Abbreviations used in the tables	24

Conventions used in the tables

0 = Value close to zero.

... = Reported to be nil, not reported, not shown for reasons of confidentiality, not meaningful or not applicable.

Owing to rounding and incomplete reporting of various breakdowns, the component items do not always sum to the total for the category in question.

"Gross" refers to data for which no adjustment has been made for estimated double counting; "net-gross" refers to data for which adjustments have been made for estimated local double-counting; and "net-net", or "net", refers to data adjusted for both local and cross-border double-counting.

OTC single currency interest rate derivatives turnover by instrument, currency, counterparty and country: summary table

'Net-net' basis¹, daily averages in April 2025 in millions of US dollars

¹ Adjusted for local inter-dealer double-counting (ie "net-gross" basis). Data may differ slightly from national survey data owing to differences in aggregation and rounding. The data for the Netherlands are not fully comparable over time due to reporting improvements in 2013. The 2019 data for Switzerland are not fully comparable with past periods due to reporting improvements in 2019. The United Arab Emirates since 2022 include the Dubai Financial Services Authority data. * Revised data.

¹ Adjusted for local and cross-border inter-dealer double-counting (ie "net-net" basis). Turnover for years prior to 2013 may be underestimated owing to incomplete reporting in previous surveys. Methodological changes in the 2013 survey ensured more complete coverage of activity in emerging market and other currencies. See annex for abbreviations. ² Exchange traded derivatives. See separate BIS statistics, <https://stats.bis.org/statx/srs/table/d2>. * Revised data.

Annex: abbreviations used in the tables

AED	United Arab Emirates dirham
ARS	Argentine peso
