

## STATISTICAL ANNEX CONTENTS

Tables	Pages	
<b>(A) International banking markets</b>		
1	BIS reporting banks: Summary of international positions.....	1
2	External positions of banks in individual reporting countries	
	A In all currencies vis-à-vis all sectors .....	2
	B In all currencies vis-à-vis the non-bank sector.....	3
	C In foreign currencies vis-à-vis all sectors.....	4
	D In foreign currencies vis-à-vis the non-bank sector .....	5
3	External loans and deposits of banks in individual reporting countries	
	A In all currencies vis-à-vis all sectors .....	6
	B In all currencies vis-à-vis the non-bank sector.....	7
4	Local positions in foreign currency of banks in individual reporting countries	
	A Vis-à-vis all sectors.....	8
	B Vis-à-vis the non-bank sector .....	9
5	Currency breakdown of reporting banks' international positions	
	A External positions vis-à-vis all sectors.....	10
	B External positions vis-à-vis the non-bank sector .....	11
	C External positions vis-à-vis official monetary institutions.....	12
	D Local positions in foreign currency vis-à-vis all sectors and vis-à-vis the non-bank sector .....	13
6	External positions of reporting banks vis-à-vis individual countries	
	A Vis-à-vis all sectors.....	14
	B Vis-à-vis the non-bank sector .....	22
7	External loans and deposits of reporting banks vis-à-vis individual countries	
	A Vis-à-vis all sectors.....	30
	B Vis-à-vis the non-bank sector .....	38
8	International positions by nationality of ownership of reporting banks	
	A Amounts outstanding .....	46
	B Estimated exchange rate adjusted changes .....	47
9	Consolidated international claims of BIS reporting banks on individual countries	
	A By maturity and sector.....	48
	B By nationality of reporting banks.....	56
10	Announced international syndicated credit facilities by nationality of borrower.....	64
<b>(B) Securities markets</b>		
11	International debt securities by country of residence .....	65
12	International debt securities by nationality of issuer	
	A All issuers .....	66
	B Financial institutions.....	67
	C Governments and state agencies .....	68
	D Corporate issuers.....	69
13	International debt securities by type, sector and currency	
	A Money market instruments .....	70
	B Bonds and notes .....	71
14	International debt securities by country of residence	
	A Money market instruments .....	72
	B Bonds and notes .....	73
15	International debt securities by nationality of issuer	
	A Money market instruments .....	74
	B Bonds and notes .....	75
16	Domestic debt securities by sector and country of issuer	
	A All issuers and public sector .....	76
	B Financial institutions and corporate issuers .....	77
17	Announced international equity issues by nationality of issuer.....	78

Tables	Pages
--------	-------

<b>(C) Derivatives markets</b>		
18	Amounts outstanding of over-the-counter (OTC) derivatives by risk category and instrument.....	79
19	A Amounts outstanding of OTC foreign exchange derivatives by instrument and counterparty.....	79
	B Amounts outstanding of OTC foreign exchange derivatives by currency .....	80
	C Notional amounts outstanding of OTC foreign exchange derivatives by instrument, maturity and counterparty .....	80
20	A Amounts outstanding of OTC single-currency interest rate derivatives by instrument and counterparty.....	81
	B Amounts outstanding of OTC single-currency interest rate derivatives by currency.....	81
	C Notional amounts outstanding of OTC single-currency interest rate derivatives by instrument, maturity and counterparty .....	82
21	A Amounts outstanding of OTC equity-linked and commodity derivatives by instrument and counterparty.....	82
	B Amounts outstanding of OTC equity-linked derivatives by instrument and market.....	83
	C Notional amounts outstanding of OTC equity-linked derivatives by instrument, maturity and counterparty .....	83
22	Derivative financial instruments traded on organised exchanges by instrument and location	
	A Notional amounts .....	84
	B Number of contracts.....	85
	Notes to tables and breaks in series .....	86
	Special features incorporated in “International banking and financial market developments”.....	89

## Notes to tables

Note:

Data for the most recent period are provisional.

Table 1

The data in Tables 1 to 8 (the *locational* BIS banking statistics) cover banks' unconsolidated gross international on-balance sheet assets and liabilities. The data are based on the residence of the reporting institution and therefore measure the activities of all banking offices residing in each reporting country. Such offices report exclusively on their own unconsolidated business, which thus includes international transactions with any of their own affiliates (for data on the BIS consolidated banking statistics, see Table 9). BIS reporting banks include banks residing in the Group of Ten countries, Luxembourg, Austria, Denmark, Finland, Ireland, Norway, Spain, the Bahamas, Bahrain, the Cayman Islands, Hong Kong, the Netherlands Antilles and Singapore, and the offshore branches of US banks in Panama. Inside area countries also include positions vis-à-vis Aruba, Barbados, Bermuda, Lebanon, Liberia, Vanuatu and the British West Indies.

The unallocated item includes international institutions other than the BIS and on the liabilities side banks' issues of debt securities for most reporting countries.

Local positions in foreign currency are available from all reporting banks except those in the United States, Hong Kong and (for liabilities vis-à-vis non-banks) Japan. For Singapore, local positions include interbank business only ("Local" refers to positions vis-à-vis residents).

Tables 2

"Other reporting countries" include under "Other" the Netherlands Antilles and the offshore branches of US banks in Panama. In the case of the United States and Singapore, the data do not include banks' holdings and own issues of securities.

Table 2 B

For banks in the United States, the data relate to domestic currency positions only.

Table 2 C-D

Except for Hong Kong, the positions of banks in "Other reporting countries" include those in domestic currency.

Tables 3 A-B

For most reporting countries, the data on external loans and deposits are derived from reporting as such or calculated by subtracting separately reported data on positions other than loans and deposits from total external assets and liabilities. The Bahamas, Bahrain, the Cayman Islands and the Netherlands Antilles do not provide this information separately. Their data on international loans and deposits therefore equal the data on external assets and liabilities shown in Tables 2 A-B. The United States and Singapore only report data on external loans and deposits. Their data on international loans and deposits therefore also equal the data on external assets and liabilities shown in Tables 2 A-B (see notes to Tables 2).

Tables 4 A-B

In the case of Belgium and Luxembourg, the data relate to residents of both countries.

Tables 5

For periods until December 1998, the data on domestic currency positions held in euro area currencies relate to the ECU and all euro legacy currencies, except the escudo. The data on foreign currency positions held in euro area currencies cover only the ECU and those five euro legacy currencies (BEF, DEM, FRF, ITL and NLG) that were reported separately.

Tables 5 A-B

Owing to the lack of a currency breakdown, the foreign currency positions of banks in the United States are included under "Unallocated". Claims on non-banks include the positions of banks in the United States and their offshore branches vis-à-vis official monetary institutions. No currency breakdown is available for "Other reporting countries".

Table 5 C

Excludes, on the assets side, the positions of banks in the United States and their offshore branches, which are indistinguishably included under positions vis-à-vis non-banks.

Table 5 D

The data cover all reporting banks, except those in the United States, Hong Kong and (for liabilities vis-à-vis non-banks) Japan. For Singapore, local positions relate to interbank business only.

Table 6 A

Positions vis-à-vis Switzerland include those vis-à-vis the BIS. The residual item for Middle Eastern countries includes the positions of banks in the United States and their branches in Panama vis-à-vis Middle Eastern OPEC countries (including positions vis-à-vis Bahrain, but excluding those vis-à-vis Libya, which appear under the residual item for African countries), as well as the residual positions of banks in the Bahamas vis-à-vis Middle Eastern OPEC countries. The residual item for African countries includes the positions of banks in the United States vis-à-vis African OPEC countries.

For reasons of confidentiality, positions vis-à-vis certain countries may be included under the residual or unallocated items.

Table 6 B

The inclusion of data on positions of banks in the United States vis-à-vis individual countries is indicated by the letter U placed after the names of the countries for which such figures are available. In the case of the offshore branches of US banks in Panama, only the positions vis-à-vis the US non-bank sector are available separately. See also notes to Table 6 A.

Tables 7 A-B

See notes to Tables 3 A-B. In the case of the reporting countries Hong Kong and Japan, the breakdowns of international loans and deposits by vis-a-vis country have been partly estimated.

Table 8

The data cover cross-border positions in all currencies plus local foreign currency positions of banks located in the group of "Industrial reporting countries" and Hong Kong. The data for banks in the United States relate to domestic currency only. In addition, the data cover cross-border positions in foreign currency of the offshore branches of US banks in the Bahamas, the Cayman Islands, Panama, Hong Kong and Singapore.

Positions vis-à-vis "related offices" cover cross-border positions only. In the case of banks in Canada, such positions are given for Canadian banks only.

Claims on official monetary institutions are not reported separately for banks by the Netherlands, while in the case of banks in the United States and their offshore branches, the claims are included under positions vis-à-vis non-banks.

Tables 9

The data (the *consolidated* BIS banking statistics) cover banks' worldwide consolidated international on-balance sheet assets. The data are based mainly on the country of incorporation of the reporting institutions and measure the international lending activities of banks' head offices in the reporting countries and all their offices at home and abroad, with positions between offices of the same bank being netted out. In addition, foreign banks in reporting countries are requested to supply some information about their international lending activities on an unconsolidated basis. The reporting countries comprise the Group of Ten countries plus Luxembourg, Austria, Denmark, Finland, Ireland, Norway and Spain.

Table 9A

Data for individual countries may differ from national data released by these countries themselves, as a result of differences in reporting definitions and coverage between creditor and debtor reporting systems. The column "Banks with head offices outside the country of residence" covers claims on banks with head offices outside the country in which they are located. The data provide an approximation of the double-counting which arises when banks in the reporting area report claims on affiliates of other inside area banks.

Claims vis-à-vis reporting countries do not include data from Norway. Data on total claims in column A exclude local claims in foreign currencies of foreign affiliates of US banks which are included indistinguishably in column L with local claims in local currency.

The memorandum item on net risk transfer relates to the reallocation of claims from the country of the immediate counterparty to that of the ultimate borrower as provided by 13 of 18 reporting countries. A positive/negative number indicates a higher/lower exposure than shown by total claims in column A. In principle, the country of the ultimate counterparty (or of ultimate risk) is considered to be the country where the guarantor of a financial claim resides or where the head office of a legally dependent branch is located. However, this definition is not yet consistently applied by all countries. In some cases the data exclude guarantees, while in others they also include claims on legally independent subsidiaries, without any explicit guarantee being given.

Table 9B

The data on individual nationality groups of reporting banks may differ from data published in national sources, owing primarily to the fact that the data presented here relate to the consolidated claims of domestically owned banks only, while published national sources may in certain cases cover the unconsolidated claims of local subsidiaries and branches of foreign banks as well. The grand total in the first column of the table also includes the international claims of domestically owned banks in Luxembourg and Switzerland, which are not shown separately in this table, as well as those of local subsidiaries and branches of banks which have their head offices outside the BIS reporting area.

Denmark reports its data on an unconsolidated basis and Germany on a partially consolidated basis. Claims vis-à-vis reporting countries do not include data from Norway. The data for the United States exclude local claims in foreign currencies, which are included indistinguishably in Table 9A, column L, with local claims in local currency.

Table 10

The data cover announcements of international syndicated credit facilities that are granted by syndicates consisting of at least three financial institutions (thus excluding bilateral deals) acting as arranger/co-arranger, lead manager/co-lead manager, manager/co-manager, member of a tender panel or participant; the nationality of at least one of the syndicate banks must differ from that of the borrower. Facilities must take the form of one or a combination of the following instruments: term loan, revolving credit, cofinancing facility, export credit, bridge facility, construction loan, mezzanine loan or multiple options facility. Furthermore, only signed facilities with a maturity of at least one year and for an amount equivalent to at least \$1 million are included. Finally, there are no restrictions on the purposes to which the proceeds of the facilities might be directed and the data therefore also include refinancing facilities. Sources: Capital DATA; BIS.

Tables 11–15

"International debt securities" in Tables 11 and 12 include international money market instruments, bonds and notes.

"Country of residence" in Tables 11 and 14 is determined by the residence of the borrower and conforms with the balance of payments methodology. "Nationality of issuer" in Tables 12 and 15 (and in Table 13B for Japanese issuers) is determined by the country of incorporation of the parent company of the borrower; it is an approximation to the concept of ultimate risk, even though it includes the issues of foreign subsidiaries, which may not always have been guaranteed by the parent company.

The data on net issues of money market instruments and notes are calculated as changes in amounts outstanding at constant exchange rates. The data on net issues of international bonds represent transaction data and are obtained by deducting scheduled and early repayments from data on completed issues but adding the implied interest accruals on zero coupon bonds; repayments of non-US dollar bonds are converted at the exchange rates prevailing at the beginning of the repayment quarter.

The data on gross issuance in Tables 13A, 14A and 15A exclude issues redeemed in the same quarter.

The memorandum items in Tables 13A and 13B contain aggregates for all of the OECD countries and selected emerging markets as shown in Table 16. Sources: Bank of England; Capital DATA; Euroclear; ISMA; Thomson Financial Securities Data; BIS.

Table 16 A–B

The data cover OECD countries plus selected emerging markets. The data on net issues of domestic debt securities are calculated as changes in amounts outstanding at constant exchange rates. "Other short-term notes" include mainly certificates of deposit (CDs).

Data on short-term notes for Argentina include CDs in domestic and foreign currency. The public sector figures for Argentina include “bonos” issued in foreign currency.

Data for China also include issues by banks, which are allocated to the private sector. Data for Hong Kong relate to issues in Hong Kong dollars, excluding those identified as international.

Indian public sector domestic securities exclude those of government-guaranteed bodies.

For the Netherlands, the source for data on domestic Medium-term notes (MTNs) is different from that for data on domestic bonds, and there may therefore be some overlaps. Furthermore, data on domestic commercial paper (CP) include foreign issues in Dutch guilders. Issues of CDs by the Netherlands Bank are included under private short-term notes.

UK data on CP and MTNs and French data on short-term notes also include foreign issues. UK data include domestically targeted euro treasury bills and notes.

Data for US short-term notes include CDs plus other time deposits. The US data on domestic CP include foreign issues.

The latest available bonds data for Belgium and the Chinese public sector relate to end-1998. The latest available data for Malaysia relate to end-March 1999. Data on US MTNs are available up to end-1998. The latest available data on amounts outstanding have been carried forward for the periods thereafter. Sources: Central banks and other national authorities.

Table 17

The data cover the underwriting and distribution of new shares in markets outside the issuer’s domestic market. The statistics include shares made available in the form of primary placements (offering of new shares aimed at raising capital) or secondary placements (offering of existing shares). Sources: Capital DATA; BIS.

Tables 18–21

The data are derived from new BIS statistics on OTC derivatives markets and cover the notional amounts and gross market values outstanding of the worldwide consolidated OTC derivatives exposure of major banks and dealers in the G10 countries. All figures are adjusted for double-counting and cover the four main categories of market risk: foreign exchange, interest rate (single-currency contracts only), equity and commodity. The notional amount, which is generally used as a reference to calculate cash flows under individual contracts, provides a comparison of market size between related cash and derivatives markets. Gross market value is defined as the sum (in absolute terms) of the positive market value of all reporters’ contracts and the negative market value of their contracts with non-reporting counterparties. It also measures the replacement cost of all outstanding contracts had they been settled in the reporting period.

Table 18

For end-June 1998 data, “Other” includes positions reported by non-regular reporting institutions in the context of the triennial Central Bank Survey of Foreign Exchange and Derivatives Market Activity at end-June 1998; for subsequent reporting periods, “Other” covers estimated positions of non-regular reporting institutions. “Gross credit exposure” includes gross market values after taking into account legally enforceable bilateral netting agreements.

Table 19 B

Counting both currency sides of every foreign exchange transaction means that the currency breakdown sums to 200% of the aggregate.

Tables 19 C, 20 C  
and 21 C

The maturity brackets refer to residual maturities.

Tables 22 A–B

Sources: FOW TRADEdata; Futures Industry Association; various futures and options exchanges; BIS.

**Breaks in series for data in Tables 1–8**

September 1997	United Kingdom .....	Reclassification of the Channel Islands and the Isle of Man as “non-resident” for statistical purposes.
December 1997	France .....	Increase in reporting population.
	Ireland .....	Increase in reporting population.
March 1998	Bahrain .....	Increase in reporting population.
	France .....	Increase in reporting population.
March 1999	Euro area currencies .....	Reclassification of legacy currencies of the euro from foreign to domestic currency positions in the context of the introduction of the euro.
	Germany .....	Reclassification of positions in the context of the introduction of the euro.
	Ireland .....	Exclusion of certain own issues of securities from the reporting.
	Netherlands.....	Reclassification of positions as a result of a new reporting system.
	Switzerland .....	Increase in reporting population.

## **Special features incorporated in "International banking and financial market developments"**

August 1999	Restructuring in the global banking industry
March 1999	The yen carry trade and recent foreign exchange market volatility
August 1998	The consolidated international banking statistics in perspective
February 1998	The role of major currencies in emerging foreign exchange markets
November 1996	The market for international asset-backed securities
February 1996	Interest rate futures: Characteristics and market development (Part 2)
November 1995	Interest rate futures: Characteristics and market development
August 1995	Issues in cross-border securities settlements
February 1995	Recent developments in the international interbank market
November 1992	Recent developments in the external payments and financing of selected Latin American countries
August 1992	Recent developments in the external payments and financing of selected East Asian countries
May 1992	Derivative financial instruments and banks' involvement in selected off-balance-sheet business
February 1992	Recent developments in the ECU financial markets
November 1991	The nationality structure of the international banking market since end-1985
August 1991	Domestic and international commercial paper markets
May 1991	The international and domestic bond markets
February 1991	Recent developments in the external payments and financing of central and eastern European countries
November 1990	Recent developments in reporting banks' business with Middle Eastern OPEC countries
August 1990	The markets for interest rate and currency swaps and related derivative instruments
May 1990	Payments of interest and principal in the international bond markets: 1986-95
February 1990	Non-bank deposits in the international banking market
November 1989	The interest rate and currency swap markets
August 1989	The nationality structure of the international banking market, 1983-88
May 1989	The currency structure of reporting banks' business with countries outside their own area
February 1989	Developments in the ECU financial markets
December 1988	The international securities markets in the first half of 1988
