The ECB’s previous forward guidance

Key ECB interest rates

• expected to remain at present levels for an extended period of time
• and well past horizon of net asset purchases

Asset purchase programme (APP)

• net asset purchases intended to continue at monthly pace of €30 billion, until end-Sep 2018
• or beyond, if necessary & in any case until GovC sees sustained adjustment in path of inflation (SAPI) consistent with inflation aim
• Eurosyste will reinvest principal payments from maturing securities for an extended period of time after end of net purchases, and in any case for as long as necessary
The ECB’s current forward guidance

Key ECB interest rates

• expected to remain at present levels at least through the summer of 2019
• and for as long as necessary to ensure evolution of inflation remains aligned with our current expectations of a sustained adjustment path

Asset purchase programme (APP)

• Anticipate reduction of monthly pace of net asset purchases of €30 billion to €15 billion at end-Sep 2018 and end net purchases at end-Dec 2018
• Eurosystem will reinvest principal payments from maturing securities for an extended period of time after end of net purchases, and in any case for as long as necessary
