast. The forecast is a consensus decision following deliberations amongst various government economic agencies, including the MAS. The MAS is responsible for the inflation forecast.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc.)	Inflation forecast: MR, monthly inflation report, and MPS. GDP forecast: MTI's Economic Survey of Singapore.
4.3.3 Position in policy conduct	An assessment of the appropriate policy stance is made taking into account the growth / inflation trade-off in the medium term.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Staff.
4.3.5 Covering indicators	GDP growth, CPI inflation, output gap.
4.3.6 Time horizon	Up to 18 months.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Not applicable. In the context of Singapore's open capital account and the absence of any form of capital controls, having the exchange rate as the monetary policy instrument necessarily means the MAS does not target any level of interest rates. The interest rate path used in the projection is thus determined by the exchange rate policy as well as global interest rates.
4.3.8 Frequency of revision	Forecasts are continually assessed against incoming economic data from both the external and domestic front. Should the economy be impacted by a major shock, economic forecasts may need to be revised in between regular releases on economic forecasts and policy announcement.
4.3.9 Publication and its timing	MR and MPS (semi-annual), inflation report (monthly). MTI's Economic Survey of Singapore (quarterly).
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Briefings to the media and private sector analysts, speeches by top government officials.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	Ad-hoc basis.
4.5.1.1 Forecast period	
4.5.1.2 Timing and media of announcement	
4.5.1.3 Major contents	
4.5.1.4 Information on reserves	
4.5.2 Dissemination of information on operations	Yes. Monograph on the modus operandi of MAS' foreign exchange and money market operations.

	<a href="http://www.sgs.gov.sg/resource/pub_guide/guides/SGPMonetaryPolicyOperations.pdf">http://www.sgs.gov.sg/resource/pub_guide/guides/SGPMonetaryPolicyOperations.pdf</a> The October issue of the MR also provides a review of MAS' money market operations in the financial year.
4.5.2.1 Types of operations	
4.5.2.2 Major contents	
4.5.2.3. Timing and media of dissemination	
4.5.2.4 Other relevant information on operations	

1. Monetary policy committee	Riksbank
1.1 Name and legal status	Executive Board. Responsibilities described in the Sveriges Riksbank Act.
1.2 Major mandates (in relation to monetary policy)	Maintain price stability.
1.3 Monetary policy target	Yes.
1.3.1 Legal status and involvement of government	The target is set by the Executive Board, which has an independent status with regards to monetary policy. It is by law forbidden to receive or seek instructions.
1.3.2 Target indicator, timeframe and style	2 percent per year, as measured by the annual change in the CPI, with a tolerance range of plus/minus 1 percentage point. Normally target to be achieved within a two-year period.
1.3.3 System of evaluation	The Riksdag Committee on Finance makes an annual assessment of the Riksbank's monetary policy.
1.3.4 Disclosure of performance	A Riksbank report is made in an appendix to the first Monetary Policy Report of every year.
1.3.5 Measures in case of failure to meet target	No.
1.4 Other relevant guidance	The Riksbank has scope to take into consideration both developments in inflation and in the real economy (growth, unemployment, employment, etc). Because financial markets affect the real economy, changes in asset prices and other financial variables are also routinely taken into consideration in monetary policy decisions.
1.5 Size and composition	Six internal members.
1.6 Appointment of members, [length and renewability of term]	The six members of the Riksbank's Executive Board are appointed by the General Council of the Riksbank for a term of office lasting six years. This means that one member will be appointed each year according to a rolling schedule. The General Council consists of eleven members, appointed following each general election. It reflects the political composition of the Riksdag.
1.7 Process of decision-making and voting rights	Executive Board Members have voting rights. In the event of equal votes, the Chairman of the Executive Board (the Riksbank Governor) has the casting vote.
1.8 Frequency and length of meeting	As of 2008 the Executive Board holds six monetary policy meetings per year. The meetings normally last several hours.
1.9 Pre-scheduling of meetings and its disclosure	Meetings are time-tabled and announced approximately six months in advance.
2. Policy implementation	Riksbank
2.1 Key policy rate	Overnight repo rate.
2.2 Operational target	Overnight repo rate target.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Loan / deposit; overnight.
2.3.2 Pricing method	Repo rate + / - 75 bp.
2.3.3 Access limits	Up to the value of collateral.
2.3.4 Corridor width	150 basis points.
2.4 Reserve requirements	No.
2.4.1 Reserve ratios	
2.4.2 Averaging	
2.4.3 Carry-over	
2.4.4 Maintenance period and ending date	
2.4.5 Calculation period and ending date	
2.4.6 Lag before maintenance	

2.4.7 Vault cash	
2.4.8 Remuneration	
2.4.9 Remuneration of excess reserves	
<b>3. Market operations</b>	<b>Riksbank</b>
3.1 Main operations	
3.1.1 Functions	Influence market rates.
3.1.2 Types of operations	Repos.
3.1.3 Maturities of operations	1 week.
3.1.4 Frequency of operations	Weekly.
3.2 Other discretionary operations	Fine tuning.
3.2.1 Functions	Move the aggregated banking system liquidity to or close to zero in order to stabilize the overnight rate.
3.2.2 Types of operations	Loan / deposit, Repo rate +/- 10 bp.
3.2.3 Maturities of operations	Overnight.
3.2.4 Frequency of operations	Almost every day.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	Standing deposit and lending facilities are available each day for all monetary policy counterparts at a margin of +/- 75 bp to the monetary policy repo rate. Each Primary Monetary Policy Counterpart is allowed to ask for a fine-tuning operation at the end of the day. The effect of that is that banks do not use the standing facilities to any significant extent. Even during the recent market turbulence, there was no unusual usage of standing facilities nor did the Riksbank provide any extra liquidity to the market.
3.3.1.1 List of eligible collateral for standing facility	<p>Government Securities.</p> <p>Corporate Bonds incl. covered bonds and asset backed securities. If issued by a bank, the issuer must be domiciled in another country than where the Riksbank's counterparty is domiciled.</p> <p>Commercial papers.</p> <p>Securities issued by an issuer with close links to the Riksbank's counterparty is not eligible as collateral for that counterparty.</p> <p>Securities issued by the Swedish Government are excluded from this rule. Securities with subordinated payment rights are not eligible.</p> <p>Issuers to be established in Australia, Austria, Canada, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Luxemburg, the Netherlands, New Zealand, Norway, Portugal, Spain, Switzerland, Sweden, United Kingdom and United States.</p> <p>Issue or issuer having a credit rating of at least A (A2).</p> <p>Securities to be issued in DKK, EUR, GBP, JPY, NOK, SEK and USD.</p> <p>Securities to be held in the Swedish CSD, in Euroclear, in the Danish and Norwegian CSD, if the Danish or Norwegian central banks are acting as correspondents, given that the security is initially registered in that CSD or is held there through an assessed and approved link from the CSD where the security initially was registered. Currently the Riksbank has only approved links assessed by the Eurosystem.</p> <p>Foreign currency (DKK and NOK) through the Scandinavian Cash Pool (i.e. held on accounts with Danish and Norwegian central banks)</p> <p>Foreign currency (EUR) paid to the Riksbank through its account with Deutsche Bundesbank.</p> <p>For more detailed information, see:  <a href="http://www.riksbank.com/templates/Page.aspx?id=12578">http://www.riksbank.com/templates/Page.aspx?id=12578</a>.</p> <p>As of end of September 2007 in total about USD 21 billion was held as collateral, of which 90 per cent in the Swedish CSD of which almost all were Swedish covered bonds or securities issued by mortgage institutions. About 6 per cent was held in Euroclear (asset backed</p>

	securities) and 4 per cent was held in the form of foreign cash. Normally, foreign cash accounts for between 4 and 15 per cent of total collateral.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	There is no additional “framework” for an expansion of eligible collateral. However, the Riksbank may within the current rules for RIX and monetary policy instruments, add approved issuer countries and currencies, by amending its guidelines for collateral.
3.3.2 List of eligible collateral for open market operations	Only collateral issued in SEK and held in the Swedish CSD and eligible to be settled with the standard fixed income settlement procedure. Currently this includes Swedish Government Securities and Securities issued by Swedish mortgage institutions.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	There is basically no need for such an expansion since the outstanding monetary policy repo, in size, is very limited (0,25%) in comparison with the eligible collateral. The intraday usage of collateral in the payment system normally does not exceed more than 5% of the total eligible domestic collateral.
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	A facilitating circumstance is the limited size of the Swedish capital market and the amount of institutions that have issued funds in the bill/certificate and bond markets is not very sizeable.
<b>4. Monetary policy communication</b>	<b>Riksbank</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	Day after the meeting. Press release.
4.1.2 Policy announcement	Repo rate.
4.1.3 Explaining the decision	Yes.
4.1.4 Associated documents	Monetary Policy Report in conjunction with three meetings every year.
4.1.5 Discretion left to operational desk	No.
4.2 Publication of minutes	Yes.
4.2.1 Timing and media of announcement	Two weeks after the meeting. Press release.
4.2.2 Content	Account of the discussion and how each member argued and voted.
4.3 Economic/inflation forecasts	
4.3.1 Legal status and mandate of reporting	Forecasts as such are not mandated by law.
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	Monetary Policy Report.
4.3.3 Position in policy conduct	The Riksbank follows a policy of flexible inflation targeting, and as such the forecasts of inflation and the real economy are the key inputs into the monetary policy decision.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Forecast suggested by staff, voted on and owned by the majority of the Executive Board.
4.3.5 Covering indicators	CPI inflation, core inflation, repo rate, 10-year rate, exchange rate, general government net lending, GDP for Sweden and major economies, international producer prices, crude oil price, Swedish export market growth, GDP for Sweden by expenditure, number of hours worked,

	population, employment, labour force, unemployment, labour market programmes, hourly wage, hourly labour costs, productivity, unit labour costs.
4.3.6 Time horizon	T-1 to T+2 (i. e. 2006-2009 during 2007).
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	The Riksbank publishes its own interest rate path.
4.3.8 Frequency of revision	Forecasts are revised in connection with each monetary policy meeting (7-8 times a year). A complete, revised forecast is made public with each Monetary Policy Report (3 times a year).
4.3.9 Publication and its timing	Published on the Riksbank website the day after a monetary policy meeting.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Speeches, Riksdag testimony, press conferences after monetary policy meetings.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	No announcement. Information on liquidity forecast is not very interesting for the market due to fact that the Riksbank is steering the aggregated liquidity position close to zero via daily fine tuning operations.
4.5.1.1 Forecast period	
4.5.1.2 Timing and media of announcement	
4.5.1.3 Major contents	
4.5.1.4 Information on reserves	
4.5.2 Dissemination of information on operations	
4.5.2.1 Types of operations	MRO; Banks aggregated position in standing facilities.
4.5.2.2 Major contents	MRO: Repo announcement: Repo period, repo rate when fixed repo. Allotment: Accepted volume of repo, percentage allotted. Banks aggregated position in standing facilities.
4.5.2.3 Timing and media of dissemination	MRO: Repo announcement 9.30, allotment 10.00 on Tuesdays. Banks aggregated position in standing facilities: 17.00 every day.
4.5.2.4 Other relevant information on operations	

<b>1. Monetary policy committee</b>	<b>Swiss National Bank</b>
1.1 Name and legal status	Governing Board.
1.2 Major mandates (in relation to monetary policy)	To ensure price stability.
1.3 Monetary policy target	Definition of price stability (see A-3-2).
1.3.1 Legal status and involvement of government	No
1.3.2 Target indicator, timeframe and style	Central bank equates price stability with a rise in the national consumer price index of less than 2% per annum in terms of total CPI.
1.3.3 System of evaluation	
1.3.4 Disclosure of performance	Yes.
1.3.5 Measures in case of failure to meet target	No.
1.4 Other relevant guidance	
1.5 Size and composition	Three internal members.
1.6 Appointment of members, [length and renewability of term]	All members are appointed by the Federal Council on the Bank Council's suggestion. Members are elected for a six-year term, which is renewable several times.
1.7 Process of decision-making and voting rights	Consensus.
1.8 Frequency and length of meeting	Four times per year.
1.9 Pre-scheduling of meetings and its disclosure	Quarterly meetings (March, June, September and December) with press conferences at the mid-year and end-year meetings. The meeting dates are announced well in advance (e.g., all dates for 2008 are already published).
<b>2. Policy implementation</b>	<b>Swiss National Bank</b>
2.1 Key policy rate	3-month Libor.
2.2 Operational target	Target range for 3-month Libor.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Loans.
2.3.2 Pricing method	Call money rate + 200 bp.
2.3.3 Access limits	Eligible counterparties must apply for a limit. Once approved, the limit must be covered with eligible collateral.
2.3.4 Corridor width	Not applicable.
2.4 Reserve requirements	Yes.
2.4.1 Reserve ratios	Uniform ratio of 2.5 percent on the liabilities consisting the reserve base.
2.4.2 Averaging	Yes.
2.4.3 Carry-over	No.
2.4.4 Maintenance period and ending date	1 month, from the 20 <sup>th</sup> day to the 19 <sup>th</sup> day of the subsequent calendar month.
2.4.5 Calculation period and ending date	The reserve requirements are computed based on the average of the liabilities of the three preceding month-ends prior to the maintenance period.
2.4.6 Lag before maintenance	Yes.
2.4.7 Vault cash	Vault cash is an eligible asset towards fulfilling the reserve requirements.
2.4.8 Remuneration	No.
2.4.9 Remuneration of excess reserves	No.
<b>3. Market operations</b>	<b>Swiss National Bank</b>
3.1 Main operations	Main financing operations (repo transactions).
3.1.1 Functions	Liquidity injection (and absorption).
3.1.2 Types of operations	Auctions conducted by volume tender.

3.1.3 Maturities of operations	Mostly 1 week (however, longer or shorter maturities are possible).
3.1.4 Frequency of operations	Daily.
3.2 Other discretionary operations	Fine-tuning operations (repo transactions).
3.2.1 Functions	Liquidity injection and absorption.
3.2.2 Types of operations	Auctions conducted by volume tender or on a bilateral basis.
3.2.3 Maturities of operations	Mostly 1 day (typically overnight or tomorrow/next).
3.2.4 Frequency of operations	Intermittent.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	<p>The SNB provides its counterparties with a liquidity-shortage financing facility to bridge short-term liquidity bottlenecks. This facility may be drawn via a special-rate repo transaction. Banks that have been (1) granted a limit, (2) have opened a custody cover account, (3) have provided cover with collateral eligible for SNB repos have the right to obtain liquidity up to the limit set. Transactions must be repaid on the following business day (overnight) and are charged at the special rate which is set two percentage points above the call money rate.</p> <p>More information can be found at:  <a href="http://www.snb.ch/en/i/about/snb/legal/id/snb_legal_rules">http://www.snb.ch/en/i/about/snb/legal/id/snb_legal_rules</a> &gt;  Instruction Sheet on the Liquidity-Shortage Financing Facility (Special-Rate Repo Transactions)</p>
3.3.1.1 List of eligible collateral for standing facility	<p>Only those securities included in the list of collateral eligible for SNB repos may be pledged as collateral for repo transactions. This list is continuously updated and published on the SNB's website (<a href="http://www.snb.ch">www.snb.ch</a> &gt; Financial markets &gt; Monetary policy operations &gt; Repos).</p> <p>The criteria that must be met in order for securities (debt certificates) to be eligible for SNB repos include the following:</p> <ul style="list-style-type: none"> <li>- The securities are issued by central banks, public sector entities, international or supranational institutions and private sector entities. Securities issued by domestic banks and their subsidiaries abroad are not eligible as SNB collateral.</li> <li>- The securities have a fixed-principal amount with unconditional redemption.</li> <li>- The securities have a fixed rate, floating rate or zero coupon.</li> <li>- The maturity of the securities at the time of issuance is at least three months.</li> <li>- The securities are traded in Switzerland or a member state of the EU or EEA on a recognised stock exchange or on a representative market where price data are published on a regular basis.</li> <li>- The securities can be delivered through SegalInterSettle AG (SIS). The intermediate and ultimate depository of securities is in Switzerland or an EU or EEA member state.</li> <li>- The country and securities ratings are based on credit ratings of at least one of the rating agencies – Standard &amp; Poor's, Moody's or Fitch.</li> </ul> <p>In addition to the general criteria, further criteria apply. Those criteria vary between securities denominated in Swiss Francs and securities denominated in foreign currency. Details can be found in the "Instruction sheet on collateral eligible for SNB repos" published on our website.</p>
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	<p>The SNB can expand the collateral universe at its discretion beyond the current baskets, assuming the additional collateral meets its standards set, e.g., for credit quality and liquidity. However, should transactions with the newly eligible collateral take place within the normal operating procedure (i.e., triparty service structure), operational and legal issues may delay the immediate inclusion of</p>

	certain types of collateral.
3.3.2 List of eligible collateral for open market operations	Same as under box [3.3.1.1] above.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	Same as under box [3.3.1.2] above.
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	See answer in box [3.3.1.2] above.
<b>4. Monetary policy communication</b>	<b>Swiss National Bank</b>
4.1 Announcement of policy decision	Yes
4.1.1 Timing and media of announcement	Press release on the website, published (1) on the same day after the end of the monetary policy meeting (allowing for time to make alterations in the press release and translate it in other languages) or (2) – if a press conference is held – on the next day prior to the start of the press conference.
4.1.2 Policy announcement	Target range for the 3-month Libor.
4.1.3 Explaining the decision	Yes.
4.1.4 Associated documents	Monetary Policy Report, published with a lag to the policy announcement.
4.1.5 Discretion left to operational desk	The National Bank implements its monetary policy by influencing the interest rate level for the 3-month Libor. The operational area of the National Bank has discretion to set the conditions for the short-term repo operations in order to attain the desired level for the 3-month Libor.
4.2 Publication of minutes	
4.2.1 Timing and media of announcement	The National Bank does not publish minutes.
4.2.2 Content	Not applicable.
4.3 Economic/inflation forecasts	Yes.
4.3.1 Legal status and mandate of reporting	
4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	Monetary Policy Report.
4.3.3 Position in policy conduct	The medium-term inflation forecast holds key importance for the quarterly deliberations on the monetary policy assessment.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Compiled by the staff, owned by the Governing Board.
4.3.5 Covering indicators	Inflation.
4.3.6 Time horizon	Up to 3 years.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Constant policy rate over the forecasting period.
4.3.8 Frequency of revision	Quarterly.
4.3.9 Publication and its timing	Quarterly.

4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Press conferences, speeches and interviews.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	No.
4.5.1.1 Forecast period	Not applicable.
4.5.1.2 Timing and media of announcement	Not applicable.
4.5.1.3 Major contents	Not applicable.
4.5.1.4 Information on reserves	The average of the sight deposits of domestic banks for the current reporting period is published on a weekly basis.
4.5.2 Dissemination of information on operations	Yes.
4.5.2.1 Types of operations	Main financing and fine-tuning operations.
4.5.2.2 Major contents	Type of operation, start/end date, price (tender rate or average rate in case of bilateral transactions), bidding volume, allocation.
4.5.2.3 Timing and media of dissemination	On a weekly basis (on the first business day of the week for the preceding calendar week), publication on the website and on information pages maintained at major newswires services (e.g., Reuters, Bloomberg).
4.5.2.4 Other relevant information on operations	The total outstanding volume is shown by publishing the respective balance sheet positions (i.e., claims from main financing and fine-tuning transactions, claims from the liquidity-shortage financing facility and liabilities from liquidity-absorbing transactions). For information purposes, a set of market interest rates as well as data on minimum reserves is published within the same press release.

1. Monetary policy committee	Bank of England
1.1 Name and legal status	Monetary Policy Committee; committee of the Bank of England: Function, workings, etc, are set out in the Bank of England Act 1998.
1.2 Major mandates (in relation to monetary policy)	Extract from Bank of England Act 1998: "In relation to monetary policy, the objectives of the Bank of England shall be – (a) to maintain price stability, and; (b) subject to that, to support the economic policy of Her Majesty's Government, including its objectives for growth and employment."
1.3 Monetary policy target	Yes.
1.3.1 Legal status and involvement of government	HM Treasury (the UK Finance Ministry) must write to the Bank at least once a year to specify what price stability is to be taken to consist of; and what the economic policy of the government is to be taken to be. Since the passage of the Act the Chancellor has defined price stability in terms of an Inflation Target.
1.3.2 Target indicator, timeframe and style	The inflation target of 2% is expressed in terms of an annual rate of inflation based on the Consumer Prices Index (CPI). It applies at all times.
1.3.3 System of evaluation	Under the 1998 Act, the Inflation Report is to include review and assessment. Public and parliamentary scrutiny.
1.3.4 Disclosure of performance	Comparison with CPI outturns published by Office for National Statistics.
1.3.5 Measures in case of failure to meet target	If the target is missed by more than 1 percentage point on either side – i.e. if the annual rate of CPI inflation is more than 3% or less than 1% – the Governor of the Bank must write an open letter to the Chancellor explaining the reasons why inflation has exceeded or fallen below target to that extent and what the Bank proposes to do to ensure inflation comes back to the target.
1.4 Other relevant guidance	
1.5 Size and composition	Five internal and four external members.
1.6 Appointment of members, [length and renewability of term]	The Governor and Deputy Governors are appointed for (renewable) terms of five years. The terms of other Committee members are for three years (renewable).
1.7 Process of decision-making and voting rights	Voting.
1.8 Frequency and length of meeting	Monthly over 2 days.
1.9 Pre-scheduling of meetings and its disclosure	Meetings are pre-scheduled and are announced on the website ( <a href="http://www.bankofengland.co.uk/monetarypolicy/decisions.htm">http://www.bankofengland.co.uk/monetarypolicy/decisions.htm</a> ). There is provision for extraordinary meetings.
2. Policy implementation	Bank of England
2.1 Key policy rate	The official Bank Rate paid on commercial bank reserves.
2.2 Operational target	Overnight interest rates to be in line with the Bank's official rate so that there is a flat money market yield curve, consistent with the official policy rate, out to the next MPC decision date, with very limited day-to-day or intra-day volatility in market interest rates at maturities out to that horizon.
2.3 Standing facility(-ies)	Yes.
2.3.1 Form and maturity	Lending facility: repo, overnight. Deposit facility: unsecured deposit, overnight.
2.3.2 Pricing method	Official Bank Rate +/- 100bp (+/-25bp on last day of maintenance period).
2.3.3 Access limits	All banks and building societies with sterling liabilities above a certain minimum size, and which must for that reason place zero-yielding "cash ratio" deposits at the Bank under the 1998 Act, are eligible to have access to Standing Facilities, subject to meeting certain operational and other criteria. Unlimited size (subject to provision of

	eligible collateral).
2.3.4 Corridor width	200 bp (50bp on last day of maintenance period).
2.4 Reserve requirements	No legal requirement to hold reserves. From May 2006, voluntary, contractual reserves targets.
2.4.1 Reserve ratios	Not applicable.
2.4.2 Averaging	Yes.
2.4.3 Carry-over	No.
2.4.4 Maintenance period and ending date	1 month. From the date of the scheduled monthly MPC policy decision and announcement to the day before the next scheduled MPC announcement.
2.4.5 Calculation period and ending date	Not applicable.
2.4.6 Lag before maintenance	Not applicable.
2.4.7 Vault cash	No.
2.4.8 Remuneration	Yes, at Bank Rate (see 2.1).
2.4.9 Remuneration of excess reserves	Zero percent on average reserves above 101% of target. Average reserves below 99% of target suffer an equivalent penalty.
<b>3. Market operations</b>	<b>Bank of England</b>
3.1 Main operations	
3.1.1 Functions	To enable reserves-holding banks to meet their reserves targets in aggregate.
3.1.2 Types of operations	Short-term (one-week) fixed rate repos; long-term (3, 6, 9, 12 month) variable rate repos; (in due course) outright purchases of gilts and of foreign currency bonds swapped into fixed rate sterling. In addition there is an overnight fixed rate fine-tuning repo on the last day of the maintenance period.
3.1.3 Maturities of operations	See above.
3.1.4 Frequency of operations	Short-term repos: weekly. Long-term repos: a tender takes place once a month; funds are offered at each of the maturities above. In due course, there will be one tender per month to purchase gilts and one tender per month to purchase swapped foreign currency bonds.
3.2 Other discretionary operations	Various contingency measures that could be employed are set out in the published regime. For example, the Bank could provide additional sterling financing through open market operations; amend reserves targets during the maintenance period or widen the range within which reserves may deviate from target without penalty. The rates charged on Standing Facility use may also be changed.
3.2.1 Functions	
3.2.2 Types of operations	
3.2.3 Maturities of operations	
3.2.4 Frequency of operations	
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	Standing deposit and lending facilities are available each day to eligible banks (and building societies) at a margin of +/-100bp to Bank Rate. [On the final day of the maintenance period, the corridor is narrowed to +/-25bp]. The Bank publishes each day the previous day's aggregate use of Standing Facilities. A list of banks with access to Standing Facilities is available at <a href="http://www.bankofengland.co.uk/markets/money/documentation/participants.pdf">www.bankofengland.co.uk/markets/money/documentation/participants.pdf</a>
3.3.1.1 List of eligible collateral for standing facility	The list is the same as for repo OMOs (see below).
3.3.1.2 Discretion of the central bank to expand collateral	As for repo OMOs (see below).

types, and list of additional collateral types that the central bank can take on a discretionary basis	
3.3.2 List of eligible collateral for open market operations	<p>Eligible collateral for repo OMOs comprises<sup>2</sup>:</p> <ul style="list-style-type: none"> <li>- All UK government sterling debt (gilts and treasury bills) – including gilt strips.</li> <li>- UK government foreign currency debt securities.</li> <li>- Bank of England foreign currency debt securities.</li> <li>- Certain sterling and euro-denominated securities issued by EEA (European Economic Area) central governments, central banks and major international institutions where the issuing entity is rated Aa3/AA- or higher by two of Fitch, Moody's and Standard and Pools.</li> </ul> <p>A list of specific securities is available at:  <a href="http://www.bankofengland.co.uk/markets/money/eligiblesecurities.htm">www.bankofengland.co.uk/markets/money/eligiblesecurities.htm</a>.</p>
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of additional collateral types that the central bank can take for OMOs on a discretionary basis	<p>As a standard part of the published regime, the Bank may extend its list of eligible collateral to include US Treasury bonds if required.</p> <p>On 12 December 2007 the Bank announced that the size of its scheduled 3-month long-term repo OMOs in December 2007 and January 2008 would be increased, and a broader range of high quality securities accepted as collateral, within certain currencies and subject to settlement constraints:</p> <ul style="list-style-type: none"> <li>- additional sovereign bonds rated Aa3/AA- or higher;</li> <li>- bonds issued by G10 government agencies;</li> <li>- Conventional debt security issues of the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Corporation and the Federal Home Loan Banking system, rated AAA;</li> <li>- AAA-rated tranches of UK, US and EEA asset-backed securities (ABS) backed by credit cards; and AAA-rated tranches of UK and EEA prime residential mortgage-backed securities (RMBS);</li> <li>- Covered bonds rated AAA.</li> </ul>
3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)	See above.
<b>4. Monetary policy communication</b>	<b>Bank of England</b>
4.1 Announcement of policy decision	Yes.
4.1.1 Timing and media of announcement	12 noon on second day of MPC meeting. Wire services, website, press release.
4.1.2 Policy announcement	Official Bank Rate.
4.1.3 Explaining the decision	The MPC may choose to issue a statement to accompany its decision.
4.1.4 Associated documents	Not applicable.
4.1.5 Discretion left to operational desk	None.
4.2 Publication of minutes	Yes.
4.2.1 Timing and media of announcement	Minutes released 2 weeks after the date of the first day of the meeting.
4.2.2 Content	Record of discussion; individual votes.
4.3 Economic/inflation forecasts	Yes.
4.3.1 Legal status and mandate of reporting	Regular reports required by Bank of England Act 1998.

<sup>2</sup> For more details, see [www.bankofengland.co.uk/markets/money/eligible securities.htm](http://www.bankofengland.co.uk/markets/money/eligible securities.htm).

4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc)	Quarterly "Inflation Report" and accompanying press conference.
4.3.3 Position in policy conduct	Preparation of forecast provides a framework for MPC decisions. Publication of Inflation Report helps explain MPC thinking to public.
4.3.4 Compiling body and owner of the forecast (Board, staff?)	Monetary Policy Committee.
4.3.5 Covering indicators	Real GDP growth and CPI inflation are published. Additional numerical information on the probability distributions is published on the Bank's website subsequently.
4.3.6 Time horizon	Forecasts are published to a 3-year horizon.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Market interest rate expectations.
4.3.8 Frequency of revision	Not applicable.
4.3.9 Publication and its timing	Quarterly.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Accompanying press conference. Appearance before parliamentary committee. Speeches and interviews by individual MPC members.
4.5 Transparency of operations	
4.5.1 Announcement of liquidity forecast	Yes.
4.5.1.1 Forecast period	Current maintenance period.
4.5.1.2 Timing and media of announcement	Daily at 10am (9am on weekly OMO day, 9.30 on fine-tuning OMO days). Wire services.
4.5.1.3 Major contents	Previous day's aggregate holdings of reserves; previous day's aggregate forecast error; average aggregate reserves held to date in maintenance period; residual aggregate average reserves needed to meet targets.
4.5.1.4 Information on reserves	See above.
4.5.2 Dissemination of information on operations	Outcome of each open market operation published on the Bank's wire services pages shortly after the end of each operation. Aggregate use of standing lending / borrowing facilities each day is published on the following day at the same time as the liquidity forecast.
4.5.2.1 Types of operations	
4.5.2.2 Major contents	
4.5.2.3 Timing and media of dissemination	
4.5.2.4 Other relevant information on operations	

<b>1. Monetary policy committee</b>	<b>Federal Reserve System</b>
1.1 Name and legal status	Federal Open Market Committee
1.2 Major mandates (in relation to monetary policy)	Dual mandate, to promote price stability and maximum sustainable employment.
1.3 Monetary policy target	No formal target.
1.3.1 Legal status and involvement of government	
1.3.2 Target indicator, timeframe and style	
1.3.3 System of evaluation	
1.3.4 Disclosure of performance	
1.3.5 Measures in case of failure to meet target	
1.4 Other relevant guidance	
1.5 Size and composition	Twelve members consists of chairman, vice-chairman, 5 other members of the Board of Governors and 5 Reserve Bank presidents.
1.6 Appointment of members, [length and renewability of term]	The 7 board members are appointed by the President and confirmed by the US Senate. Among the 5 Reserve Bank presidents, the FED NY president is a permanent member while the other 4 serve for one-year on a rotating basis.
1.7 Process of decision-making and voting rights	Consensus.
1.8 Frequency and length of meeting	Eight scheduled per year, with others as needed. Meetings may cover one or two days.
1.9 Pre-scheduling of meetings and its disclosure	Meetings are pre-scheduled and are announced on the website ( <a href="http://www.federalreserve.gov/fomc/#calendars">http://www.federalreserve.gov/fomc/#calendars</a> ).
<b>2. Policy implementation</b>	<b>Federal Reserve System</b>
2.1 Key policy rate	Uncollateralised interbank (Federal funds) rate target.
2.2 Operational target	Uncollateralised interbank (Federal funds) rate.
2.3 Standing facility(-ies)	Primary credit facility; no deposit facility.
2.3.1 Form and maturity	Overnight loans are standard but longer terms may be offered.
2.3.2 Pricing method	Policy rate set by Reserve Bank Boards of Directors and the Board of Governors.
2.3.3 Access limits	Banks in sound financial condition (less financially sound banks have access to the secondary credit facility); collateral; reserves use of discretion.
2.3.4 Corridor width	100 bp above the Federal funds target rate had been standard since the primary credit facility was established (Jan. 2003), but reduced to 50 bp on August 16, 2007.
2.4 Reserve requirements	Yes.
2.4.1 Reserve ratios	Domestic currency: 0-10%.
2.4.2 Averaging	Yes.
2.4.3 Carry-over	Yes.
2.4.4 Maintenance period and ending date	2 weeks. Wednesday.
2.4.5 Calculation period and ending date	2 weeks. Monday.
2.4.6 Lag before maintenance	17 days.
2.4.7 Vault cash	Yes.
2.4.8 Remuneration	No, but legislation passed Oct. 2006 allows FRS to remunerate required reserves beginning Oct. 2011.
2.4.9 Remuneration of excess reserves	No, but legislation passed Oct. 2006 allows FRS to remunerate excess reserves beginning Oct. 2011.

3. Market operations	Federal Reserve System
3.1 Main operations	
3.1.1 Functions	Fine-tuning (shorter term), seasonal swings in autonomous factors (longer term).
3.1.2 Types of operations	Repo.
3.1.3 Maturities of operations	Usually O/N to 14 days, up to 65 business days allowable.
3.1.4 Frequency of operations	Daily (shorter term), weekly (longer term).
3.2 Other discretionary operations	
3.2.1 Functions	Offset permanent reserve shortages arising from autonomous factor movements (outright purchases); addressing temporary reserve surpluses (reverse Repos). In December 2007, a new term auction facility program was established on a temporary basis. This facility is a discretionary tool for managing liquidity that provides term funds to a broader range of counterparties and against a broader range of collateral than is possible with conventional open market operations.
3.2.2.Types of operations	Outright purchases; reverse Repos (as needed but uncommon); outright sales (rare). Under the term auction facility program, term funds are auctioned to depository institutions against a wide variety of discount window collateral (see below). Any depository institution that is deemed by its local Reserve Bank to be in generally sound financial condition and is eligible to borrow under the primary credit discount window program may participate. Advances must be fully collateralized.
3.2.3 Maturities of operations	
3.2.4 Frequency of operations	Varies.
3.3 Collateral	
3.3.1 Status and use of standing facilities/discount window	Available to depository institutions with pledged collateral only.
3.3.1.1 List of eligible collateral for standing facility	U.S. government and agency securities. Non-US sovereign debt obligations (euro, yen, sterling, Australian dollar, Canadian dollar, Swiss franc, Danish krone, Swedish krone) and international agency debt. Municipal and corporate bonds, U.S. and foreign (euro, yen, sterling, Australian dollar, Canadian dollar, Swiss franc, Danish krone, Swedish krone). Investment grade commercial paper. Asset-backed securities. Bank-issued assets such as CDs and banker's acceptances. Customer loans, such as commercial loans, consumer loans – autos, 1-4 family, HELOC, credit card, private banking.
3.3.1.2 Discretion of the central bank to expand collateral types, and list of additional collateral types that the central bank can take on a discretionary basis	Under exceptional circumstances, Federal Reserve Banks may take virtually any asset owned by a depository institution, including physical assets, equity, etc.
3.3.2 List of eligible collateral for open market operations	Securities issued or guaranteed by the United States or by U.S. agencies. At present, we accept: Repo operations: US Government securities; US agency securities; US agency mortgage backed securities; Permanent open market operations: US government securities.
3.3.2.1 Discretion of the central bank to expand collateral types for open-market operations, and list of	Discretion is limited by the Federal Reserve Act which allows the Federal Reserve System to also purchase: Gold; Foreign government obligations;

<p>additional collateral types that the central bank can take for OMOs on a discretionary basis</p>	<p>Certain obligations of state and local governments, specifically, securities used “in anticipation of taxes or revenues”. Maturity from date of purchase cannot exceed six months;</p> <p>Certain private-sector credit instruments, specifically, foreign exchange, Bankers’ acceptances and “bills of exchange arising out of actual commercial transactions”, ie those issued or drawn for agricultural, industrial, or commercial purposes, but not bills covering merely investments or issued or drawn for the purpose of carrying or trading stocks, bonds, or other investment securities, except US Government securities.</p> <p>In “unusual and exigent” circumstances, the types of bills of exchanges that are eligible to be purchased are open to interpretation. The use of options has also been allowed. The FOMC has authorized the purchase or sale of options only once, during Y2K in order to promote smooth functioning of money and financing markets. The buying or selling options on Treasury securities in these circumstances was seen as an “incidental” extension of the purchasing and selling of Treasury securities that the Federal Reserve is clearly authorized to undertake.</p> <p>Any change in the current operating procedures and collateral would need to be approved by the FOMC.</p>
<p>3.3.2.2 Additional information (i.e. delays required if discretionary collateral changes)</p>	<p>Discount Window: The Federal Reserve Act also allows for Discount Window lending to IPCs (Individuals, Partnerships, and Corporations) under certain circumstances. This type of facility would be used only in exigent circumstances where the entity (or person) is critical to the US economy and it is subject to approval by at least five members of the Board of Governors of the Federal Reserve System.</p>
<p><b>4. Monetary policy communication</b></p>	<p><b>Federal Reserve System</b></p>
<p>4.1 Announcement of policy decision</p>	<p>Yes.</p>
<p>4.1.1 Timing and media of announcement</p>	<p>Shortly after FOMC meetings conclude in early afternoon; posted on Federal Reserve public website and release of press statement.</p>
<p>4.1.2 Policy announcement</p>	<p>Fed funds rate target.</p>
<p>4.1.3 Explaining the decision</p>	<p>Yes.</p>
<p>4.1.4 Associated documents</p>	<p>Press release / short statement explaining the decision.</p>
<p>4.1.5 Discretion left to operational desk</p>	<p>None.</p>
<p>4.2 Publication of minutes</p>	<p>Yes.</p>
<p>4.2.1 Timing and media of announcement</p>	<p>Minutes released no later than 3 weeks after the date of the policy decision on the website.</p>
<p>4.2.2 Content</p>	<p>Economic and financial considerations influencing members’ policy discussion.</p>
<p>4.3 Economic/inflation forecasts</p>	<p>Yes.</p>
<p>4.3.1 Legal status and mandate of reporting</p>	<p>Semi-annual written report to congress on monetary policy, with accompanying testimony by Chairman, required by law.</p>
<p>4.3.2 Nature of disclosure (inflation report, periodic bulletin, background notes, quantitative analysis etc.)</p>	<p>Addendum to minutes (also included in Monetary Policy Report).</p>
<p>4.3.3 Position in policy conduct</p>	<p>Preparation of projections adds to internal discussion prior to decision. Publication of summary of projections helps explain FOMC thinking to public.</p>
<p>4.3.4 Compiling body and owner of the forecast (Board, staff?)</p>	<p>Individual Governors and Reserve Bank Presidents own individual projections. Narrative description owned by FOMC.</p>
<p>4.3.5 Covering indicators</p>	<p>Includes the range, central tendency (lowest and highest 3 projections excluded), distribution of projections for annual changes in real</p>

	GDP, unemployment, total and core PCE inflation, made by the Governors and Reserve Bank Presidents. Measure of uncertainty from previous forecast experience of various groups.
4.3.6 Time horizon	2.5 to 3.25 years, calendar year basis.
4.3.7 Interest rate path used in the projection (current policy rate, implied interest rate according to market pricing, future rates estimated by the central bank?)	Each participant conditions on their (undisclosed) personal view of appropriate policy path.
4.3.8 Frequency of revision	Four times per year.
4.3.9 Publication and its timing	No later than 3 weeks after 1 <sup>st</sup> , 3 <sup>rd</sup> , 4 <sup>th</sup> and 7 <sup>th</sup> scheduled FOMC meeting.
4.4 Other channels of communication (testimonies, press conferences, speeches, interviews etc)	Congressional testimonies on assorted topics, occasional interviews; many speeches by FOMC members and participants each year. Meeting transcripts and supporting staff material available to the public after 5 calendar years.
4.5 Transparency of operations	High.
4.5.1 Announcement of liquidity forecast	No.
4.5.1.1 Forecast period	
4.5.1.2 Timing and media of announcement	
4.5.1.3 Major contents	
4.5.1.4 Information on reserves	
4.5.2 Dissemination of information on operations	Yes.
4.5.2.1 Types of operations	All types of open market operations.
4.5.2.2 Major contents	Size, types of collateral, average and stop-out rates, total proposition sizes with high and low rates.
4.5.2.3 Timing and media of dissemination	Immediately upon completion of each operation, via auction system and Federal Reserve Bank of New York website.
4.5.2.4 Other relevant information on operations
